PART I. BUSINESS AND GENERAL INFORMATION

Item 1. Business

A. Description of Business

1. Business Development

Philippine Savings Bank (PSBank) was incorporated on June 30, 1959 primarily to engage in savings and mortgage banking. In 1983, Metrobank acquired majority share in the Bank, and in 2004 further increased its shareholdings to the present level of 83%.

In 1991, the Bank was authorized to perform trust functions, and in 1995, was granted quasi-banking license. In 1994, PSBank became the country's first publicly listed thrift bank.

It has outpaced its key competitors and is the country's second largest thrift bank in terms of assets today. It caters mainly to the retail and consumer markets and offers a wide range of products and services such as deposits, loans, treasury and trust.

The Bank has a 40% interest in Sumisho Motor Finance Corporation (SMFC), a partnership with Sumitomo Corporation. SMFC is not listed in the stock exchange.

Its principal office is located at the PSBank Center, 777 Paseo de Roxas corner Sedeño Street, Makati City.

The past years marked very significant growth as the Bank continued to grow its core business and has been consistently on track in hitting its year-end targets. The Bank has sustained its focus on retail deposit taking and consumer lending to upper-and middle-classes by providing efficient and creative banking solutions through its wide distribution network.

	Total Resources	Net Income	Branch
2016	₱196.85 billion	₱2.45 billion	255 branches
2015	₱169.33 billion	₱2.35 billion	248 branches
2014	₱145.61 billion	₱2.32 billion	245 branches

In **2016**, the Bank reported a full year net income ended at ₱2.45 billion, ₱99.94 million, or 4.25% higher than the same period last year of ₱2.35 billion. The increase in net income was due to higher core and other operating income in 2016 versus 2015. Loans and Receivables reached ₱127.22 billion which was higher than the December 2015 level of ₱113.87 billion due to sustained increase in the consumer lending business, particularly by auto loans and mortgage loans. In 2016, the Bank had 255 branches and 611 ATMs nationwide.

As of December 31, 2016, total Tier II Notes of the Bank amounted to ₱5.98 billion. In May 2014, the Bank issued Tier II Notes that qualified as Tier II capital under the BSP's revised risk-based capital adequacy framework in line with BASEL III standards due to its loss absorption feature. On July 28, 2016, the Bank received an issuer rating of PRS Aaa (corp.) from Philippine Rating Services Corporation (PhilRatings). An issuer rating means that the company has a very strong capacity to meet its financial commitments relative to other Philippine corporates. A PRS Aaa is the highest corporate credit rating assigned on the PRS scale.

The Asian Banker recognized PSBank as the 2nd strongest bank in the Philippines and had been the only thrift bank in the list for the 6th consecutive year. PSBank and its parent company, Metrobank, bagged the Auto Loan Product of the Year by the Asian Banker for being the market leaders in the auto loans business both in the region and in the country.

For the 2nd straight year, the Bangko Sentral ng Pilipinas (BSP) through its Pagtugon Award for Thrift Banks awarded PSBank for excellence in responding to and addressing client's concerns.

PSBank was recognized in the Customer Experience Asia Awards for providing exceptional end-to-end customer experience, winning a Bronze Award category and honorable mention in the Best Customer Experience Team category.

The Bank was also recognized at the Annual Asia Pacific Stevie Awards for PSBank LiveChat – the first and only real-time chat service in the Philippine banking industry – which won in the Innovative Use of Technology for Customer Service category for the financial industry.

PSBank Mobile Version 2.0, its mobile banking facility that has an easy-to-use interface and security features that allows clients to perform their banking transactions faster and in a more secure environment was recognized at the Asian Banking & Finance Retail Banking Awards 2016 as the Mobile Banking Initiative of the Year.

In 2016, we heightened engagement with our customers on all fronts: from our branches to electronic touch points, and recently in social media.

In **2015**, the Bank reported a full year net income of ₱2.35 billion which was 1.39% higher than the ₱2.32 billion recorded in the same period last year. The increase in net income was due to higher core income in 2015 versus 2014. Its loans and receivables increased by 18.91% to ₱113.87 billion with the sustained increase in its consumer lending business, particularly Auto and Mortgage Loans. It continued to expand its branch network and ended the year with 248 branches and 614 ATMs nationwide. It also renovated a total of 28 branches.

PSBank maintained its Issuer Rating of PRS Aaa (corp.) from the Philippine Rating Services Corporation (Philratings). The rating is in line with its outstanding Tier 2 Unsecured Subordinated Notes issued in 2014 and means that it has very strong capability to meet its financial commitments relative to other Philippine corporations. PRS Aaa is the highest corporate credit rating assignment on the PRS scale.

The Bank emerged as the only savings bank in the Asian Banker 500 (AB 500) list of the Philippines' Top 10 strongest banks by balance sheet. It has kept its spot in the list for the past five consecutive years. PSBank ranked 8th strongest bank by balance sheet, reflecting its strong sales and deposit-taking initiatives, prudent risk management, and above-average capital adequacy.

It was conferred the Pagtugon Award by the Bangko Sentral ng Pilipinas (BSP) for excellence in responding to and addressing issues or concerns of clients referred by the BSP. The award is a testament to its dedication in providing top-quality customer service and delivering on its "Simple Lang, Maaasahan" commitment to all its clients.

PSBank was also recognized by the Social Security System (SSS) with the Balik at Bayan Best Paying Partner Thrift Bank award for its role as the pension fund's partner in providing universal, equitable, and viable social security protection to its members. Awardees are recognized for their compliance to provisions of the social security law in terms of coverage, collection and giving out benefits, accuracy and timeliness of reports to the SSS and participation in SSS programs.

During the year, the Bank introduced the Lock and Unlock facility for its ATM cards to provide clients with a tool that will help ensure their accounts' safety amid the rising incidence of ATM and card fraud. The ATM Lock feature is a service that provides an additional layer of protection to PSBank cardholders from ATM loss, theft, skimming and other card-initiated electronic fraud. It allows clients to lock their ATM cards from use for as long as they prefer and unlock them when needed.

On the branch level, it introduced an automated lobby management system called PSBank Queue Anywhere wherein customers can use a laptop or mobile phone to book a transaction ahead with any PSBank branch. The system reduces waiting time and allows the immediate completion of transactions.

PSBank also launched its Mobile 2.0, its mobile banking facility that has an easy-to-use interface and security features that allows clients to perform their banking transactions faster and in a more secure environment. The mobile app allows clients to apply for a loan, search for an ATM or branch, transfer funds, pay bills, buy reloads, among others.

Lastly, the PSBank website www.psbank.com.ph was enhanced to provide a seamless customer experience. The secure site was provided with a clean look and streamlined design that allow easy navigation and adaptability to any device – whether laptop, tablet or mobile phone.

In **2014**, the Bank's net income after tax was at ₱2.32 billion, 21% lower than the previous year. The decrease in net income was due to lower trading gains in 2014 versus 2013. Despite this, its retail lending business mostly coming from auto and mortgage loans provided good core income growth. It continued to expand its branch network by putting up 21 additional branches and 44 ATMs. PSBank ended the year with 245 branches and 595 ATMs.

PSBank successfully issued ₱3.0 billion in Basel 3-compliant Tier 2 Unsecured Subordinated Notes in May 2014. The Notes, aimed to strengthen the Bank's capital base and further expand its banking operations, will mature on August 2024, with a call option in August 2019. In line with the issuance, the Bank was given an Issuer Rating of PRS Aaa (corp) by Philippine Ratings Corporation. The rating is the highest possible corporate rating on the PRS scale.

The Bank was ranked fifth strongest bank in the Philippines by the Asian Bank (AB) in its AB500 annual ranking for 2014-2015. It was the only savings bank in the Top 5. This is the fourth consecutive year that PSBank was included in the AB500, which ranks the strongest and largest banks in the Asia Pacific region based on data gathered from bank annual reports, central banks and industry associations.

For the first time, PSBank was recognized as one of 10 finalists in the Philippine Stock Exchange Bell Awards in 2014. The PSE Bell Awards is a distinct honor given to publicly listed companies and trading participants for their adherence to the highest standards of corporate governance and regulatory compliance. The program seeks to recognize the best corporate governance practices and improve the image of the Philippines as an investment destination.

PSBank also entered a bancassurance partnership with AXA Philippines to provide its customers with easier access to AXA's wide range of insurance products. Starting June 2014, PSBank clients looking for insurance solutions were referred to AXA representatives in its 123 branches in Metro Manila.

The Bank launched its first ever Unit Investment Trust Fund (UITF) product, the PSBank Money Market Fund in 2014. The product made investing easy and affordable with a minimum amount of only ₱10,000. The product targets young professionals starting their own families and OFWs who are looking for investment alternatives to real estate and time deposits.

During the year, PSBank started offering its PSBank Online Mobile App, a real-time online banking facility that allows access to products and services using smartphones and tablets. The mobile app provides clients the ability to perform a wide range of transactions while on the move: paying utility bills, reloading prepaid credits for mobile phones, monitoring bank accounts, reordering checkbooks, reloading the PSBank Prepaid Mastercard, and freezing or blocking an ATM card in case of loss or theft.

Lastly, PSBank gave clients more ways to interact with the Bank through the PSBank Live Chat. By simply going to the Bank's website www.psbank.com.ph, existing and potential clients anywhere in the world can contact customer service assistants regarding their inquiries on deposits, loans, investments and other banking concerns. This is the first real-time chat service in the Philippine banking industry and provides clients with instant / real-time answers to their inquiries.

2. Business of Issuer

a) Products and Services

PSBank, a member of the Metrobank Group, has been ranked by the Asian Banker, alongside the biggest players in the Philippine banking industry as the 2nd strongest bank in the Philippines and the only savings bank in the list for the 6th consecutive year. It has expanded its network to over 200 branches and more than 600 ATMs nationwide, and strives to consistently make banking simple, fast and convenient to its customers.

c) Distribution Methods of Products and Services

The Bank's operating segments are organized and managed separately according to the nature of services provided and the different markets served, with each segment representing a strategic business unit that offers different products and serves different markets. The Bank's reportable segments are as follows:

- i. Consumer Banking - principally provides consumer-type loans generated by the Home Office;
- ii. Corporate Banking - principally handles loans and other credit facilities for small and medium enterprises, corporate and institutional customers acquired in the Home Office;
- iii. Branch Banking - serves as the Bank's main customer touch point which offers consumer and corporate banking products; and
- iv. Treasury - principally handles institutional deposit accounts, providing money market, trading and treasury services, as well as managing the Bank's funding operations by use of government securities and placements and acceptances with other banks.

The Bank has no single customer with revenues from which is 10.00% or more of the Bank's total revenue. The Bank presented the disclosure requirements prescribed under PFRS in Note 6 of the Audited Financial Statements (EXHIBIT 5).

The Bank's assets generating revenues are all located in the Philippines.

d) Status of any publicly-announced new products or services

Products	Date Launched
PSBank is now on social media	February 22, 2016
PSBank Online Auto Loan Application	February 22, 2016
ATM Lock (now available at PSBank Online)	February 23, 2016
PSBank E-Trust	March 28, 2016
BOB or Corporate Internet Banking	May 2, 2016

e) Competition

The Philippine banking industry is highly competitive and increasing competition may result in declining margins in the Bank's principal businesses. The banking industry in the Philippines has, in recent years, been subject to consolidation and liberalization, including liberalization of foreign ownership regulations. According to Bangko Sentral ng Pilipinas (BSP), as of 31 March 2017, the universal and commercial banking sector consist of 21 universal banks, 21 commercial banks, 59 thrift banks, 470 rural banks and 28 cooperative banks.

PSBank is 83%-owned by the Metrobank Group, which is the second largest Philippine universal bank in terms of assets and deposits. Metrobank is one of the leading expanded universal banks in the country with more than 800 local and international offices and subsidiaries. Metrobank and PSBank serve distinct core markets and coordinate on market segmentation.

PSBank accounted for 18% of total assets among thrift banks as of end-2016 based on the latest published financial statements of the BSP. It has been aggressive in the consumer and retail banking arena, launching various marketing campaigns to go head on against competition. Amid tight competition and market uncertainty, PSBank managed to sustain its growth momentum through the integration of various efficiencies in its operations.

f) Customer/Clients

There is no single customer that accounts for 20% or more of the Bank's deposits and loans.

g) Transactions with and/or dependence on related parties

Transactions with related parties and with certain directors, officers, stockholders and related interests (DOSRI) are discussed in Note 29 of the Audited Financial Statements (EXHIBIT 5).

h) Patents, Trademarks, Copyrights, Licenses, Franchises, etc.

The Bank sells its products and services thru the PSBank trademarks and/or tradenames.

i) Government approval of principal products or services

Its authority to operate as a thrift bank governs the Bank's principal products and services. Existing products and services are within the scope allowed under the Bank's regulatory licenses.

j) Research and Development Costs

There are no major expenses on research and development activities. Expenses incurred related to these activities are included into the regular business expense of the Bank.

k) Employees

PSBank's strategic thrust is Customer Experience (CX). CX is every customer's complete positive experience with PSBank thru all channels. For this to happen, it is imperative that employees also have a highly positive experience in their stay with the Bank. Thus, PSBank ensures the following important needs of the employees are met - physical, mental, spiritual, and emotional.

For the physical needs, PSBank advocates a hazard-free work environment conducive to the well-being and professional development of its employees. HRG conducts constant branch visits and checkpoints with units to appropriately assess the engagement levels of the employees. HRG partners with General Services Division and the PSB Employees Union in order to strictly adhere to the occupational safety and health standards of Department of Labor and Employment. A good example is the Bank's full support for the needs of nursing mothers. PSBank gives an aggregate of sixty (60) minutes per working day, exclusive of existing breaks, for breastfeeding or breast milk expressions in consideration of Bank exigencies.

The mental needs of employees are addressed via the ladderized learning and leadership development programs of the Bank. Such programs are generally identified as either strategic-related or for continuance. This allows for HRG to assess and design programs supporting the overall strategic direction of the business vis-à-vis the continuing education of its employees. SPEED 2.0 (branch) and XCEED (head office) are programs geared towards molding staff into well-equipped junior officers of the Bank. iDEAL BSCO and X2 Junior Officer Bridging Programs aim to elevate the leadership and team management skills of junior officers and team leaders. Sales Professional is the program designed to enhance the sales skills and effectiveness of sales personnel. The SOLiD program is designed further improve and develop strategic leadership skills of the Bank's Senior Officer people. The said programs are also connected to the Bank's succession plan.

The spiritual needs of employees pertain to their level of enjoyment and connection with a higher purpose to what they do. The I AM PSBank cultural framework of the Bank addresses this by giving the employees the big picture of being a PSBanker. I - stands for Integrity which is the quality of

being true, honest, and having strong moral principles. It emphasizes one's accountability in doing what is right even if no one is looking. A - stands for Adversity Index which is having Grit, Resilience, and a Growth Mindset. Grit is that resolve in fulfilling one's goals regardless of adversity. Resilience is the ability to stand and bounce back when undergoing hardship. Growth Mindset is one's passion for learning. It is that ability to sustain this passion amidst stretched goals. M - stands for Malasakit, a Filipino word which essentially means deep love and care. It looks at a PSBanker's love and CARE for the CUSTOMERS since they are the reason for our business; for the CO-WORKERS by taking care of fellow PSBankers; for the COMPANY since PSBank is one of the best reasons for the quality of life of each and every employee; and for the COMMUNITY as a continuing fulfillment of social responsibility. One such CSR program is the Bank's partnership with Manila Doctor's Hospital in adopting a large portion of the Arroceros Park. PSBank committed to the clean-up, development, and upkeep of the said portion. Clean-up activities started last March 25 and April 1, 2015 where 45 employees participated together with their family members.

The Bank encourages and cultivates a culture of coaching and mentoring which effectively focuses on the emotional needs of its employees. Supervisors as coaches inspire their direct reports to discover and unleash their "genius" level at work. Senior leaders mentor junior employees as a way of transferring their expertise and knowledge with the air of support and collaboration. Rewards and recognition programs are also in place with focus on meritocracy and promotion of excellence.

PSBank is also extraordinarily proud of its harmonious relationship with the Union. The recently concluded and highly successful Collective Bargaining Agreement (CBA) negotiation is a testament to this strong partnership. The new CBA, which is in effect for three years starting January 1, 2016 until December 31, 2018, has yielded improvements in almost all incentives, allowances and subsidies for the Rank and File employees. The Bank, in collaboration with the Union, regularly conducts the Labor-Management Council (LMC) aptly named as T.E.A.M. (Talks on Employees Affairs and other Matters) every 1st Wednesday of the month. In the LMC, issues are immediately discussed in a dialogue and settled even before they turn to grievances. Currently, HR and the Union are jointly documenting and collating their efforts in the LMC fact sheet with the eventual goal of entering and possibly winning, the Best LMC contest of NCMB.

The following are the existing and projected manpower complement:

	As of Dec 31, 2016	Projected – Dec 2017
Senior Officers	56	57
Junior Officers	1,073	1,096
Staff	1,988	2,030
Total	3,117	3,183

I) Risk Management

PSBank is exposed to all business risks that confront all banks in general, such as credit, market, interest, liquidity, legal, regulatory and operational risk. The Bank's risk management structure and process that serve as mechanism to identify, assess and manage these risks are further discussed in Note 5 of the Audited Financial Statements (EXHIBIT 5).

Item 2. Properties

The Bank owns the premises it occupies for the Head Office and 28 of its branches. These offices and branches are all in good condition and there is no mortgage or lien on any of these properties owned by the Bank. Schedule of owned branch sites is shown in EXHIBIT 1. The rest of the Bank's branch premises are under lease agreements. The Bank leases the premises occupied by its branches for periods ranging from 1 to 30 years renewable under certain terms and conditions. Various lease contracts include escalation clauses, most of which bear an annual rent increase of 10.00%. Rentals charged against profit or loss under these lease contracts amounting to ₱559.9 million and ₱521.8 million in 2016 and 2015, respectively. Please refer to EXHIBIT 2 for the schedule of branch sites under lease agreements.

The Bank has no immediate plans to acquire properties in relation to its branch expansion programs.

Item 3. Legal Proceedings

The Bank in the course of its operations and in running its business has several legal cases that are filed in its behalf and against it. However, these cases will not give any material effect to its financial status nor would have any material impact in continuing its operations. These cases are part of its daily business activities and consequence of its collection efforts and business dealings with the public.

Item 4. Submission of Matters to a Vote of Security Holders

No matter was submitted during the fourth quarter of the fiscal year covered by this report to a vote of security holders through the solicitation of proxies or otherwise.

PART II. OPERATIONAL AND FINANCIAL INFORMATION

Item 5. Market for Issuer's Common Equity and Related Stockholder Matters

1. Market Information

PSBank common shares were listed in the Philippine Stock Exchange (PSE) in 1994. The shares are traded under the symbol "PSB".

The high and low sales prices of the Shares as reported in the PSE for each quarter in the years ending December 31, 2016, 2015 and subsequent interim periods were as follows:

For the quarter-ended	Highest	Lowest
	In Php	
March 31, 2017	87.20	87.00
March 31, 2016	104.00	95.00
June 30, 2016	107.00	98.10
September 30, 2016	106.00	95.75
December 31, 2016	101.00	90.00

Minimum Public Ownership

As of March 31, 2017, public ownership of the Bank was at 15.66%. Of the total shares issued, 1.67 million shares or 0.69% represents foreign ownership.

1. Dividends and Dividend Policy

Dividends to be paid in cash are subject to the approval by a majority of the Board of Directors. Dividends to be paid in the form of stocks require the approval of a majority of the Board and the approval of shareholders representing no less than two-thirds of the Bank's outstanding capital stock.

Consistent with SEC rules, cash dividends declared by the Bank must have a record date of not less than 10 days but not more than 30 days from the date the cash dividends are declared/approved by the Board. With respect to stock dividends, the record date is at least 10 days or more than 30 days from the date of the stockholders' approval. However, the set record date should not be less than 10 trading days after the Philippine Stock Exchange (PSE) has received the notice of declaration of stock dividend. BSP regulations have since allowed banks to fix the record date and payment date on the date of dividend declaration, and pay such dividends without prior BSP approval, with the exception of banks with major supervisory concerns. In the event that a stock dividend is declared in connection with an increase in authorized capital stock, the corresponding record date is to be fixed by the SEC.

Unless approved via majority vote of the Board of Directors at a different rate depending on the Bank's earnings/results of operations, cash flow, financial condition and other factors or otherwise restricted/prohibited from declaring/paying dividends, the Bank regularly declares out of its unrestricted retained earnings and pays cash dividends at a payout ratio of Php3.00 per share per annum or Php0.75 per share per quarter, provided that the regulatory requirements of both the SEC and the BSP are complied with. Circumstances which could restrict the payment of cash dividends include, but are not limited to, when the Bank undertakes major projects and developments requiring substantial cash expenditures or when it is restricted from paying cash dividends by its loan covenants.

Provided likewise that the Bank is not restricted/prohibited from declaring/paying dividends and that all such regulatory requirements are complied with, the Bank may also declare out of its unrestricted retained earnings and pay out special cash dividends (on top of its regular quarterly cash dividends) at such rate as may also be approved via majority vote of the Board of Directors.

On October 9, 2015, the Bangko Sentral ng Pilipinas (BSP) issued Circular No. 888, Amendments to Regulations on Dividend Declaration and Interest Payments on Tier 1 Capital Instruments, which liberalized said rules in the sense that prior BSP verification and approval is no longer required except for banks with major supervisory concerns. However, banks are bound to comply with the provisions of Section X136 of the Manual of Regulations for Banks (MORB) and its subsections, including the submission of documentary requirements under Subsection X136.4 of the MORB, otherwise, banks, subsequently found to have violated the provisions on dividend declaration or have falsely certified/submitted misleading statements shall be reverted to the prior BSP verification wherein the bank can only make an announcement or communication on the declaration of the dividends or payment of dividends thereon upon receipt of BSP advice thereof.

The computation of surplus available for dividend declaration in accordance with SEC Memorandum Circular No. 11 issued in December 2008 differs to a certain extent from the computation following BSP guidelines.

The Bank declared cash dividends to stockholders on the following dates:

Date of declaration	Cash Dividends		Date of BSP approval	Record date	Payment date
	Per share	Total amount

Item 6. Management's Discussion and Analysis or Plan of Operations

A. Plan of Operation

The Bank will continue to enhance its online and mobile banking facilities to keep up with the constantly changing preferences of our customers. For 2017, the Bank plans to open at least twenty (20) off-site ATMs as expansion of ATM presence in non-branch locations will still be pursued given the growing demand for customer convenience. In line with the Bank's strategic initiatives on information technology, it will provide reliable technology infrastructure to improve operating efficiency.

B. Management's Discussion And Analysis

1. Analysis of Statements of Condition

As of December 31, 2016 and 2015

The Bank's Total Assets for the year ended December 31, 2016 was recorded at ₱196.85 billion. This was 16.25% better than the ₱169.33 billion level in December 2015. Significant year-on-year increase was attributed to an increase in the Bank's loan portfolio and investment securities during the year.

Loans and Receivables, net of allowance and unearned interest and discounts, was 64.63% of total assets and stood at ₱127.22 billion which is higher than the December 2015 level of ₱113.87 billion. Auto Loans rose by ₱8.73 billion to ₱68.05 billion from ₱59.32 billion in the previous year. Mortgage loans climbed to ₱43.39 billion from ₱40.11 billion in 2015.

Interbank Loans Receivable and Securities Purchased under Resale Agreements was up by 29.45% to ₱3.25 billion in December 2016 from ₱2.51 billion in 2015. On the other hand, Cash and Other Cash Items was lower by 29.39% to ₱2.78 billion while Due from Other Banks declined by ₱22.48 million to ₱1.84 billion from ₱1.86 billion in December 2015. Meanwhile, Due from Bangko Sentral ng Pilipinas, representing 7.11% of total assets, increased to ₱13.99 billion from ₱11.14 billion due to higher reserve volume in 2016 amounting to ₱12.0 billion versus ₱10.6 billion in December 2015.

Available-for-Sale Investments went up by ₱4.19 billion to ₱13.12 billion from ₱8.93 billion in December 2015. Held-to-Maturity Investments amounted to ₱23.16 billion as of December 2016. Meanwhile, Financial Assets at Fair Value through Profit or Loss (FVPL) went down to ₱1.36 billion from ₱2.82 billion in December 2015. Overall, these investment accounts comprised 19.12% of the total assets.

Investment Properties went up by 15.48% to ₱3.86 billion as of December 2016 from ₱3.34 billion in December 2015 due to an increase in the number of the Bank's foreclosed mortgage properties. Property and Equipment decreased by ₱78.90 million to ₱2.67 billion as of December 2016 due to higher depreciation.

Investments in a joint venture increased by ₱36.84 million to ₱727.18 million from ₱690.33 million, as the Bank recognized its share in the net earnings of Sumisho Motor Finance Corporation (SMFC), a joint venture between PSBank and Sumitomo Corporation.

Deferred Tax Assets was up by 8.90% to ₱1.30 billion versus ₱1.19 billion in December 2015 with the recognition of deferred tax benefits from loan loss provisioning for the year.

Moreover, Goodwill and Other Intangibles increased by 13.66% or ₱60.71 million to ₱505.17 million from ₱444.46 million in 2015 while Other Assets rose by 20.56% to ₱1.08 billion from ₱894.23 million in December 2015 as a result of higher foreclosures for chattel.

The Bank's deposit level, which comprises of 89.58% of total liabilities, increased by 17.94% to ₱158.39 billion from ₱134.30 billion in December 2015. CASA went up by 19.12% or ₱6.83 billion to ₱42.58 billion while Time deposits rose by 17.51% to ₱115.81 billion from ₱98.55 billion.

As of December 31, 2016, total Tier II Notes of the Bank amounted to ₱5.98 billion. In May 2014, the Bank issued Tier II Notes that qualified as Tier II capital under the BSP's revised risk-based capital adequacy framework in line with BASEL III standards due to its loss absorption feature. On July 28, 2016, the Bank received an issuer rating of PRS Aaa (corp.) from Philippine Rating Services Corporation (PhilRatings). An issuer rating means that the company has a very strong capacity to meet its financial commitments relative to other Philippine corporates. A PRS Aaa is the highest corporate credit rating assigned on the PRS scale.

Treasurer's, Cashier's and Manager's Checks rose to ₱1.76 billion from ₱1.35 billion in December 2015. Accrued Taxes, Interest and Other Expenses were up by ₱143.05 million to ₱1.19 billion from ₱1.05 billion. Income Tax Payable as of December 2016 was at ₱0.47 million representing accrual for the current quarter which is due for remittance to BIR on or before April 15, 2017. Bills Payable and Securities Sold under Repurchase Agreement (SSURA) went up by ₱1.60 billion to ₱6.09 billion as of December 2016 from ₱4.49 billion in December 2015 as the Bank entered into repurchase agreements to support the growth its investment portfolio. Meanwhile, Financial Liabilities at FVPL was recorded at ₱65.32 million. Other Liabilities went up by 11.08% or ₱332.94 million to ₱3.34 billion from ₱3.01 billion as of year-end 2015.

Capital funds was up at ₱20.04 billion, 4.50% higher than last year's level of ₱19.18 billion. Mark-to-market losses on Available-for-Sale Investments were recorded at ₱842.91 million in December 2016 versus mark-to-market gains of ₱0.18 million in December 2015.

Return on Average Equity (ROAE) was registered at 12.50% in December 2016 compared to the 12.74% recorded in December 2015. Return on Average Assets (ROAA) slid to 1.34% in December 2016 versus 1.49% in end-2015.

As of December 31, 2015 and 2014

The Bank's Total Assets for the year ended December 31, 2015 stood at ₱169.33 billion. This was 16.29% better than the December 2014 level of ₱145.61 billion. Significant year-on-year increase was due to growth in loan portfolio and investment securities.

Loans and Receivables, net of allowance and unearned interest discounts, representing 67.25% of total assets increased by 18.91% to ₱113.87 billion from ₱95.76 billion. Auto Loans increased by ₱13.82 billion to ₱59.32 billion from ₱45.50 billion last year. Mortgage Loans also climbed to ₱40.11 billion from ₱34 billion in 2014.

Due from BSP representing 6.58% of total assets declined by ₱12.85 billion or 53.56% to ₱11.14 billion from ₱24 billion in December 2014 as excess funds were placed in higher yielding investment securities. On the other hand, Interbank Loans Receivable and Securities Purchased under Resale Agreements (SPURA) rose by ₱327.58 million or 14.98% from last year.

Available-for-Sale Investments went up by ₱2.85 billion to ₱8.93 billion from ₱6.08 billion in 2014. Fair Value through Profit or Loss (FVPL) also increased by ₱2.54 billion. Held-to-Maturity (HTM) investments rose to ₱14.95 billion as the Bank started to shift excess funds to higher yielding sovereign and corporate bonds.

Deferred Tax Assets rose by 63.19% to ₱1.19 billion from ₱731.94 million in 2014 due to recognition of deferred tax benefits from the loan-loss provisioning during the year.

Investment Properties increased by 14.02% to ₱3.34 billion as of December 2015 due to higher foreclosures of real estate properties. Property and Equipment also increased by 11.20% or ₱276.57 million to ₱2.75 billion due to newly opened branches and renovation of bank premises, among others.

The Bank's deposit level comprising of 89.44% of total liabilities grew by 15.25% or ₱17.77 billion to ₱134.30 billion from ₱116.53 billion recorded in 2014. Time Deposits were higher by 12.74% or ₱11.14 billion to ₱98.55 billion. Likewise, Demand Deposits increased by 21.65% to ₱12.91 billion from ₱10.61 billion in 2014 while Savings Deposits rose by 23.42% to ₱22.84 billion.

On May 23, 2014, the Bank issued a ₱3.0 billion Unsecured Subordinated Notes (Tier 2) with an interest rate of 5.50% due on August 23, 2024, callable in 2019. The Notes will qualify as Tier 2 capital in the BSP's revised risk-based capital adequacy framework in line with BASEL III standards. The issuance has a loss absorption feature to conform with BASEL III requirements. PSBank has an issuer rating of PRS Aaa (corp.) from Philratings. As of December 31, 2015, the total Tier 2 Notes, including those issued last February 2012 amounted to ₱5.95 billion.

Treasurer's, Cashier's and Manager's Checks increased by 7.56% to ₱1.35 billion from ₱1.25 billion last year. Income Tax Payable representing corporate income tax for the last quarter of 2015 was at ₱8.06 million. This will be remitted on or before April 15, 2016. Other Liabilities slid to ₱2.95 billion from ₱3.01 billion with the Bank's payment of its dividends for the 3rd quarter of 2015.

Bills Payable of ₱4.49 billion consists of Interbank borrowings and securities sold under repurchase agreements (SSURA).

As of December 31, 2015, the Bank's Capital stood at ₱19.18 billion, 8.15% better than the ₱17.73 billion level in 2014. Mark-to-market gains on Available-for-Sale Investments were 99.32% lower at ₱179.78 thousand in December 31, 2015 versus ₱ 26.60 million last year. Meanwhile, the Bank recorded Remeasurement Losses of ₱471.37 million on its Retirement Plan in 2015 due to lower fair value of plan assets. On the other hand, the Bank's share in the Remeasurement Losses on Retirement Plan of a Joint Venture was posted at ₱67.64 thousand from ₱1.45 million in December 2014.

As of end of 2015, Total Capital Adequacy Ratio (CAR) was at 18.04%, this is above the minimum regulatory requirement of 10%. As of December 31, 2015 and 2014, the Bank recorded a loss on its 'Cumulative Translation Adjustment' under equity amounting to ₱43.13 million and ₱41.66 million, respectively.

Meanwhile, Return on Average Equity (ROAE) decreased to 12.74% in 2015 versus 13.64% in 2014. Return on Average Assets (ROAA) also decreased to 1.49% in 2015 from 1.68% in 2014.

2. Discussion of Results of Operations

For the years ended December 31, 2016 and 2015

The Bank's Net Income after Tax grew by 4.25% to ₱2.45 billion in 2016 from ₱2.35 billion in 2015 due to higher core and other operating income in 2016 versus 2015.

Total Interest Income increased by 13.54% or ₱1.49 billion, better than the ₱11.0 billion recorded last year.

Interest income from loans and receivables showed an 11.45% improvement or an increase of ₱1.14 billion from ₱9.93 billion in 2015. Interest income on Investment Securities rose by 85.22% to ₱1.35 billion from ₱727.77 million due to the Bank's higher investment portfolio in 2016. On the other hand, interest earned from Interbank Loans Receivable and SPURA decreased by 67.75% or ₱129.28 million to ₱61.53 million versus the ₱190.81 million in 2015. Moreover, interest earned from deposits with BSP and interest income from other banks both posted a decline of 90.52% to ₱13.91 million and 71.57% to ₱2.22 million, respectively.

Interest Expense on the Bank's deposit liabilities was higher by 11.02% to ₱2.41 billion compared to ₱2.17 billion during the same period last year due to overall rise in total deposits in 2016. On the other hand, Interest Expense on Subordinated Notes increased by ₱19.12 million from ₱342.65 million to ₱361.77 million due to the amortization of debt issuance costs related to the issuance of the Notes. The Bank also posted ₱56.80 million in Interest Expense on Bills Payable for 2016.

As of December 2016, Net Interest Income rose by 13.94% to ₱9.66 billion from ₱8.48 billion in 2015.

Net Service Fees and Commission Income decreased by ₱59.14 million from ₱1.20 billion in 2015.

Other Operating Income also posted a significant growth of 49.33% or ₱554.47 million to ₱1.68 billion. The Bank registered ₱509.67 million gains on the sale of investment securities in 2016 versus a ₱63.57 million loss in 2015.

The Bank recorded a net gain on the foreclosure and sale of investment properties amounting to ₱364.39 million, ₱106.36 million higher compared to the ₱258.03 million during the same period last year. However, net gain on foreclosure and sale of chattel properties decreased by ₱25.94 million to ₱351.72 million from ₱377.66 million in 2015.

Foreign Exchange Gain was posted at ₱23.99 million, an improvement from the ₱18.82 million in 2015. On the other hand, Miscellaneous Income was lower by ₱89.27 million from ₱515.41 million reported in the previous year.

Other Operating Expenses, excluding provision for impairment, went up by 10.05% to ₱7.62 billion from the year ago level of ₱6.93 billion. In line with the Bank's thrust to further strengthen its balance sheet, the Bank set aside a total of ₱2.22 billion provisions for credit loss for the year ended December 2016.

Occupancy and equipment-related costs increased by 5.84% or ₱39.21 million to ₱710.94 million as a result from higher rent expense. As of December 31, 2016, the Bank has 255 branches and 611 ATMs nationwide.

Taxes and Licenses went up by 10.13% or ₱97.34 million compared to last year due to higher documentary stamp taxes paid in 2016. Likewise, Compensation and Fringe Benefits went up by 11.82% to ₱2.92 billion. Amortization of Intangible Assets was recorded at ₱111.16 million. Miscellaneous Expenses were higher by 7.67% at ₱1.88 billion from ₱1.74 billion last year.

Security, Messengerial and Janitorial services were at ₱383.67 million while Depreciation and amortization of Bank's properties and leasehold improvements were at ₱557.65 million from ₱501.31 million in 2015.

The Bank also recorded its share in the net income of its investment in Sumisho Motor Finance Corporation (SMFC) at ₱35.47 million, 75.46% higher than the ₱20.21 million reflected in the same period last year.

For the years ended December 31, 2015 and 2014

The Bank registered a net income after tax of ₱2.35 billion or 1.39% higher than the ₱2.32 billion recorded for the same period last year. The increase in net income was due to higher core income in 2015 versus 2014.

Total Interest Income increased by 8.79% or ₱889.32 million, better than the ₱10.11 billion recorded last year.

Interest income on Loans and Receivables showed a 12.65% improvement or an increase of ₱1.11 billion. On the other hand, Interest Income on Investment Securities increased to ₱727.77 million from ₱363.96 million as the Bank shifted its investments from SDA and RRP of BSP to higher yielding, longer-term FxTNs and ROP Bonds. Meanwhile, Interest earned from Interbank Loans Receivable and SPURA declined by 77.79% to ₱190.81 million from ₱858.98 million. Interest earned from deposits with BSP was higher by 156.00% to ₱146.67 million while interest income from other banks was down by 57.41% to ₱7.82 million.

Interest expenses on deposit liabilities increased by 2.60% to ₱2.17 billion with overall rise in total deposits in 2015 by 15.25%. Meanwhile, interest expense on Tier 2 Unsecured Subordinated Notes rose to ₱342.65 million from ₱276.59 million in 2014. This was due to our additional ₱3 billion Unsecured Subordinated Notes (Tier 2) issuance in May 2014.

The Bank recorded ₱7.39 million in Interest Expense on Bills Payable as of December 31 2015, ₱3.42 million lower compared to last year.

As of December 2015, Net Interest Income rose by 10.01% to ₱8.48 billion from ₱7.71 billion in 2014.

Net Service Fees and Commission Income increased by 10.91% to ₱1.20 billion from ₱1.08 billion in 2014.

Other Operating Income was lower in 2015 compared with previous year which included significant one-time gains from the sale of the Bank's interest in Toyota Financial Services (TFS) and Victorias Milling Corporation. As a result, Other Operating Income slid by 36.87% to ₱1.12 billion. Also, the Bank registered a net trading loss of ₱63.57 million in 2015 compared to the ₱209.95 million in trading gains in 2014.

The Bank recorded a net gain on foreclosure and sale of chattel mortgage amounting to ₱377.66 million, ₱60.84 million higher compared with the ₱316.81 million during the same period last year. On the other hand, net gain on foreclosure and sale of investment properties decreased by ₱40.82 million to ₱258.03 million from ₱298.85 million in 2014.

Income on sale of property and equipment in 2015 was lower at ₱17.74 million versus ₱45.01 million in 2014.

Foreign Exchange gain was posted at ₱18.82 million, an improvement from ₱7.81 million in 2014. Miscellaneous Income was higher by ₱171.85 million to ₱515.41 million from ₱343.57 million in 2014.

Other Operating Expenses, excluding provision for impairment, was up by 4.83% to ₱6.93 billion from ₱6.61 billion a year ago. Compensation and Fringe Benefits was posted at ₱2.61 billion while Occupancy and equipment-related costs increased by ₱43.99 million or 7.01% to ₱671.73 million. This was a result of branch and ATM expansion efforts as we ended 2015 with 248 branches and 614 ATMs nationwide. We also renovated a total of 28 branches in 2015.

Depreciation and amortization of Bank's properties and leasehold improvements were ₱501.31 million from ₱504.63 million in 2014. Meanwhile, security, messengerial and janitorial services were at ₱334.03 million. Amortization of intangible assets was recorded at ₱100.22 million. Miscellaneous Expenses were higher by 5.84% at ₱1.74 billion from ₱1.65 billion last year.

Taxes and Licenses went down by 9.47% compared to last year due to lower Gross Receipts Tax on trading gains and one-time Capital Gains Tax on the sale of TFS shares in 2014.

The Bank set aside ₱1.59 billion in provisions for impairment and credit losses.

The Bank recorded its share in the net income of its investments in Sumisho Motor Finance Corporation at ₱20.21 million from ₱4.83 million in the same period last year. This was lower by 73.73% versus the same period last year which included the ₱72.13 million share in the net earnings of Toyota Financial Services Philippines Corporation (an associate) which the Bank sold in the third quarter of 2014.

C. Analysis of Key Performance Indicators

		2016	2015	2014
Return on Average Equity	ROAE	12.50%	12.74%	13.64%
Return on Average Assets	ROAA	1.34%	1.49%	1.68%
Net Interest Margin on Average Earning Assets	NIM	6.17%	6.37%	6.58%
Earnings per share	EPS	₱10.20	₱9.79	₱9.65
Capital-to-Risk Assets Ratio	CAR	14.07%	18.04%	19.57%
Liquidity Ratio	LR	23.46%	28.72%	46.83%
Debt-Equity Ratio	DER	8.82:1	7.83:1	7.21:1
Asset-to-Equity Ratio	AER	9.82:1	8.83:1	8.21:1
Interest Rate Coverage Ratio	IRC	1.94:1	1.92:1	1.96:1

2016 vs. 2015 Comparative highlights on key performance indicators

- Return on Average Equity (ROAE) decreased from 12.74% in 2015 to 12.50% in 2016. ROAE measures how well the Bank is using common shareholders' invested money. It is calculated by dividing the net income by the year-on-year average of the outstanding shareholders' equity.
- Return on Average Assets (ROAA) decreased to 1.34% in December 2016 from 1.49% in 2015. ROAA is calculated by dividing the net income by the year-on-year average of the outstanding total assets.
- Net Interest Margin on Average Earning Assets (NIM) went down from 6.37% in 2015 to 6.17% in 2016. NIM is calculated by dividing the net interest income by the average earning assets.
- Earnings per Share (EPS) improved to ₱10.20 in 2016 from ₱9.79 in 2015. EPS is the net profit the Bank has generated per common share. It is computed by dividing the net income by the weighted average number of outstanding common shares.
- Capital-to-Risk Assets Ratio (CAR) decreased from 18.04% to 14.07% in 2016. The Bank issued a P3.0 billion Unsecured Subordinated Notes (Tier II) in May 2014. CAR is the measure of the Bank's capital strength. It is calculated by dividing the qualified capital by risk-weighted assets as defined by the Bangko Sentral ng Pilipinas (BSP).
- Liquidity Ratio (LR) decreased in 2016 at 23.46% compared to 28.72% in 2015 as excess funds were placed in higher yielding investment securities. LR measures the Bank's ability to meet its short-term liabilities. It is derived from dividing the current assets by current liabilities.
- Debt-to-Equity Ratio (DER) was at 8.82:1 as of December 2016 versus 7.83:1 in 2015. DER measures the Bank's financial leverage. This is computed by dividing total liabilities by total stockholder's equity.
- Asset-to-Equity Ratio (AER) increased to 9.82:1 in 2016 versus 8.83:1 in 2015. AER is computed by dividing the total assets by total shareholder's equity.
- Interest Rate Coverage Ratio (IRC) rose to 1.94:1 as of December 31, 2016 from 1.92:1 the same period last year. IRCR is a measure of the Bank's ability to meet its interest payments on outstanding debt. It is calculated by dividing the total earnings before interest and taxes over interest expense.

2015 vs. 2014 Comparative highlights on key performance indicators

- a) Return on Average Equity (ROAE) decreased from 13.64% in 2014 to 12.74% in 2015. ROAE measures how well the Bank is using common shareholders' invested money. It is calculated by dividing the net income by the year-on-year average of the outstanding shareholders' equity.
- b) Return on Average Assets (ROAA) decreased to 1.49% in December 2015 from 1.68% in 2014. ROAA is calculated by dividing the net income by the year-on-year average of the outstanding total assets.
- c) Net Interest Margin on Average Earning Assets (NIM) went down from 6.58% in 2014 to 6.37% in 2015. NIM is calculated by dividing the net interest income by the average earning assets.
- d) Earnings per Share (EPS) improved to ₱9.79 in 2015 from ₱9.65 in 2014. EPS is the net profit the Bank has generated per common share. It is computed by dividing the net income by the weighted average number of outstanding common shares.
- e) Capital-to-Risk Assets Ratio (CAR) decreased from 19.57% to 18.04% in 2015. The Bank issued a P3.0 billion Unsecured Subordinated Notes (Tier II) in May 2014. CAR is the measure of the Bank's capital strength. It is calculated by dividing the qualified capital by risk-weighted assets as defined by the Bangko Sentral ng Pilipinas (BSP).
- f) Liquidity Ratio (LR) decreased in 2015 at 28.72% compared to 46.83% in 2014 as excess funds were placed in higher yielding investment securities. LR measures the Bank's ability to meet its short-term liabilities. It is derived from dividing the current assets by current liabilities.
- g) Debt-to-Equity Ratio (DER) was at 7.83:1 as of December 2015 versus 7.21:1 in 2014. DER measures the Bank's financial leverage. This is computed by dividing total liabilities by total stockholder's equity.
- h) Asset-to-Equity Ratio (AER) increased to 8.83:1 in 2015 versus 8.21:1 in 2014. AER is computed by dividing the total assets by total shareholder's equity.
- i) Interest Rate Coverage Ratio (IRC) went down to 1.92:1 as of December 31, 2015 from 1.96:1 the same period last year. IRCR is a measure of the Bank's ability to meet its interest payments on outstanding debt. It is calculated by dividing the total earnings before interest and taxes over interest expense.

3. Key Variables and Other Qualitative and Quantitative Factors

a) Liquidity

PSBank manages its liquidity position to ensure that it has more than adequate funds to meet its obligations at any given time. The Bank monitors its daily liquidity and reserve position by determining inflows and outflows, short-term and long-term obligations, holdings and repayments. Short-term liquidity management identifies obligations and repayments in the next 12-months, aids in the determination of the securities trading strategy, and influences the Bank's pricing mechanism. On the other hand, long-term liquidity management covers maturing obligations and repayments of loans and investments beyond the next 12-months.

The level of liquid assets remained strong, exhibiting healthy growth in both placements with BSP/other banks and investments.

With the Bank's high capitalization, current liquidity position, strong deposit growth trend, continuing development of retail and corporate accounts, and prudent liquidity management, PSBank does not anticipate encountering any cash flow or liquidity problems in the next 12 months. It remains confident of its ability to meet its obligations and is committed to providing the

necessary funding to support the projected loan growth, investment activities and expenditures for 2017.

The Bank also performs liquidity stress testing under various stress scenarios to ensure its ability to meet its funding obligations. The Bank has a Liquidity Contingency Funding Plan to anticipate and manage any funding crisis that may occur.

b) Events that will Trigger Direct or Contingent Financial Obligation

In the normal course of the Bank's operations, there are various outstanding commitments and contingent liabilities such as guarantees and commitments to extend credit, which are part of its lending and related businesses but due to their nature, may not be reflected in the accompanying financial statements. The Bank, however, does not anticipate significant losses as a result of these transactions.

Also, several suit and claims, in behalf or against the Bank in relation to its operations, including labor-related cases are pending before the courts and quasi-judicial bodies. In the opinion of management, these suits and claims, if decided adversely, will not involve an amount having a material effect on the financial statements.

c) Material Off-Balance Sheet Transactions, Arrangements and Obligations

The following is a summary of the Bank's commitments and contingent liabilities at their equivalent peso contractual amounts:

	2016	2015	2014
Trust department accounts	₱3,991,172,047	₱2,349,289,988	₱1,751,995,244
Stand-by credit line	83,660,385	78,408,259	78,623,503
Late deposits/payments received	62,929,377	57,141,192	70,408,879
Spot foreign exchange contracts - sold	49,720,000	70,590,000	-
Items held for safekeeping	695,408	311,877	309,487
Others	472,843	143,111	29,407

None of these off-balance sheet transactions, arising in the ordinary course, either individually or in the aggregate, are expected to have a material adverse effect on the Bank's financial condition.

d) Material Commitments for Capital Expenditures

The Bank's capital expenditures in 2016 included expenses for seven (7) new branches, fifteen (15) new on-site and off-site ATMs, upgrade of bank premises including infrastructure, furniture, fixtures and equipment, IT-related activities on systems and licenses. For 2017, the Bank plans to open at least twenty (20) off-site ATMs. Capital expenditures were sourced from the Bank's capital.

e) Causes for Any Material Changes from Period to Period of Financial Statements

See previous discussion on Analysis of Statement of Condition and Discussion of Results of Operations.

f) Known Trends, Events or Uncertainties or Seasonal Aspects

The financial statements of the Bank have been prepared in compliance with Philippine Financial Reporting Standards (PFRS).

g) Changes in Accounting Policies and Disclosures

- The accounting policies adopted are consistent with those of the previous financial year, except for the following new accounting pronouncements starting January 1, 2016. Adoption of these pronouncements did not have any significant impact on the Bank's financial position or performance unless otherwise indicated.
 - Amendments to PFRS 10, PFRS 12 and Philippine Accounting Standard (PAS) 28, Investment Entities: Applying the Consolidation Exception
 - Amendments to PFRS 11, Accounting for Acquisitions of Interests in Joint Operations
 - PFRS 14, Regulatory Deferral Accounts
 - Amendments to PAS 1, Disclosure Initiative
 - Amendments to PAS 16 and PAS 38, Clarification of Acceptable Methods of Depreciation and Amortization
 - Amendments to PAS 16 and PAS 41, Agriculture: Bearer Plants
 - Amendments to PAS 27, Equity Method in Separate Financial Statements
 - Annual Improvements to PFRSs 2012 - 2014 Cycle
 - Amendment to PFRS 5, Changes in Methods of Disposal
 - Amendment to PFRS 7, Servicing Contracts
 - Amendment to PFRS 7, Applicability of the Amendments to PFRS 7 to Condensed Interim Financial Statements
 - Amendment to PAS 19, Discount Rate: Regional Market Issue
 - Amendment to PAS 34, Disclosure of Information 'Elsewhere in the Interim Financial Report

Item 7. Financial statements

Please refer to EXHIBITS 4 and 5, for the Bank's Management's Responsibility for Financial Statements and Audited Financial Statements as of December 31, 2016 and 2015, respectively.

Independent Public Accountant

SyCip Gorres Velayo & Co. (SGV & Co.), independent certified public accountants, audited the Bank's financial statements without qualification and in accordance with Philippine Standards on Auditing and has expressed its opinion on the fairness of presentation upon completion of its examination, in its report to the stockholders and Board of Directors.

The following table sets out the aggregate fees billed for each of the years ended December 31, 2016 and 2015 for professional services rendered by SGV & Co for the audit of the Bank's annual financial statements..

	2016	2015
Audit and Audit-Related Fees:		
Fees for services that are normally provided by the external auditor in connection with statutory and regulatory filings or engagements	₱2,587,200	₱2,275,000

Tax and All Other Fees for Services of External Auditor

The Bank has engaged the services of external auditor for compliance, advice, planning and any other form of services during the last three (3) years. The collective fees for each year ended December 31, 2016, 2015 and 2014 amounted to ₱3,089,234, ₱1,053,920 and ₱2,020,000, respectively.

Fees for Services of other Tax Consultant

The Bank also engaged the services of Du-Baladad and Associates for tax consultancy. The collective fees amounted to ₱696,696, ₱266,112 and ₱668,976 for 2016, 2015 and 2014, respectively.

Audit Committee's Approval Policies and Procedures for Above Services

As Metrobank subsidiary, the Bank adopted the Parent's policies and procedures on audit engagement contract for external auditors. The same was discussed and approved by the Audit Committee.

Included in the duties and responsibilities of the Audit Committee as provided for in the Audit Committee Charter are to recommend to the Board the appointment, re-appointment and dismissal of external auditors; to review and evaluate the external auditors' qualifications, performance, independence, and objectivity; and to review the external auditors' audit plan and scope among others.

The following are the members of Bank's Audit Committee:

Name	Position
Jose T. Pardo, Independent Director	Chairman
Samson C. Lim, Independent Director	Member
Amelia B. Cabal, Director	Member

Item 8. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

SGV & Co. has acted as the Bank's external auditors since 1979. In compliance with the 5-year rotation requirement, the certifying partner from SGV and Co. is Miguel U. Ballelos, Jr effective 2015. The Bank has no disagreements on accounting and financial disclosures with its current external auditors for the same periods or any subsequent interim period.

The Bank intends to retain SGV as its external auditors for 2017. The external auditors are appointed annually by the registrant's Board of Directors during organizational meeting held immediately after the Annual Stockholders' Meeting.

PART III. CONTROL AND COMPENSATION INFORMATION

* Company listed at The Philippine Stock Exchange, Inc.

All nominations were submitted, evaluated and approved by the Bank's Nominations Committee. As such, all nominees possess the qualifications and none of the disqualifications to become directors of the Bank for 2017-2018.

Of the above named nominees, Messrs. Jose T. Pardo, Samson C. Lim, Benedicto Jose R. Arcinas and Eduardo Sahagun, have been nominated as Independent Directors by Mr. Joaquin Aligguy, Ms. Yolanda dela Paz, Ms. Theresa Barretto and Ms. Jeanne Frances Chua, respectively, with whom they are not related. Based on the Bank's Manual of Corporate Governance and as required by existing laws and regulations, the stockholders must elect at least two (2) independent directors.

Messrs. Pardo, Lim, Arcinas and Sahagun possess the qualifications and none of the disqualifications to become independent directors.

Nomination Procedures

- 1) A stockholder may submit nominations for directorial positions to the Nominations Committee.
- 2) The nominating stockholder shall submit his proposed nomination in writing to the Nominations Committee together with the biodata, acceptance and conformity by the would-be nominee. In case of a nominee for the position of an independent director, the would-be nominee is also required to submit a Certification that he/she has all the qualifications and none of the disqualifications to become an independent auditor.
- 3) The Nominations Committee shall screen the nomination of directors prior to the submission of the Definitive Information Statement and come up with the Final List of Candidates.
- 4) Only nominees whose names appear in the Final List of Candidates shall be eligible for election as director.
- 5) The nomination process of the Bank is incorporated in the company's amended Code of By-Laws duly approved by the Securities and Exchange Commission as early as September 27, 2006.

The following are the members of the Bank's Nominations Committee:

Name	Position
Samson C. Lim, Independent Director	Chairman
Jose T. Pardo, Chairman/ Independent Director	Member
Arthur V. Ty, Vice Chairman	Member

Significant Employees

Except for the above-mentioned executives, there are no other significant employees as contemplated under the Securities Regulations Code.

Involvement in Certain Legal Proceedings

To the knowledge and information of the Bank, none of its directors and executive officers have been involved or subject of the following legal proceedings during the past five (5) years up to latest date that are material to an evaluation of their ability or integrity:

- (a) Any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time;
- (b) Any conviction by final judgment, in a criminal proceeding, domestic or foreign, or being subject to a pending criminal proceeding, domestic or foreign;
- (c) Being subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, domestic or foreign, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities, commodities or banking activities; and

(d) Being found by a domestic or foreign court of competent jurisdiction (in a civil action), the Commission or comparable foreign body, or a domestic or foreign Exchange or other organized trading market or self regulatory organization, to have violated a securities or commodities law or regulation, and the judgment has not been reversed, suspended, or vacated portion of their property before any court of law or administrative body in the Philippines or elsewhere.

Item 10. Executive Compensation

Name and Principal Position	2017 (estimate)	
	Salary*	Bonus**
Vicente R. Cuna, Jr. – President		
Jose Vicente L. Alde – Executive Vice President		
Noli S. Gomez – Senior Vice President		
Perfecto Ramon Z. Dimayuga, Jr. – Senior Vice President		
Jose Jesus B. Custodio – Senior Vice President		
Total	₱56.34 million	₱22.06 million
All Officers (AVP up) and Directors	₱196.85 million	₱69.34 million

* Increased 2016 figures by 8%

**Increased 2016 figures by 9%

Name and Principal Position	2016	
	Salary	Bonus
Vicente R. Cuna, Jr. – President		
Jose Vicente L. Alde – Executive Vice President		
Noli S. Gomez – Senior Vice President		
Perfecto Ramon Z. Dimayuga, Jr. – Senior Vice President		
Jose Jesus B. Custodio, Senior Vice President		
Total	₱52.17 million	₱20.24 million
All Officers (AVP up) and Directors	₱182.26 million	₱63.61 million

Name and Principal Position	2015	
	Salary	Bonus
Vicente R. Cuna, Jr. – President		
Jose Vicente L. Alde – Executive Vice President		
Noli S. Gomez – Senior Vice President		
Perfecto Ramon Z. Dimayuga, Jr. – Senior Vice President		
Jose Jesus B. Custodio, Senior Vice President		
Total	₱46.80 million	₱17.96 million
All Officers (AVP up) and Directors	₱142.32 million	₱50.50 million

The directors receive fees, bonuses and allowances that are already included in the amounts stated above. Aside from said amounts, they have no other compensation plan or arrangement with the bank. The executive officers receive salaries, bonuses and other usual bank benefits that are also included in the amounts stated above. Aside from these, they have no other compensation plan or arrangement with the bank.

There are no warrants or options held by the Bank's officers and directors.

Each director receives a monthly professional fee for attending Board and committee meetings. This is also in consideration of their valuable contributions in the formulation of the Bank's overall strategy. The total per diem and transportation allowance paid to directors for their attendance in Board meetings amounted to ₱16.8 million, ₱16.9 million and ₱16.3 million in 2016, 2015 and 2014, respectively. This translates to an average of ₱113,802, ₱123,287 and ₱116,343, per

month/per director in 2016, 2015 and 2014, respectively. Aside from said amounts, they have no other compensation plan or arrangement with the Bank.

Item 11. Security Ownership of Certain Record and Beneficial Owners and Management

A. Control and Compensation Information

Item 4. Voting Securities and Principal Holders Thereof

- a) No. of Shares outstanding as of March 31, 2017 : **240,252,491 Common Shares**
No. of votes to which each share is entitled : **one (1) vote per share**
- b) Record date to determine stockholders entitled to Notice and to vote at the regular meeting : **February 7, 2017**
- c) Election of Directors:

Majority vote is required for the election of directors. Security holders shall have the right to cumulative voting. Cumulative voting is allowed provided that the total votes cast by a stockholder shall not exceed the number of shares registered in the name of that security holder in the books of the Bank as of the record date multiplied by the whole number of directors to be elected. There is no condition precedent to the exercise of the right to cumulative voting.

- d) Arthur V. Ty is the person authorized to vote the MBTC shares in PSBank.
- e) Security Ownership of Certain Record and Beneficial Owners and Management

As of March 31, 2017, the following stockholders own more than 5% of the common voting securities:

<i>Title of Class</i>	Name, address of Record Owner and relationship with issuer	Name of Beneficial Owner and relationship with Record Owner	Citizenship	No. of Shares Held	Percent
Common	Metropolitan Bank and Trust Co. Metrobank Plaza, Gil Puyat Avenue, Makati City (Parent Company of PSBank)	Arthur V. Ty, Chairman of Metrobank	Filipino	198,629,513	82.6753%
Common	Danilo L. Dolor 56 Tamarind Road, Forbes Park, Makati City	Danilo L. Dolor	Filipino	12,610,891	5.2490%

There is no person who holds more than 5% of the Bank's securities lodged with PCD Nominee Corporation.

(2) Security Ownership of Directors and Management as of March 31, 2017

Title of Class	Name	Position	Citizenship	No. of Shares	Percent
Directors					
Common	Jose T. Pardo*	Chairman	Filipino	1,852	.000771
Common	Arthur V. Ty	Vice Chairman	Filipino	117	.000049
Common	Vicente R. Cuna, Jr.	Director/President	Filipino	100	.000042
Common	Amelia B. Cabal	Director	Filipino	100	.000042
Common	Maria Soledad D.S. De Leon	Director	Filipino	4,000,000	1.664915
Common	Jose Vicente L. Alde	Director	Filipino	100	.000042
Common	Samson C. Lim*	Director	Filipino	100	.000042
Common	Benedicto Jose R. Arcinas*	Director	Filipino	100	.000042
Total Directors				4,002,469	1.665943

* Independent director

(3) Voting Trust Holders of 5% or more

There is no person who holds more than 5% of the Bank's securities under a voting trust or similar agreement.

(4) Changes in Control

There is no arrangement that may result in a change in control of the registrant. There is no change in control that has occurred since the beginning of the last fiscal year.

Item 12. Certain Relationships and Related Transactions

As required under existing BSP rules and regulations, the Bank discloses loans and other credit accommodations granted to its Directors, Officers, Stockholders and Related Interests (DOSRI). These loans and other credit accommodations were made substantially on the same terms as with other individuals and businesses of comparable risks and were subject of prior Board approval and entailing BSP reportorial requirements.

Existing banking regulations also limit the total amount of credit exposure to each of the Bank's DOSRIs, at least 70.00% of which must be secured, to the total of their respective deposits and book value of their respective unencumbered deposits and, if any, book value of their respective paid-in capital contribution in the Bank. In the aggregate, the Bank's total credit exposure to all its DOSRIs should not exceed its net worth or 15% of its total loan portfolio, whichever is lower, with any unsecured portion thereof not exceeding the lower between 30% of the aggregate limit or of the total actual exposure. However, loans and other credit accommodations to DOSRIs that are secured by assets considered by the BSP as non-risk are exempt from these ceilings. As of December 31, 2016 and 2015, the Bank's credit exposures to DOSRI are within the said regulatory limits.

BSP Circular No. 423 dated March 15, 2004, as amended by BSP Circular No. 914 dated June 23, 2016, provide the rules and regulations governing credit exposures to DOSRI. The following table shows information relating to the loans, other credit accommodations and guarantees classified as DOSRI accounts under regulations existing prior to BSP Circular No. 423 and new DOSRI loans and other credit accommodations granted under said circular as of December 31, 2016 and 2015:

	2016	2015
Total outstanding DOSRI accounts	₱1,734,454,266	₱1,667,247,339
Percent of DOSRI accounts granted under regulations existing prior to BSP Circular No. 423 to total loans	1.34%	1.43%
Percent of new DOSRI accounts granted under BSP Circular No. 423 to total loans	–	–
Percent of unsecured DOSRI accounts to total DOSRI accounts	12.63%	12.97%
Percent of past due DOSRI accounts to total DOSRI accounts	0.00%	22.88%
Percent of nonperforming DOSRI accounts to total DOSRI accounts	0.00%	22.88%

Total interest income from DOSRI loans amounted to ₱26.6 million, ₱44.7 million, ₱49.5 million in 2016, 2015 and 2014, respectively.

Further discussion on transactions with related parties are found in Note 29 of the Audited Financial Statements.

Others

No director has resigned or declined to stand for re-election because of any disagreement with the Bank on any matter relating to the Bank's operations, policies or practices.

No director has informed the Bank in writing that he intends to oppose any action to be taken by the Bank at the Annual Stockholders' Meeting.

PART IV. CORPORATE GOVERNANCE

Item 13. Corporate Governance

Walking the talk

Our customers, employees, and shareholders put their trust on PSBank, and we never forget that we are accountable to them. This is why we strive to be a benchmark for ethics and governance excellence, and "walk the talk" each and every day.

OUR CORPORATE GOVERNANCE CULTURE

We see our compliance with applicable laws, rules, and regulations as a minimum requirement. Going beyond such minimum is the true essence of good corporate governance. We always aim to continually build the trust and confidence of our stakeholders by running our business in a prudent and sound manner, being fair and transparent in all our dealings, providing reliable and better service in response to the ever-growing expectations of our customers, and working with integrity and accountability.

I AM PSBank

As PSBankers, we adhere to our tagline, ***Simple Lang, Maaasahan*** as our brand proposition. This brand proposition is best described in the I AM PSBank framework.

I AM PSBank seeks to promote the right corporate culture conducive to an admirable employee experience, which will lead to PSBank's Customer Experience (CX) Journey.

OUR CORE GOVERNANCE POLICIES

The policies and guidelines embodied in our annually updated Corporate Governance Manual are posted in our website, www.psbank.com.ph, and in our intranet site, InfoChannel, for the guidance of all our stakeholders. These primarily revolve around the following three basic values that we observe:

Fairness

We see to it that all dealings with counterparties and other stakeholders are fairly conducted. We ensure that such dealings, especially with our related parties, are made in the regular course of our business, and upon terms not less favorable to us than those offered to others. This is why we initiated the creation of a Board-level Related Party Transactions Committee (RPTC), entirely composed of non-executive directors, and Management-level Related Party Transactions Management Committee (RPTMC). These committees help ensure that our transactions with related parties are conducted at arm's length, and that our resources are not misappropriated, in accordance with our Board-approved Related Party Transactions (RPT) policy and its specific guidelines and handling procedures, vis-à-vis the set transaction materiality thresholds and exposure limits. Our RPT are duly disclosed in Note 29 under the Audited Financial Statements section.

We also ensure that our stockholders are treated equally and without discrimination by preserving stockholders' rights and protecting our minority stockholders' interests, including the latter's right to nominate candidates to our Board of Directors.

Integrity and Accountability

We uphold at all times the value of honesty as the best policy. We believe that our reputation precedes us in the business of trust and confidence. We continue to enhance a working culture of integrity, guided by a Code of Conduct that defines the standards that we must follow in our business dealings and relationships.

Code of Conduct

Our Code of Conduct is our guide in defining the norms, rules, and responsibilities of each and every PSBanker. It includes provisions on:

- Disciplinary process;
- General policies to establish a professional working environment and secure a favorable reputation for our Bank;
- Corrective measures for unacceptable behavior or failure to comply with our rules, such as on Financial Consumer Protection and on Anti-Money Laundering/Terrorism Financing, policies and procedures;
- Schedule of penalties for attendance and punctuality, required corporate attire, conduct and behavior, dishonesty, health, safety and security, reporting of violations, and information security; and
- Provisions on management of personal finances, conflict of interest, anti-sexual harassment, non-disclosure of information and insider information.

Insider Trading

Under our Policy Against Insider Trading, reporting insiders are required to disclose their and their associates' initial beneficial ownership in PSBank shares and any changes thereof within two trading days after their election/appointment in office and from the date of said changes, respectively. They are likewise prohibited from selling or buying PSBank shares during "blackout periods," i.e., upon obtaining material on non-public information up to two trading days after such information is disclosed.

The Bank reported one trade transaction with one of its reporting insiders in 2016. Directors' level of share ownership and movements from beginning to end of the year 2016 are summarized as follows:

#	Name of Director	Position	Rollforward of Common Shares					
			Beginning		Movements		End	
			Dec -2015	%	Additions	Deductions	Dec -2016	%
1	Jose T. Pardo	Chairman and Independent Director	1,852	0.000771	-	-	1,852	0.000771
2	Arthur V. Ty	Vice-Chairman	117	0.000049	-	-	117	0.000049

8	Jose Vicente L. Alde***	Director			100		100	0.00042
	Total		6,126	0.002553	4,100,000	3,757	4,002,469	1.666323

* Ms. Barretto was replaced by Ms. De Leon as director during the Annual Stockholders' Meeting in April 2016.

** Ms. Chua resigned as a director of the Bank in August 2016

*** Mr. Hermans was replaced by Mr. Alde as director during the Annual Stockholders' Meeting in April 2016

Whistleblowing

We are bound by a "whistleblower" policy that requires our employees to immediately report to their Group Heads, directly to the Human Resources Group Head, or to the Chief Audit Executive/Internal Audit Group Head for investigation purposes, any impropriety or malpractice committed by co-employee/s. Concealment or non-reporting is considered as an impropriety or malpractice in itself. The policy likewise requires the due protection of informants, i.e., employees reporting such incidents in good faith, from any form of harassment. Thus, it considers any attempt to determine their identities as a breach of confidentiality, subject to disciplinary sanctions.

Anti-Money Laundering/Combating Financing of Terrorism (AML/CFT)

PSBank subscribes to and adopts the State's policy to protect the: (1) integrity and confidentiality of accounts and to ensure that it shall not be used as a money laundering/terrorism financing site and/or conduit for the proceeds of unlawful activities; and (2) life, liberty and property from acts of terrorism by condemning such acts and those who support and finance it as a crime against the Filipino people, against humanity and against the law of nations.

We ensure that we execute transactions with our customers in accordance with the AML/CFT policy guidelines, procedures, tools, and controls set forth in our regularly updated Money Laundering & Terrorism Financing Prevention Program (MLTFPP). Our MLTFPP, as posted in our intranet site for the guidance of all our implementing personnel, primarily revolves around the basic AML/CFT controls required under existing AML/CFT laws, rules and regulations, namely:

1. Know Your Customer (KYC) & Know Your Employee (KYE);
2. Ongoing Monitoring of Customers & their Transactions
3. Covered and Suspicious Transactions Reporting

4. Records Keeping & Retention; and
5. Employee Training & Continuing Education.

Compliance with the requirements of this MLTFPP is continuously monitored by our Board-designated AML Compliance Officer (AMLCO) under the Compliance Office as lead implementer.

Transparency and Open Communication

We abide by the various disclosure requirements of the Bangko Sentral ng Pilipinas (BSP), the Securities and Exchange Commission (SEC), and the Philippine Stock Exchange (PSE), PSBank being a publicly listed company. We ensure that we are transparent to our stakeholders by posting the latest public disclosures on the Investor Relations section of our website and in our press releases. In compliance with SEC Memorandum Circular No. 11 s2014, we regularly update our website to include all required disclosures in accordance with the SEC-prescribed web template for our stakeholders to readily check our corporate governance practices.

We also maintain an open communication line and use feedback from our stakeholders to develop better policies, products, and services. We likewise accommodate requests for information on the management of our Bank, stockholders rights, or any other Bank-related matters, while remaining mindful of disclosure limitations under existing laws on the secrecy of bank deposits and data privacy.

Our Corporate Governance Manual (CGM) serves as a valuable guide and reference in our implementation of corporate governance rules and regulations, and standards of both the BSP and the SEC. In 2016, we updated our CGM primarily to incorporate recent SEC issuances relative to corporate governance. This is currently undergoing another round of review vis-à-vis the SEC's new Code of Corporate Governance for Publicly Listed Companies per SEC Memorandum Circular No. 19 s2016. As much as possible, we align with the new standards and provisions of this circular.

Financial Consumer Protection

With customers at the forefront of our priorities and in compliance with BSP Circular No. 857 (BSP Regulations on Financial Consumer Protection), we have added to our corporate governance system/culture a Financial Consumer Protection (FCP) Framework to ensure that consumer protection standards and practices are duly observed and embedded in our business operations. This framework is comprised of FCP Policies and Procedures, FCP Code of Conduct, Consumer Assistance Management System, FCP Training Program, FCP Risk Management System, FCP Compliance Program, FCP Audit Program, and Financial Consumer Education and Awareness Program. The framework revolves around the core principles of consumer protection, namely: 1. Disclosure and transparency; 2. Protection of client information; 3. Fair treatment; 4. Effective recourse; and 5. Financial education and awareness.

BOARD OVERSIGHT

The Board of Directors sets the Corporate Governance tone in our organization by ensuring adherence to principles and standards. It is accountable to our stakeholders in running our Bank in a prudent and sound manner. It is primarily responsible for approving and overseeing the implementation of our strategic objectives, risk strategy, corporate governance and corporate values.

At the end of 2016, there are eight directors in our Board, five or majority of whom are non-executive directors. They are all qualified business professionals with the required expertise and experience in directing our strategic path. These directors were selected based on their qualifications (i.e., integrity/probity, physical/mental fitness, competence, relevant education/financial literacy/training, diligence and knowledge/experience) without discrimination on gender, age, and ethnic, political, religious, or cultural backgrounds.

In accordance with the Bank's By-Laws, directors are elected by the vote of the holders of common stock of the Bank in accordance with Section 24 of the Corporation Code and other pertinent applicable laws. Any stockholder may submit nominations for directorial positions to the Nominations Committee. The Committee then screens the qualifications of the nominees in accordance with screening policies and procedures, and parameters, including alignment with the

Bank's strategic directions to come up with a final list of candidates. Only nominees whose names appear in the said list are considered for election as directors at the annual meeting of the stockholders. Any vacancies in the Board of Directors may be filled by the vote of at least a majority of the remaining directors, if still constituting a quorum. Vacancies occurring by reason of removal by the stockholders, by expiration of term, or by an increase in the number of directors, however, shall be filled by the stockholders in a regular or special meeting called for this purpose.

We have consistently maintained independent directors who provide independent judgment, outside experience, and objectivity. Of our nine-seat Board, we have three independent directors, including our Board Chairman. This is more than the required minimum number of independent directors. We do not have any director holding more than five board seats in other publicly listed companies.

Our Board Chairman provides active leadership by ensuring that our Board and its various committees function effectively, including maintaining a relationship of trust among Board members. Our Chairman also ensures that our Board follows a sound decision-making process.

Individual directors are tasked to observe the fit and proper rule. They are expected to conduct fair business dealings, avoid conflict of interest, and observe confidentiality. They must act honestly, judiciously and in good faith, and uphold the best interest of our Bank and its stakeholders. They must also devote time and attention to their duties and responsibilities and contribute to our Board's decision-making process. They must exercise independent judgment and have a working knowledge of laws, rules and regulations applicable to our Bank.

All new members of the Board of Directors are furnished with a copy of their duties and responsibilities and are provided with a comprehensive training on corporate governance, as part of the BSP's requirements in confirming elected bank directors. Together with our principal officers, our directors attended in 2016 an annual refresher program on Corporate Governance (pursuant to SEC Memorandum Circular No. 20 s2013), including Anti-Money Laundering (AML), as conducted by SEC-accredited training providers, namely: Institute of Corporate Governance (ICD) and SGV & Co.

Our Board has access to our Corporate Secretary who manages the flow of information to the Board prior to the meetings. The Office of the Corporate Secretary plays a significant role in supporting the Board in discharging its responsibilities. It administers, attends, prepares the agenda and minutes of Board meetings, and ensures that notices required under the By-Laws are given to all directors and stockholders.

Our Board also reviews and approves all manuals to ensure that regulatory changes and best practices are included. They have access to a permanent compilation of documents related to past Board activities. They can readily seek clarification from Senior Management should they have concerns about our Bank or any item submitted for their consideration.

Board Committees. A number of Board-level committees were created to aid our Board in its various tasks to ensure efficiency and provide greater focus. Four of these committees are in charge of governance oversight functions, as follows:

- The **Corporate Governance Committee** is tasked to assist our Board in fulfilling its duties and responsibilities and monitoring our adherence to the corporate governance principles and guidelines set forth in our Corporate Governance Manual. It also oversees the development and effective implementation of our compliance system. The Committee is composed of three Directors, two of whom are independent directors, including the committee chairperson. The Committee meets monthly and is supported by our Compliance Office (CO).
- The **Risk Oversight Committee (ROC)** is responsible for the development and oversight of our risk management program. The Committee is currently composed of four members of the Board of Directors and one non-voting member appointed as advisor. The incumbent Committee Chairperson is a non-executive member and is an independent director. The ROC members possess a range of expertise and adequate knowledge of our risk exposures, which is needed to develop appropriate strategies for preventing or minimizing losses. The Committee meets monthly and is supported by our Risk Management Office (RMO).

- The **AML Oversight Committee** was created in 2014 to assist our Board in fulfilling its oversight responsibility over our compliance management. It ensures that we comply with the provisions of the AMLA, as amended, its Revised Implementing Rules and Regulations (RIRRs), and BSP AML regulations to the end that the Bank shall not be used as a vehicle to legitimize the proceeds of unlawful activity or to facilitate or finance terrorism. This committee is composed of three Directors, one of whom is an independent director and the committee chairperson. The committee meets monthly and is supported by our Compliance Office (CO).
- The **Audit Committee** is designated to provide independent oversight for the Bank's financial reporting process, corporate governance, system of internal control and risk management, internal and external audit functions, and monitoring of compliance with Bank policies, applicable laws, rules, regulations and Code of Conduct. It is composed of three Directors, two of whom are independent, including the committee chairperson. These members have auditing, accounting or related financial management expertise or experience commensurate with the size, complexity of operations and risk profile of the Bank. The committee meets monthly and as needed, and is supported by our Internal Audit Group (IAG).

Other Board-level committees are as follows:

- The **Executive Committee** is tasked to regularly review and approve credit proposals within its limits. It recommends additional conditions and requirements on loan applications for Board approval. The committee is composed of three Directors, including the President, our Credit & Collections Sector Head, and a credit representative from our parent Metrobank.
- The **Related Party Transactions Committee** is tasked to assist the Board in ensuring that transactions with related parties are reviewed, appropriate restrictions are followed, and corporate resources are judiciously used. The committee is composed of three Directors, two of whom are independent directors, including the committee chairperson. The committee meets monthly and is also supported by our Compliance Office (CO).
- The **Trust Committee** is a special committee tasked to be primarily responsible for overseeing the fiduciary activities of the Bank. It is composed of five members: the President, the non-voting Trust Officer, a non-executive director, an independent professional, and an independent director who is the committee chairperson. It meets quarterly, and is supported by our Trust Division.
- The **Nominations Committee** is tasked to review and evaluate all nominees to the Board. The committee is composed of three Directors, two of whom are independent, including the committee chairperson. The committee is duly guided by its charter, as well as BSP guidelines for the qualification and disqualification of directors found in the Manual of Regulations for Banks. The committee meets at least once a year and is supported by our Corporate Affairs Office and Corporate Secretary.
- The **Compensation and Remuneration Committee** is tasked to establish a formal and transparent procedure for developing a policy on executive remuneration. The committee is composed of three members of the Board, two of whom are independent directors, including the committee chairperson. Our Human Resources Group (HRG) Head sits in the committee as a resource person. The committee meets at least twice a year and is supported by our Human Resources Group (HRG).

Board and Board Committee Meetings. In 2016, our Board had 12 regular meetings, in addition to the annual stockholders' and organizational meetings. Our directors logged a 98% attendance rate.

Board-level committees composed of independent and non-executive directors, particularly the Corporate Governance Committee, Related Party Transactions Committee, and Audit Committee, all chaired by an independent director, meet monthly without the presence of any executive director/officer. In addition, an annual Independent Directors' Executive Session with the Bank's Chief Compliance Officer (CCO), Chief Risk Officer (CRO), Chief Audit Executive (CAE), and External Auditor-SGV & Co. was also held in 2016 in the absence of any executive director/officer.

SENIOR MANAGEMENT OVERSIGHT

Senior Management. Our Senior Management Team, headed by our President as the Chief Executive Officer (CEO), consists of a core group of senior officers who manage our day-to-day operations and business affairs. They exercise good governance by ensuring that line managers

under their respective areas of responsibility execute their activities in a manner consistent with Board-approved policies and procedures. These should be aligned with applicable laws, rules and regulations, as well as standards of good practice.

Management Committees. To achieve efficiency and provide greater focus for our Senior Management in overseeing key areas of banking operations, various Management-level committees were also maintained, as follows:

- The Assets and Liabilities Committee (ALCO) is tasked to manage our assets and liabilities consistent with our liquidity, capital adequacy, growth, risk tolerance and appetite, and profitability goals.
- The Credit Committee (CRECOM) is tasked to regularly review and approve credit proposals within the authority and limits set by our Board.
- The Anti-Money Laundering Compliance Committee (AMLCC) is designated by the Board to receive, evaluate, and decide whether or not a Suspicious Transaction Report (STR) and/or Report on Crimes and Losses (RCL) shall be filed with the Anti-Money Laundering Council Secretariat (AMLCS) and/or with the BSP for cases or incidents reported or elevated by various business or operating units of the Bank. It also provides support to the Bank's Compliance Office in terms of AML policy review/development, and in addressing AML deficiencies/adverse findings.
- The Outsourcing Oversight Committee (OOC) is tasked to oversee the accreditation of service providers, performance monitoring, post-implementation reviews and contract renewals in accordance with the Bank's Board-approved risk-based Outsourcing Policy Guidelines pursuant to existing BSP rules and regulations on outsourcing.
- The IT Steering Committee (ITSC) is tasked to cohesively monitor IT performance and institute appropriate actions to ensure achievement of desired results. It is accountable for designing and implementing our Board-approved Information Technology Risk Management System (ITRMS).
- The Emergency Committee (EMCOM) is tasked to manage and monitor the effective implementation of our Business Continuity Plan (BCP). It aims to provide our Bank with the capability to continue its critical functions and processes by identifying, assessing and managing emergency scenarios and other business interruptions.
- The Policy Committee (POLCOM) is tasked to resolve policy-related issues that require escalation or cross-functional discussion for resolution.
- The Personnel Committee (PERCOM) is tasked to assist our Senior Management in evaluating the performance and career advancement of our employees, deciding on employee offenses/administrative cases, and in maintaining personnel policies and procedures, including the Bank's Code of Conduct.
- The Retirement Committee (RETCOM) is exclusively tasked to administer our Gratuity and Retirement Benefit Plan.
- The Related Party Transactions Management Committee (RPTMC) is tasked to assist the Board-level RPTC and the Board of Directors in ensuring that transactions with related parties, with respect to those considered as "non-material" (i.e., within the set transaction materiality thresholds) are conducted at arms length.

OUR GOVERNANCE VANGUARDS

Our compliance, risk management, and internal audit functions are the forerunners in our relentless drive to promote and uphold the noblest tenets and highest standards of good corporate governance across all our business operations.

Compliance

Ensuring our compliance with applicable laws, rules and regulations, as a minimum requirement, is our collective duty and team effort. It begins with our Board and Senior Management at the top and down the line to our various business and operating units in accordance with our Board- approved

compliance system. The design and implementation of this program is administered and annually updated by our Compliance Office, led by our Chief Compliance Officer (CCO) who directly reports to our Corporate Governance Committee and to our Board.

Our Compliance Program adopts a three-pronged, risk-based approach to effectively manage our business risks and ensure compliance with pertinent banking laws, rules and regulations, codes of conduct, policies and standards of good practice. Its priority, focus and compliance testing frequency depends on the pre-assessed level of risk the business/operating units are inherently exposed relative to the number and magnitude or severity of pertinent requirements applicable to them.

This three-pronged strategy is structured to be operated by three key players, namely:

- 1) The line units as the first line of defense being the business risk owners and managers;
- 2) The Compliance Office (CO) as the second line of defense and the business risk overseers; and
- 3) The Internal Audit Group (IAG) as the third line of defense as the independent assurance provider.

Aside from monitoring and controlling compliance risk, our Chief Compliance Officer (CCO) also tracks our Bank's adherence to our Corporate Governance Manual, which is patterned after the SEC's Revised Code of Corporate Governance, and embodies all CG-related rules and regulations of the BSP. Cases of non-compliance are required to be reported to our Board Chairman who ensures due process and determines appropriate sanctions. The Bank fully and continually complies with the requirements of the Corporate Governance Manual.

Our Compliance Office continually strives to maintain our strong compliance culture in the midst of an ever-dynamic banking regulatory landscape. It proactively identifies and monitors, assesses, and addresses emerging compliance issues, vigorously promotes continuing education through formal/informal trainings, compliance awareness testing, compliance checking, and advisory service through a clear and open communication line; and fosters good corporate governance culture by benchmarking against industry best practices and standards.

OUR REMUNERATION POLICY

Our directors and officers are provided with an industry- competitive compensation package to attract, motivate, and retain highly qualified people. The salary scales of our officers are generally based on their position and rank. These are reviewed annually and adjusted as needed, based on performance.

We also grant fixed bonuses, including a 13th-month pay, in accordance with law. Our Board sees to it that this remuneration strategy is regularly reviewed to ensure that the policy is commensurate with corporate and individual performance, and benchmarked against our industry peers and other market considerations, while maintaining internal equity.

Each director receives a monthly professional fee for attending Board and committee meetings. This is also in consideration of their valuable contributions in the formulation of our Bank's overall strategy.

The total per diem and transportation allowance paid to directors for their attendance in Board meetings for the period January to December 2016 was Php16.79 million.

Our remuneration policy for directors indicates that the Chairman, Vice Chairman, and each of the Directors receive reasonable per diems for attendance at any Board meeting. There is nothing in our by-laws that prevents any director from serving any other capacity and receiving compensation.

We have been consistent in preaching the philosophy of meritocracy, such that our compensation and rewards programs are geared towards providing incentives to employees who have contributed to the success of the Bank.

- **Merit Increase.** Annual increases are given to employees based on their relative performance within the organization.

- **President's Cup Award.** This productivity-based award is given quarterly and annually to an individual or group for achieving exceptional performance.

We also regularly review all our policies and programs to ensure that our organization is at par with what the industry is offering.

- **Job Evaluation.** In 2016, we conducted a job evaluation on new positions resulting from our re-organization. This was after a bank-wide job evaluation conducted in 2015 that measured and benchmarked all Bank positions vis-à-vis the banking industry.
- **Salary Structure Program.** We conduct salary restructuring to ensure that the salaries of our employees are equitable to what the industry is offering.

OUR DIVIDEND POLICY

Dividends to be paid in cash are subject to the approval by a majority of the Board of Directors. Dividends to be paid in the form of stocks require the approval of a majority of the Board and the approval of shareholders representing no less than two-thirds of the Bank's outstanding capital stock.

Consistent with SEC rules, cash dividends declared by the Bank must have a record date of not less than 10 days but not more than 30 days from the date the cash dividends are declared/approved by the Board. With respect to stock dividends, the record date is at least 10 days or more than 30 days from the date of the stockholders' approval. However, the set record date should not be less than 10 trading days after the Philippine Stock Exchange (PSE) has received the notice of declaration of stock dividend. BSP regulations have since allowed banks to fix the record date and payment date on the date of dividend declaration, and pay such dividends without prior BSP approval, with the exception of banks with major supervisory concerns. In the event that a stock dividend is declared in connection with an increase in authorized capital stock, the corresponding record date is to be fixed by the SEC.

Unless approved via majority vote of the Board of Directors at a different rate depending on the Bank's earnings/results of operations, cash flow, financial condition and other factors or otherwise restricted/prohibited from declaring/paying dividends, the Bank regularly declares out of its unrestricted retained earnings and pays cash dividends at a payout ratio of Php3.00 per share per annum or Php0.75 per share per quarter, provided that the regulatory requirements of both the SEC and the BSP are complied with. Circumstances which could restrict the payment of cash dividends include, but are not limited to, when the Bank undertakes major projects and developments requiring substantial cash expenditures or when it is restricted from paying cash dividends by its loan covenants.

Provided likewise that the Bank is not restricted/prohibited from declaring/paying dividends and that all such regulatory requirements are complied with, the Bank may also declare out of its unrestricted retained earnings and pay out special cash dividends (on top of its regular quarterly cash dividends) at such rate as may also be approved via majority vote of the Board of Directors.

OUR GOVERNANCE EVALUATION

Every year, our Board, individual Directors, their respective oversight committees, and all other Board-level committees, as well as the President and all Management-level committees conduct annual self-rating exercises on their performance through the use of scorecards. This aims to gauge their effectiveness and determine areas of improvement vis-à-vis set performance standards that are consistent with the Bank's strategic objectives and business plans designed to continuously create value to all our stakeholders. Items subject to rating are the pertinent standards, as well as their duties and responsibilities, under a 3-point rating scale, to wit: "3"-Meets Standards (MS), "2"-Needs Improvement (NI), and "1"-Not Observed (NO), with an enjoinder to provide suggestions on how to address the deficiencies/improve performance on items rated either "1" or "2". The scorecard results are reviewed by our Corporate Governance Committee and reported to our Board of Directors.

OUR GOVERNANCE ACHIEVEMENT

2016 proved to be a banner year for the Bank in terms of awards and recognition, to wit:

1. PSBank scored high and posted a significant improvement in the ASEAN Corporate Governance Scorecard (ACGS): Although PSBank did not make it to the ASEAN Top 50, it significantly improved its ACGS score to way above the banking industry's average, placing PSBank within the Top 7 among the 15 Publicly Listed Companies (PLCs) in the Philippine banking sector, as well as in the Top 100 Philippine PLCs.

2. PSBank was recognized for its consistent observance of good CG standards and practices:

The Philippine Stock Exchange, Inc. (PSE) recognized PSBank as one of the Top 10 Finalists in its PSE Bell Awards for 2016. The Bell Awards was launched in 2012 and is one of the PSE's main corporate governance programs to promote and foster corporate governance excellence among listed companies and trading participants.

Sustainable Development

PSBank believes that the campaign for environmental protection and sustainable development starts with small initiatives that produce a culture of concern when combined.

Below are the Bank's continuing initiatives:

- E-mail blasts to employees on environmental awareness;
- Bank-wide campaign to reuse paper and segregate trash;
- Supporting employee participation in the Earth Day Run held on April 30, 2016, where a total of 16 PSBankers ran for environmental causes; and
- Participation in Earth Hour campaigns.

Health, Safety and Welfare of Employees

PSBank advocates a work environment free of hazards, which is conducive to the well-being and professional development of employees. We continuously seek ways to reach out to our employees. The Bank's leadership, represented by our Senior Officers, goes around the branches to personally meet with employees to conduct engagement sessions, check on the employees' welfare and needs, as well as the kind of customer experience we provide to our customers. Facilities are also checked to see if they are in accordance with our occupational health and safety standards.

In addition, we strictly adhere and even go beyond general labor standards, such as:

• **Occupational Health and Safety Program (OHSP) and the Health and Safety Committee (HASCOM).** The OHSP provides for the organization of a local committee on Health and Safety found in the branches. This program ensures that adequate guidelines, programs, and measures are adopted to ensure employees' health and safety.

• **First Aid Certification Program.** Our HR Group regularly coordinates with the Philippine National Red Cross (PNRC) in conducting certification seminars for head office and branch employees, ensuring all branches have at least one certified First-Aider.

• **Fire and Earthquake Drills.** In May 2016, the Bank conducted an Evacuation and Fire Drill. This aims to strengthen the awareness of PSBank employees on what to do during emergencies, and test individual and organizational response during the occurrence of an emergency. A total of 1,222 employees from the Head Office participated and evacuated the building within 13 minutes, shorter than the standard 15-minute evacuation time. In June 2016, the Bank participated in the Metro Manila Shake Drill organized by the Metro Manila Disaster Risk Reduction and Management Council to promote a culture of preparedness. Though there was no actual evacuation done, PSBank employees performed the initial quake response of "duck-cover-hold."

• **Health and Wellness Programs.** We also provide several avenues for our employees to ensure their health and well-being, and also build camaraderie in the workplace. In addition to organizing physical activities such as sports tournaments, exercise and dance classes, and pampering sessions, we also partnered with various gym establishments to offer discounted wellness

programs. We also tied up with health institutions in providing vaccination programs to our employees and their dependents.

We also provide comprehensive health insurance, both to our employees and their qualified dependents. Head Office employees are given access to a medical clinic with a doctor from Tuesday to Friday, and nurses on duty everyday to attend to their health needs. PSBank branches are equipped with first-aid kits. We also conduct home and hospital visitation for employees on extended leave due to sickness.

In 2016, the following health programs were conducted:

- An Executive Check-Up (ECU) for Senior Officers, and Annual Physical Exam (APE) for staff, junior officers, as well as their dependents. A total of 1,289 employees took part in the activity.
- A vaccination program for employees and dependents was conducted in June 2016, where a total of 194 employees and 507 dependents were given flu vaccines.
- In partnership with the Philippine Children's Medical Center, PSBank employees from the Head Office participated in a blood-letting activity in May 2016. In addition, a number of PSBank employees volunteered to donate blood in the Dugong Metro blood-letting program in November 2016.
- Health advisories were also released in 2016 through our e-Bulletin. The following health infomercials were released during the year: hypertension, Zika virus, cardiac arrest versus heart attack, norovirus, asthma, leptospirosis, hepatitis B, influenza, quit smoking, carpal tunnel syndrome, measles, and HIV/ AIDS.

• **Family Welfare Program.** Recognizing the importance of family support, PSBank sponsors activities such as the Kid Convention in November 2016, where employees and their children get to enjoy quality bonding time.

• **Spiritual Needs.** We also provide for the spiritual needs of our employees by holding Holy Masses every first Friday of the month and Holidays of Obligation at the Head Office.

• **Hobbies and Interests.** Employees are also encouraged to join interest clubs to share their hobbies and talents with their colleagues. The Bank maintains clubs catering to employees who are into photography, music, arts, writing, running, bowling, and badminton. These clubs enjoy Bank subsidy in support of their initiatives.

Training and Development of Employees

Guided by our core value of being performance-driven, we continue to enhance our Learning and Development Programs and reach out to more business units and employees.

- In fulfillment of the Talent Management and Competency Framework, we continued to promote our existing career development programs and implemented new ones, such as:
- The New Hire On-boarding (NHO) Program. The business units started creating and documenting their own process of equipping newly deployed members of the team with the knowledge to help them get familiarized with the culture of the group, as well as the roles and responsibilities of its members.
- In 2016, Staff Professional Enhancement and Educational Development (SPEED 2.0) produced two batches of Branch Service and Control Officers (BSCO) with another batch graduating first quarter of 2017.
- The eXceptional Career Enhancement and Employee Development (XCEED) program, which was established in 2015, continues to produce high-potential officers for head office assignment. Two batches were welcomed into the program in 2016.
- The Ideal BSCO Program also piloted in 2016. This program provides advanced training for top performing Branch Service and Control Officers (BSCO), preparing them for bigger responsibilities.

- The Executive Leadership Series was also continued as part of the Senior Officer Leadership Development Program (SOLiD).
- The Employee Improvement Plan (EIP) addresses and improves performance and behavioral challenges of our employees.
- On top of these training programs, specialized training sessions were also provided to employees, in collaboration with the Bank's subject matter experts, based on a revised Training Rationalization and Workplace Learning Policy.
- A total of 281 in-house training programs were conducted in 2016, which focused on culture building, regulatory standards, especially on Anti-Money Laundering/Combating Financing of Terrorism, Financial Consumer Protection, customer experience, and technical and functional expertise. This translates to a 716% increase in the number of in-house training programs from those conducted in 2015.
- We also send employees to external training programs aimed at improving their skill sets, complying with banking regulations, and preparing for ASEAN integration.

In 2016, 250 employees participated in a total of 110 external trainings. The number of external trainings conducted is 9% more than in 2015.

PART V. EXHIBITS AND SCHEDULES

Item 14. Exhibits and Reports on SEC Form 17-C

(a) Exhibits

- Exhibit 1 - Schedule of Bank/Branch Sites Owned by the Bank
- Exhibit 2 - Schedule of Bank/Branch Sites Under Lease Agreements
- Exhibit 3 - Events Reported under SEC Form 17-C for the last 6 months
- Exhibit 4 - Statement of Management's Responsibility
- Exhibit 5 - Audited Financial Statements as of December 31, 2016 and 2015
- Exhibit 6 - Supplementary Schedules
 - a. Independent Auditors' Report on Supplementary Schedules
 - b. Additional components of Financial Statements under SRC Rule 68, as amended
 - c. Reconciliation of Retained Earnings Available for Dividend Declaration
 - d. Map Showing the Relationship Between and Among Related Parties
 - e. List of Standards and Interpretations as of December 31, 2016
 - f. Financial Soundness Indicators

(b) Reports on SEC Form 17-C

Refer to Exhibit 3 for the reports filed during the last six months up to the date of filing the SEC Form 17-A.

SIGNATURES

Pursuant to the requirements of Section 17 of the Code and Section 141 of the Corporation Code, this report is signed on behalf of the issuer by the undersigned, thereunto duly authorized, in the City of Makati on April 5, 2017.

SECURITIES AND EXCHANGE COMMISSION
G/F Secretariat Building
PICC Complex, Roxas Boulevard
Pasay City, 1307

**STATEMENT OF MANAGEMENT'S RESPONSIBILITY
FOR FINANCIAL STATEMENTS**

The management of **Philippine Savings Bank** is responsible for the preparation and fair presentation of the financial statements including the schedules attached therein, for the years ended December 31, 2016 and 2015, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the company's financial reporting process.

The Board of Directors reviews and approves the financial statements including the schedules attached therein, and submits the same to the stockholders or members.

SyCip, Gorres, Velayo & Co., the independent auditor appointed by the stockholders, has audited the financial statements of the company in accordance with Philippine Standards on Auditing, and in its report to the stockholders or members, has expressed its opinion on the fairness of presentation upon completion of such audit.

JOSE T. PARDO
Chairman of the Board

VICENTE R. CUNA, JR.
President

LEAH M. ZAMORA
Controller

Signed this 15th day of March, 2017.

INDEPENDENT AUDITOR'S REPORT ON SUPPLEMENTARY SCHEDULES

The Stockholders and the Board of Directors
Philippine Savings Bank
PSBank Center
777 Paseo de Roxas corner Sedeño Street
Makati City

We have audited in accordance with Philippine Standards on Auditing, the financial statements of Philippine Savings Bank (the Bank) as at December 31, 2016 and 2015 and for each of the three years in the period ended December 31, 2016, included in this Form 17-A, and have issued our report thereon dated February 23, 2017. Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedules listed in the Index to the Financial Statements and Supplementary Schedules are the responsibility of the Bank's management. These schedules are presented for purposes of complying with Securities Regulation Code Rule 68.1 and Securities and Exchange Commission Memorandum Circular No. 11, Series of 2008 and are not part of the basic financial statements. These schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, fairly state, in all material respects, the financial data required to be set forth therein in relation to the basic financial statements taken as a whole.

- i. Each issue shall be stated separately, except that reasonable grouping, without enumeration may be made of (a) securities issued or guaranteed by the Philippine Government or its agencies and (b) securities issued by others for which the amounts in the aggregate are not more than two percent of total assets.
- ii. State the basis of determining the amounts shown in the column. This column shall be totaled to correspond to the respective balance sheet caption or captions.
- iii. This column may be omitted if all amounts that would be shown are the same as in the immediate preceding column.

PHILIPPINE SAVINGS BANK
SCHEDULE B – AMOUNTS RECEIVABLE FROM DIRECTORS, OFFICERS,
EMPLOYEES, RELATED PARTIES, AND PRINCIPAL STOCKHOLDERS (OTHER
THAN RELATED PARTIES)
As of December 31, 2016

EXHIBIT 6.b

Name and Designation of Debtor (i)	Balance at Beginning of the Period	Additions	Amounts Collected (ii)	Amounts Written-off (iii)	Current	Not Current	Balance at End of the Period
---	---	------------------	-------------------------------	----------------------------------	----------------	--------------------	-------------------------------------

NONE TO REPORT

Note: Transactions to these parties are made in the ordinary course of business.

- i. Show separately accounts receivables and note receivable. In case of notes receivable, indicate pertinent information such as the due date, interest rate, terms or repayment and collateral, if any.
- ii. If collection was other than in cash, explain.
- iii. Give reasons for write-off.

PHILIPPINE SAVINGS BANK
SCHEDULE C – AMOUNTS RECEIVABLE FROM RELATED PARTIES WHICH
ARE ELIMINATED DURING THE CONSOLIDATION OF FINANCIAL
STATEMENTS
As of December 31, 2016

EXHIBIT 6.b

Name and Designation of debtors	Balance at beginning of period	Additions	Amounts collected (i)	Amounts written off (ii)	Current	Not Current	Balance at end of the period
--	---	------------------	--------------------------------------	---	----------------	--------------------	---

NOT APPLICABLE

- (i) If collection was other than in cash, explain.
- (ii) Give reasons for write off.

PHILIPPINE SAVINGS BANK
SCHEDULE D – INTANGIBLE ASSETS
As of December 31, 2016

EXHIBIT 6.b

Description (i)	Beginning Balance	Additions at Cost (ii)	Charge to cost and expenses	Charge to other accounts	Other changes additions (deductions) (iii)	Ending Balance
Goodwill	P53,558,338	P–	P–	P–	P–	P53,558,338
Software Costs	355,178,046	170,466,198	(111,160,451)	–	–	414,483,793
Branch Licenses	35,723,737	1,400,000	–	–	–	37,123,737
	P444,460,121	P171,866,198	(P111,160,451)	P–	P–	P505,165,868

- (i) All items presented are classified as Intangible Assets and no item is classified as Other Assets
- (ii) All additions to costs represents acquisitions made by the Bank and are paid in cash and some are in installment basis.
- (iii) If provision for amortization of intangible assets is credited in the books directly to intangible asset account, the amounts shall be stated with explanations including the accounts charged. **CERTIFICATE ON THE COMPILATION SERVICES FOR THE PREPARATION OF THE
FINANCIAL STATEMENTS AND
NOTES TO THE FINANCIAL STATEMENTS**

I hereby certify that I am the Certified Public Accountant who performed the compilation services related to the preparation and presentation of financial information of an entity in accordance with an applicable financial reporting framework and reports as required by accounting and auditing standards for Philippine Savings Bank for the period ended December 31, 2016.

In discharging this responsibility, I hereby declare that:

☒ I am the Chief Accounting Officer of Philippine Savings Bank.

☐ I am the _____ of _____ and was contracted to perform this service.

Furthermore, in my compilation services for preparation of the Financial Statements and Notes to the Financial Statements, I was not assisted by or did not avail of the services of SyCip Gorres Velayo & Co. which is the external auditor who rendered the audit opinion for the said Financial Statements and Notes to the Financial Statements.

I hereby declare, under penalties of perjury and violation of Republic Act No. 9298, that my statements are true and correct.

MINDA L. CAYABYAB
Chief Accounting Officer

Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

The Stockholders and the Board of Directors
Philippine Savings Bank

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Philippine Savings Bank ("the Bank"), which comprise the statements of condition as at December 31, 2016 and 2015 and the statements of income, statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the three years in the period ended December 31, 2016, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Bank as at December 31, 2016 and 2015, and its financial performance and its cash flows for each of the three years in the period ended December 31, 2016 in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Bank in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

Adequacy of allowance for credit losses on loans and receivables

The Bank's loans and receivables consist of consumer loans and corporate loans. The appropriateness of the allowance for credit losses on these loans and receivables is a key area of judgment for management. The Bank determines the allowance for credit losses on an individual basis for individually significant loans and receivables, and collectively for loans and receivables that are not individually significant. The identification of impairment and the determination of the recoverable amount are inherently uncertain processes involving various assumptions and factors. These include the financial condition of the counterparty, estimated future cash flows, and observable market prices and estimated net selling prices of the collateral. The use of assumptions could produce significantly different estimates of allowance for credit losses. The disclosures in relation to the allowance for credit losses are included in Notes 3 and 15 of the financial statements.

Audit Response

We obtained an understanding of the Bank's impairment calculation process, including the source of the underlying data and supporting systems, and performed tests over relevant controls. For allowance for credit losses calculated on an individual basis, we selected a sample of impaired loans and obtained an understanding of the borrower's business and financial capacity. We also tested the assumptions underlying the impairment identification and quantification of the allowance for credit losses. This was done by assessing whether the forecasted cash flows are based on the borrower's current financial condition, checking the payment history of the borrower including payments made subsequent to yearend, agreeing the value of the collateral to the appraisal reports, checking whether the discount rate represents the original effective interest rate (EIR) or the current EIR of the loan, and re-performing the impairment calculation.

For allowance for credit losses calculated on a collective basis, we tested the underlying models and the inputs to those models, such as historical loss rates and net flow rates. This was done by agreeing the details of the loan information used in the calculation of loss rates and net flow rates to the Bank's records and subsidiary ledgers, checking the delinquency age buckets of the loans, loan grades and loan groupings, and re-performing the calculation of the allowance for credit losses.

Recoverability of deferred tax assets

The analysis of the recoverability of deferred tax assets was significant to our audit because the assessment process is complex and judgmental. It is also based on assumptions that are affected by expected future market or economic conditions and the expected performance of the Bank. The disclosures in relation to deferred income taxes are included in Notes 3 and 27 of the financial statements.

Audit Response

We obtained an understanding of the Bank's deferred income tax calculation process, including the applicable tax regulations. We reviewed the management's assessment on the availability of future taxable income in reference to financial forecast and tax strategies. We evaluated the management's forecast by comparing the loan portfolio and deposit growth rates with that of the industry and the historical performance of the Bank. We also reviewed the timing of the reversal of future taxable and deductible temporary differences.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 17-A, SEC Form 20-IS (Definitive Information Statement) and Annual Report for the year ended December 31, 2016, but does not include the financial statements and our auditor's report thereon. The SEC Form 17-A, SEC Form 20-IS (Definitive Information Statement) and Annual Report for the year ended December 31, 2016 are expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Bank to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Supplementary Information Required Under Revenue Regulations No. 15-2010

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under Revenue Regulations 15-2010 in Note 36 to the financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such information is the responsibility of the management of Philippine Savings Bank. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

PHILIPPINE SAVINGS BANK

NOTES TO FINANCIAL STATEMENTS

1. Corporate Information

Philippine Savings Bank (the Bank) was incorporated in the Philippines primarily to engage in savings and mortgage banking. The Bank's shares are listed in the Philippine Stock Exchange (PSE). The Bank offers a wide range of products and services such as deposit products, loans, treasury and trust functions that mainly serve the retail and consumer markets. On September 6, 1991, the Bank was authorized to perform trust functions.

As of December 31, 2016 and 2015, the Bank had 255 and 248 branches, respectively. In 2016, the Bank had 349 Automated Telling Machines (ATMs) in Metro Manila and 262 in provincial locations, bringing its total number of ATMs to 611 as of December 31, 2016 from 614 as of December 31, 2015.

The Bank's original Certificate of Incorporation was issued by the Securities and Exchange Commission (SEC) on June 30, 1959. On March 28, 2006, the board of directors (BOD) of the Bank approved the amendment of Article IV of its Amended Articles of Incorporation to extend the corporate term of the Bank, which expired on June 30, 2009, for another 50 years or up to June 30, 2059. This was subsequently approved by stockholders representing at least two-thirds of the outstanding capital stock of the Bank on April 25, 2006. The Amended Articles of Incorporation was approved by the SEC on September 27, 2006.

On April 27, 2010, by majority vote of the BOD and by stockholders representing two-thirds of the outstanding capital stock approved the amendment of Article VI of its Amended Articles of Incorporation reducing the number of directors from a maximum of eleven (11) to a maximum of nine (9). This was approved by the SEC on August 26, 2010.

On March 24, 2014, the BOD approved Article III of Articles of Incorporation to specify its principal address from Makati City to PSBank Center, 777 Paseo de Roxas corner Sedeño Street, Makati City 1226. The Amended Articles of Incorporation was approved by the SEC on December 22, 2014.

As of December 31, 2016 and 2015, Metropolitan Bank & Trust Company (MBTC), the Bank's ultimate parent, owned eighty-three percent (83%) and seventy-six percent (76%) of the Bank, respectively.

2. Significant Accounting Policies

Basis of Preparation

The accompanying financial statements have been prepared under the historical cost basis except for fair value through profit or loss (FVPL) investments, available-for-sale (AFS) investments, and derivative financial instruments that have been measured at fair value. All values are rounded to the nearest peso unless otherwise stated.

The accompanying financial statements of the Bank include the accounts maintained in the Regular Banking Unit (RBU) and Foreign Currency Deposit Unit (FCDU). The functional currency of the RBU and the FCDU is the Philippine Peso and United States Dollar (USD), respectively. For financial reporting purposes, FCDU accounts and foreign currency-

denominated accounts in the RBU are translated into their equivalents in Philippine peso (see accounting policy on Foreign Currency Translation). The financial statements of these units are combined after eliminating inter-unit accounts.

The financial statements provide comparative information in respect of the previous period. In addition, the Bank presents an additional statement of condition at the beginning of the earliest period presented when there is a retrospective application of an accounting policy, a retrospective restatement, or a reclassification of items in financial statements.

Statement of Compliance

The financial statements of the Bank have been prepared in compliance with Philippine Financial Reporting Standards (PFRS).

Presentation of Financial Statements

The Bank presents its statement of condition in order of liquidity. An analysis regarding recovery of assets or settlement of liabilities within twelve (12) months after the statement of condition date (current) and more than 12 months after the statement of condition date (non-current) is presented in Note 20.

Financial assets and financial liabilities are offset and the net amount reported in the statement of condition only when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liability simultaneously. The Bank assesses that it has a currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of solvency or bankruptcy of the Bank and all of the counterparties.

Income and expenses are not offset in the statement of income unless required or permitted by any accounting standard or interpretation, and as specifically disclosed in the accounting policies of the Bank.

Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except for the following new accounting pronouncements starting January 1, 2016. Adoption of these pronouncements did not have any significant impact on the Bank's financial position or performance unless otherwise indicated.

- Amendments to PFRS 10, PFRS 12 and Philippine Accounting Standard (PAS) 28, *Investment Entities: Applying the Consolidation Exception*
- Amendments to PFRS 11, *Accounting for Acquisitions of Interests in Joint Operations*
- PFRS 14, *Regulatory Deferral Accounts*
- Amendments to PAS 1, *Disclosure Initiative*
- Amendments to PAS 16 and PAS 38, *Clarification of Acceptable Methods of Depreciation and Amortization*
- Amendments to PAS 16 and PAS 41, *Agriculture: Bearer Plants*
- Amendments to PAS 27, *Equity Method in Separate Financial Statements*
- Annual Improvements to PFRSs 2012 - 2014 Cycle
 - Amendment to PFRS 5, *Changes in Methods of Disposal*
 - Amendment to PFRS 7, *Servicing Contracts*
 - Amendment to PFRS 7, *Applicability of the Amendments to PFRS 7 to Condensed Interim Financial Statements*
 - Amendment to PAS 19, *Discount Rate: Regional Market Issue*

- Amendment to PAS 34, *Disclosure of Information ‘Elsewhere in the Interim Financial Report’*

Summary of Significant Accounting Policies

Foreign Currency Translation

The financial statements are presented in Philippine Peso, which is the Bank’s functional and presentation currency.

The books of accounts of the RBU are maintained in Philippine Peso, while those of the FCDU are maintained in USD.

RBU

As at reporting date, foreign currency monetary assets and liabilities of the RBU are translated in Philippine Peso based on the Philippine Dealing System (PDS) closing rate prevailing at the statement of condition date, and foreign currency-denominated income and expenses, at the exchange rates as at the dates of the transactions. Foreign exchange differences arising from restatements of foreign currency-denominated assets and liabilities in the RBU are credited to or charged against profit or loss in the year in which the rates change. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

FCDU

As at the reporting date, the assets and liabilities of the FCDU are translated to the Bank’s presentation currency (the Philippine Peso) at the PDS closing rate prevailing at the statement of condition date, and its income and expenses are translated using the exchange rates as at the dates of the transactions. Exchange differences arising on translation to the presentation currency are taken to the statement of comprehensive income under ‘Cumulative translation adjustment’. Upon disposal of the FCDU or upon actual remittance of FCDU profits to RBU, the deferred cumulative amount recognized in the statement of comprehensive income is recognized in the statement of income.

Fair Value Measurement

The Bank measures financial instruments, such as FVPL investments, AFS investments and derivatives, at fair value at each statement of condition date. Also, fair values of financial instruments measured at amortized cost and non-financial assets such as investment properties are disclosed in Note 4.

Fair value is the estimated price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or most advantageous market must be accessible to the Bank.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

If an asset or a liability measured at fair value has a bid price and an ask price (e.g., an input from a dealer market), the price between the bid-ask spread that is most representative of fair value in the circumstances shall be used to measure fair value regardless of where the input is categorized within the fair value hierarchy.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Bank uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Bank determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Bank has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset and liability and the level of the fair value hierarchy as explained above.

Cash and Cash Equivalents

For purposes of reporting cash flows, cash and cash equivalents include cash and other cash items, due from BSP and other banks, interbank loans receivable and securities purchased under resale agreements that are convertible to known amounts of cash which have original maturities of three months or less from date of placements and that are subject to an insignificant risk of changes in value. Due from BSP includes the statutory reserves required by the BSP which the Bank considers as cash equivalents as withdrawals can be made to meet the Bank's cash requirements as allowed by the BSP.

Financial Instruments - Initial Recognition and Subsequent Measurement

Date of recognition

Purchases or sales of financial assets, except for derivatives, that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the settlement date. Derivatives are recognized on a trade date basis. Deposits, amounts due to banks and loans and receivables are recognized when cash is received by the Bank or advanced to the borrowers.

Initial recognition of financial instruments

All financial instruments, including trading and investment securities and loans and receivables, are initially measured at fair value. Except for FVPL investments and liabilities, the initial measurement of financial instruments includes transaction costs. The Bank classifies its financial assets in the following categories: FVPL investments, AFS investments, held-to-maturity (HTM) investments, and loans and receivables. Financial liabilities are classified into liabilities at FVPL and other financial liabilities at amortized cost. The classification of financial instruments at initial recognition depends on their purpose and characteristics and the management's intention in acquiring them. Management determines the classification of its investments at initial recognition and, where allowed and appropriate, re-evaluates such designation at every statement of condition date.

Financial assets and financial liabilities at FVPL

Financial assets and financial liabilities at FVPL include financial assets and financial liabilities held for trading purposes and derivative instruments.

Financial instruments held-for-trading

Other financial assets or financial liabilities held for trading (HFT) are recorded in the statement of condition at fair value. Changes in fair value relating to the HFT positions are recognized in 'Trading and securities gains (losses) - net'. Interest earned or incurred is recorded as interest income or expense, respectively, while dividend income is recorded in other operating income under 'Miscellaneous' when the right to receive payment has been established.

Included in this classification are debt securities which have been acquired principally for the purpose of selling in the near term.

Derivatives

Derivative financial instruments are initially recorded at fair value on the date at which the derivative contract is entered into and are subsequently remeasured at fair value. Any gains or losses arising from changes in fair values of derivatives (except those accounted for as cash flow hedges) are taken directly to the statement of income and are included in 'Foreign exchange gain - net'. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative. As of December 31, 2016 and 2015, derivatives consist of foreign exchange swaps and Republic of the Philippines (ROP) paired warrants acquired to manage the Bank's foreign currency risk, lower the risk weighted assets and improve the capital adequacy ratio of the Bank.

AFS investments

AFS investments include equity and debt securities. Equity investments classified as AFS are those which are neither classified as HFT nor designated at FVPL. Debt securities in this category are intended to be held for an indefinite period of time and may be sold in response to needs for liquidity or in response to changes in market conditions. The Bank has not designated any loans and receivables as AFS.

After initial measurement, AFS investments are subsequently measured at fair value. The effective yield component of AFS debt securities as well as the impact of restatement on foreign currency-denominated AFS debt securities is reported in other comprehensive income. The unrealized gains and losses arising from the fair valuation of AFS investments are excluded, net of tax, from reported income and are reported as 'Net unrealized gain (loss) from AFS investments' in OCI.

When the security is disposed of, the cumulative gain or loss previously recognized in OCI is recognized as 'Trading and securities gains (losses) - net' in the statement of income. Where the Bank holds more than one investment in the same security, these are deemed to be disposed on a weighted average basis. Interest earned on holding AFS debt investments are reported as interest income using the EIR. Dividends earned on holding AFS equity investments are recognized in the statement of income as other operating income under 'Miscellaneous' when the right of the payment has been established. The losses arising from impairment of such investments are recognized as 'Provision for credit and impairment losses' in the statement of income and removed from 'Net unrealized gain (loss) from AFS investments' in OCI.

HTM investments

HTM investments are quoted non-derivative financial assets with fixed or determinable payments and fixed maturities for which the Bank's management has the positive intention and ability to hold until maturity. After initial measurement, HTM investments are subsequently measured at amortized cost using the effective interest amortization method, less impairment in value. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the EIR. The amortization is included in 'Interest income on investment securities' in the statement of income. The losses arising from impairment of such investments are recognized in the statement of income under 'Provision for credit and impairment losses'. The effects of restatement on foreign currency-denominated HTM investments are recognized in the statement of income.

If the Bank were to sell or reclassify more than an insignificant amount of HTM investments before maturity (other than in certain specific circumstances), the entire category would be tainted and would be reclassified as AFS investments. Furthermore, the Bank would be prohibited from classifying any financial asset as HTM investments during the two preceding financial years.

Loans and receivables

This accounting policy relates to the Bank's 'Due from Bangko Sentral ng Pilipinas (BSP)', 'Due from Other Banks', 'Interbank Loans Receivable and Securities Purchased Under Resale Agreements (SPURA)', 'Loans and Receivables', 'Security Deposits', 'Returned Checks and Other Cash Items (RCOCI)', and 'Shortages'. These are non-derivative financial assets with fixed or determinable payments and fixed maturities that are not quoted in an active market, other than:

- those that the Bank intends to sell immediately or in the near term and those that the Bank, upon initial recognition, designates as at FVPL;
- those that the Bank, upon initial recognition, designates as AFS; and
- those for which the Bank may not recover substantially all of its initial investment, other than because of credit deterioration.

After initial measurement, these are subsequently measured at amortized cost using the effective interest amortization method, less allowance for credit losses. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees and costs that are an integral part of the EIR. The amortization is included in 'Interest income' in the statement of income. The losses arising from impairment are recognized in 'Provision for credit and impairment losses' in the statement of income.

Other financial liabilities carried at amortized cost

This category represents issued financial instruments or their components, which are not designated at FVPL and comprises 'Deposit Liabilities', 'Bills Payable', 'Subordinated Notes', 'Treasurer's, Cashier's and Manager's Checks', 'Accrued Interest Payable', 'Accrued

Other Expenses', 'Accounts Payable', 'Bills Purchased-Contra', 'Other credits', 'Due to BSP', 'Dividends Payable', 'Due to the Treasurer of the Philippines', 'Deposits for Keys-Safety Deposit Boxes (SDB)', and 'Overages', where the substance of the contractual arrangement results in the Bank having an obligation either to deliver cash or another financial asset to the holder, or to satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares.

After initial measurement, financial liabilities not qualified and not designated as FVPL are subsequently measured at amortized cost using the effective interest amortization method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the EIR.

A compound financial instrument which contains both a liability and an equity component is separated at the issue date. A portion of the net proceeds of the instrument is allocated to the debt component on the date of issue based on its fair value (which is generally determined based on quoted market prices for similar debt instruments). The residual amount determined after deducting the fair value of the debt component is assigned to the equity component. The value of any derivative features (such as a call option) embedded in the compound financial instrument other than the equity component is included in the debt component.

Derecognition of Financial Assets and Liabilities

Financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of financial assets) is primarily derecognized when:

- the rights to receive cash flows from the asset have expired; or
- the Bank has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:
 - a. the Bank has transferred substantially all the risks and rewards of the asset, or
 - b. the Bank has neither transferred nor retained the risks and rewards of the asset but has transferred control over the asset.

Where the Bank has transferred its rights to receive cash flows from an asset or has entered into a 'pass-through' arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control over the asset, the asset is recognized to the extent of the Bank's continuing involvement in the asset. In this case, the Bank also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Bank has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of original carrying amount of the asset and the maximum amount of consideration that the Bank could be required to repay.

Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statement of income.

Repurchase and Reverse Repurchase Agreements

Securities sold under agreements to repurchase (SSURA) at a specified future date ('repos') are not derecognized from the statement of condition as the Bank retains substantially all the risks and rewards of ownership. The corresponding cash received, including accrued interest, is recognized in the statement of condition as a loan to the Bank under 'Bills Payable', reflecting the economic substance of such transaction.

Conversely, securities purchased under agreements to resell (SPURA) at a specified future date ('reverse repos') are not recognized in the statement of condition. The consideration paid, including accrued interest, is recognized in the statement of condition as SPURA, and is considered a loan to the counterparty. The difference between the purchase price and resale price is treated as interest income and is accrued over the life of the agreement using the effective interest amortization method.

Reclassification of Financial Assets

The Bank may reclassify, in rare circumstances, non-derivative financial assets out of the HFT investments category and into the AFS financial assets, HTM financial assets or Loans and Receivables categories.

A financial asset that is reclassified out of the HFT category is reclassified at its fair value on the date of reclassification. Any gain or loss already recognized in the statement of comprehensive income is not reversed. The fair value of the financial asset on the date of reclassification becomes its new cost or amortized cost, as applicable.

For a financial asset reclassified out of the AFS financial assets category, any previous gain or loss on the asset that has been recognized in OCI is amortized to profit or loss over the remaining life of the investment using the effective interest method. Any difference between the new amortized cost and the expected cash flows is also amortized over the remaining life of the asset using the effective interest method.

If the asset is subsequently determined to be impaired, the amount recorded in the OCI is recycled to the statement of income.

If, as a result of a change in intention or ability, it is no longer appropriate to classify an investment as HTM, it shall be reclassified as AFS and remeasured at fair value on the date of reclassification, and the difference between its carrying amount and fair value shall be recognized in other comprehensive income.

There was no reclassification of financial assets in 2016 and 2015.

Impairment of Financial Assets

The Bank assesses at each statement of condition date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that have occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

Evidence of impairment may include: indications that the borrower or a group of borrowers is experiencing significant financial difficulty; default or delinquency in interest or principal payments; the probability that they will enter bankruptcy or other financial reorganization; and

where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Financial assets carried at amortized cost

For financial assets carried at amortized cost, which includes loans and receivables, due from banks and HTM investments, the Bank first assesses individually at each statement of condition date whether objective evidence of impairment exists for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Bank determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses for impairment. Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtors' ability to pay all amounts due according to the contractual terms of the assets being evaluated. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in a collective assessment for impairment. Assets individually assessed for impairment for which no impairment loss was measured are also collectively assessed for impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows (excluding future credit losses that have not been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the amount of loss is charged to the statement of income. Interest income continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

Loans and receivables, together with the associated allowance accounts, are written off when there is no realistic prospect of future recovery and all collateral have been realized. If, in a subsequent year, the amount of the estimated impairment loss decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is reduced by adjusting the allowance account. If a future write-off is later recovered, any amounts formerly charged are credited to 'Recovery of charged-off assets' under 'Miscellaneous income' in the statement of income.

The present value of the estimated future cash flows is discounted at the financial asset's original EIR. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current EIR, adjusted for the original credit risk premium. The calculation of the present value of the estimated future cash flows of a collateralized financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable.

For the purpose of a collective evaluation of impairment, financial assets are grouped on the basis of credit risk characteristics such as industry and age of receivables.

Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the group. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the period in which the historical loss experience is based and to remove the effects of conditions in the historical period that do not exist currently.

Estimates of changes in future cash flows reflect, and are directionally consistent with changes in related observable data from period to period (such as changes in unemployment rates, property prices, commodity prices, payment status, or other factors that are indicative of incurred losses in the group and their magnitude). The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Bank to reduce any differences between loss estimates and actual loss experience.

The details of credit and impairment losses on financial assets carried at amortized cost are disclosed in Note 15.

Restructured loans

Where possible, the Bank seeks to restructure loans rather than to take possession of collateral. This may involve extending the payment arrangements and the agreement on new loan conditions. Once the terms have been renegotiated, any impairment is measured using the original EIR as calculated before the modification of terms and the loan is no longer considered past due.

Management continuously reviews restructured loans to ensure that all criteria are met and that future payments are likely to occur. The loans continue to be subjected to an individual or collective impairment assessment, calculated using the loan's original EIR if the original loan has a fixed interest rate and the current repriced rate if the original loan is repriceable. The difference between the recorded value of the original loan and the present value of the restructured cash flows, discounted at the applicable interest rate, is recognized in 'Provision for credit and impairment losses' in the statement of income.

AFS investments

For AFS investments, the Bank assesses at each statement of condition date whether there is objective evidence that a financial asset or group of financial assets is impaired.

In the case of debt instruments classified as AFS investments, the Bank assesses individually whether there is objective evidence of impairment based on the same criteria as financial assets carried at amortized cost. However, the amount recorded as impairment is the cumulative loss measured as the difference between the amortized cost and the current fair value, less any impairment loss on that investment previously recognized in the statement of income.

Future interest income continues to be accrued based on the reduced carrying amount using the rate of interest used to discount future cash flows for the purpose of measuring impairment loss. Such accrual is recorded as part of 'Interest income' in the statement of income. If, in a subsequent period, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognized, the impairment loss is reversed through the statement of income.

In the case of equity investments classified as AFS investments, objective evidence would also include a 'significant' or 'prolonged' decline in the fair value of the investments below its cost. The Bank treats 'significant' generally as 20.00% and 'prolonged' generally as longer than twelve (12) months. When there is evidence of impairment, the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in the statement of income - is removed from equity and recognized in the statement of income. Impairment losses on equity investments are not reversed through the statement of income. Increases in fair value after impairment are recognized in the statement of comprehensive income.

Investment in a Joint Venture

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. The Bank's investment in a joint venture represents its 40.00% interest in Sumisho Motor Finance Corporation (SMFC).

The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries.

The Bank's investment in its joint venture is accounted for using the equity method.

Under the equity method, the investment in a joint venture is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Bank's share of net assets of the joint venture since the acquisition date. Goodwill relating to the joint venture is included in the carrying amount of the investment and is neither amortized nor individually tested for impairment.

The statement of income reflects the Bank's share of the results of operations of the joint venture. Any change in OCI of those investees is presented as part of the Bank's OCI. In addition, when there has been a change recognized directly in the equity of the joint venture, the Bank recognizes its share of any changes, when applicable, in the statement of changes in equity. Unrealized gains and losses resulting from transactions between the Bank and joint venture are eliminated to the extent of the interest in the joint venture.

The aggregate of the Bank's share of profit or loss of a joint venture is shown on the face of the statement of profit or loss outside operating profit and represents profit or loss after tax and non-controlling interests in the subsidiaries of the joint venture.

The financial statements of a joint venture are prepared for the same reporting period as the Bank. The length of the reporting period is the same from period to period. When necessary, adjustments are made to bring the accounting policies in line with those of the Bank.

After application of the equity method, the Bank determines whether it is necessary to recognize an impairment loss on its investment in its joint venture. At each statement of condition date, the Bank determines whether there is objective evidence that the investment in the joint venture is impaired. If there is such evidence, the Bank calculates the amount of impairment as the difference between the recoverable amount of the joint venture and its carrying value, then recognizes the loss as 'Share in net income (loss) of a joint venture' in the statement of income.

Upon loss of significant influence over the joint control over the joint venture, the Bank measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognized in profit or loss.

Property and Equipment

Land is stated at cost less any impairment in value and depreciable properties, including building, furniture, fixtures and equipment, and leasehold improvements, are stated at cost less accumulated depreciation and any accumulated impairment losses. The initial cost of property and equipment consists of its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the assets have been put into operation, such as repairs and maintenance, are normally charged

against profit or loss in the year in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional cost of property and equipment.

Depreciation is calculated using the straight-line method to write down the cost of the property and equipment to their residual values over their estimated useful lives. Land is not depreciated. The estimated useful lives are as follows:

Buildings	25-50 years
Furniture, fixtures and equipment	3-5 years depending on the type of assets
Leasehold improvements	5 years or the term of the related leases, whichever is shorter

The assets' residual values, useful lives and methods of depreciation are reviewed, and adjusted if appropriate, at each financial year-end to ensure that these are consistent with the expected pattern of economic benefits from the items of property and equipment.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of income in the year the asset is derecognized.

The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the asset is written down to its recoverable amount.

Investment Properties

Investment properties are measured initially at cost, including transaction costs. An investment property acquired through an exchange transaction is measured at the fair value of the asset acquired unless the fair value of such asset cannot be measured, in which case the investment property acquired is measured at the carrying amount of the asset given up. Foreclosed properties are classified under investment properties from foreclosure date. Expenditures incurred after the investment properties are recognized, such as repairs and maintenance costs, are normally charged to income in the period in which the costs are incurred.

Subsequent to initial recognition, investment properties are carried at cost less accumulated depreciation and impairment in value, except for land which is stated at cost less impairment in value. Depreciation is calculated using the straight-line method over the remaining useful lives from the time of acquisition of the investment properties.

The estimated useful life of building and condominium units ranges from 10 to 40 years.

Investment properties are derecognized when they have either been disposed of or when the investment property is permanently withdrawn from use and no future benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the statement of income in 'Gain on foreclosure and sale of investment properties - net' in the year of retirement or disposal.

Transfers are made to investment properties when, and only when, there is a change in use evidenced by ending of owner occupation, commencement of an operating lease to another party or ending of construction or development. Transfers are made from investment properties when, and only when, there is a change in use evidenced by commencement of owner occupation or commencement of development with a view to sale.

Chattel Mortgage Properties

Chattel mortgage properties comprise of repossessed vehicles. Chattel mortgage properties are stated at cost less accumulated depreciation and impairment in value. Chattel mortgage properties acquired are initially recognized at fair value. Depreciation is calculated using the straight-line method over the remaining useful lives from the time of acquisition of the vehicles. The useful lives of chattel mortgage properties are estimated to be five years.

Intangible Assets

The Bank's intangible assets include branch licenses and computer software. An intangible asset is recognized only when the cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Bank.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the statement of income in the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible assets may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and they are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of income under 'Amortization of intangible assets'.

Intangible assets with indefinite useful lives are tested for impairment annually either individually or at the CGU level. Such intangibles are not amortized. The useful life of an intangible asset with an indefinite life is reviewed annually to determine whether indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is made on a prospective basis.

Gains or losses arising from the derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of income when the asset is derecognized.

Branch licenses

Branch licenses arise from the acquisition of branches from local banks and licenses to operate new branches from the BSP. Branch licenses have indefinite useful lives and are tested for impairment on an annual basis.

Software costs

Software costs are carried at cost less accumulated amortization and any impairment in value. Given the history of rapid changes in technology, computer software are susceptible to technological obsolescence. Therefore, it is likely that their useful life is short. Software costs are amortized on a straight-line basis over five years but maybe shorter depending on the period over which the Bank expects to use the asset.

Impairment of Non-financial Assets

Property and equipment, investment properties and chattel mortgage properties

At each statement of condition date, the Bank assesses whether there is any indication that its non-financial assets may be impaired. When an indicator of impairment exists or when an annual impairment testing for an asset is required, the Bank makes a formal estimate of the recoverable amount. An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is assessed as part of the CGU to which it belongs. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less cost to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples and other available fair value indicators.

An impairment loss is charged to operations in the year in which it arises.

An assessment is made at each statement of condition date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Bank estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceeds the carrying amount that would have been determined, net of depreciation, had no impairment loss been previously recognized. Such reversal is recognized in the statement of income. After such reversal, the depreciation expense is adjusted in future years to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining life.

Goodwill

Goodwill is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of the CGU (or group of CGU) to which the goodwill relates. Where the recoverable amount of the CGU (or group of CGU) is less than the carrying amount of the CGU (or group of CGU) to which goodwill has been allocated, an impairment loss is recognized immediately in the statement of income. Impairment losses relating to goodwill cannot be reversed for subsequent increases in its recoverable amount in future periods. The Bank performs its annual impairment test of goodwill as at December 31 of each year.

Intangible assets

Intangible assets with indefinite useful lives are tested for impairment annually as at December 31 of each year, either individually or at the CGU level, as appropriate.

Intangible assets with finite lives are assessed for impairment whenever there is an indication that the intangible asset may be impaired.

Investment in a joint venture

After application of the equity method, the Bank determines whether it is necessary to recognize an impairment loss on the Bank's investment in a joint venture. The Bank determines at each statement of condition date whether there is any objective evidence that the investment a joint venture is impaired. If this is the case, the Bank calculates the amount of impairment as being the difference between the fair value of the investment in the joint venture and the carrying amount and recognizes such amount in the statement of income.

Leases

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement and requires an assessment at inception date of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset. A reassessment is made after inception of the lease only if one of the following applies:

- a. there is a change in contractual terms, other than a renewal or extension of the arrangement;
- b. a renewal option is exercised or extension granted, unless that term of the renewal or extension was initially included in the lease term;
- c. there is a change in the determination of whether fulfillment is dependent on a specified asset;
or,
- d. there is a substantial change to the asset.

Where a reassessment is made, lease accounting shall commence or cease from the date when the change in circumstances gives rise to the reassessment for scenarios (a), (c) or (d) above, and at the date of renewal or extension period for scenario (b).

Bank as a lessee

Leases where the lessor retains substantially all the risks and benefits of ownership of the assets are classified as operating leases. Operating lease payments are recognized as an expense in the statement of income on a straight-line basis over the lease term.

Bank as a lessor

Leases where the Bank does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as income in the period in which they are earned.

Common Stock

Common stocks are recorded at par. Proceeds in excess of par value are recognized under equity as 'Capital Paid in Excess of Par Value' in the statement of condition. Incremental costs incurred which are directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax.

Revenue Recognition

Revenue is recognized to the extent that it is probable that future economic benefits will flow to the Bank and revenue can be measured reliably, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms and payment excluding taxes or duty. The Bank assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent. The Bank concluded that it is acting as a principal in all of its revenue arrangements. The following specific recognition criteria must also be met before revenue is recognized:

Interest income

For all financial instruments measured at amortized cost and interest-bearing financial assets classified as AFS and financial instruments designated at FVPL, interest income or expense is recorded using the EIR. EIR is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability. The calculation takes into account all contractual terms of the financial instrument (for example, prepayment options), includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the EIR, but not future credit losses.

The carrying amount of the financial asset or financial liability is adjusted if the Bank revises its estimates of payments or receipts. The adjusted carrying amount is calculated based on the original EIR and the change in carrying amount is recorded as 'Interest income'.

Once the recorded value of a financial asset or group of similar financial assets has been reduced due to an impairment loss, interest income continues to be recognized using the original EIR used to discount future cash flows for the purpose of measuring the impairment loss.

Service fees and commission income

Fees earned for the provision of services over a period of time are accrued over that period. These fees include fiduciary fees, credit-related fees and other service and management fees.

Income from sale of property and equipment, investment property and chattel mortgage properties

Income from sale of properties is recognized upon completion of the earning process and the collectibility of the sales price is reasonably assured.

Trading and securities gains (losses) - net

Trading and securities gain (loss) represents results arising from trading activities, including all gains and losses from changes in the fair values of financial instruments at FVPL. It also includes gains and losses realized from sale of AFS financial assets.

Realized gains and losses on disposals of financial instruments at FVPL are calculated using weighted average method. It represents the difference between an instrument's initial carrying amount and disposal amount.

Rental income

Rental income arising from leased properties is accounted for on a straight-line basis over the lease terms of ongoing leases and is recorded in the statement of income under 'Miscellaneous' in other operating income.

Dividend income

Dividend income is recognized when the Bank's right to receive payment is established, which is generally when shareholders approve the dividend.

Other income

Income from sale of service is recognized when services are rendered. Income from sale of properties is recognized upon completion of the earning process and when the collectability of the sales price is reasonably assured.

Expense Recognition

Expenses are recognized when it is probable that a decrease in future economic benefit related to a decrease in an asset or an increase in liability has occurred and the decrease in economic benefits can be measured reliably. Revenues and expenses that relate to the same transaction or other event are recognized simultaneously.

Interest expense

Interest expense for all interest-bearing financial liabilities are recognized in 'Interest expense' in the statement of income using the EIR of the financial liabilities to which they relate.

Other expense

Expenses encompass losses as well as those expenses that arise in the ordinary course of business of the Bank. Expenses are recognized when incurred.

Business Combination and Goodwill

Business combinations are accounted for using the acquisition method. This involves recognizing identifiable assets (including previously unrecognized intangible assets) and liabilities (including contingent liabilities and excluding future restructuring) of the acquired business at fair value. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognized as goodwill. If the cost of acquisition is less than the fair values of the identifiable net assets acquired, the discount on acquisition is recognized directly in the statement of income in the year of acquisition.

Goodwill is initially measured at cost being the excess of the acquisition cost over the share in the net fair value of the acquired identifiable assets, liabilities and contingent liabilities. The Bank's goodwill arose from past purchases of branch business/offices from the Parent Company.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired is, from the acquisition date, allocated to each of the CGU or group of CGUs that are expected to benefit from the synergies of the combination, irrespective of whether the acquired other assets or liabilities are assigned to those units.

Where goodwill forms part of a CGU and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the CGU retained.

Retirement Cost

Defined Benefit Plan

The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the statement of condition date reduced by the fair value of plan assets, adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The present value of the defined benefit obligation is calculated annually by an independent actuary. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under the defined benefit plan is actuarially determined using the projected unit credit method.

Defined benefit costs comprise the following:

- a. service cost;
- b. net interest on the net defined benefit liability or asset; and
- c. remeasurements of net defined benefit liability or asset.

Service costs, which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on Philippine government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in profit or loss.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in OCI in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the creditors of the Bank, nor can they be paid directly to the Bank. The fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations). If the fair value of the plan assets is higher than the present value of the defined benefit obligation, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The Bank's right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

Termination benefits

Termination benefits are employee benefits provided in exchange for the termination of an employee's employment as a result of either an entity's decision to terminate an employee's

employment before the normal retirement date or an employee's decision to accept an offer of benefits in exchange for the termination of employment.

A liability and expense for a termination benefit is recognized at the earlier of when the entity can no longer withdraw the offer of those benefits and when the entity recognizes related restructuring costs. Initial recognition and subsequent changes to termination benefits are measured in accordance with the nature of the employee benefit, as either post-employment benefits, short-term employee benefits, or other long-term employee benefits.

Employee leave entitlement

Employee entitlements to annual leave are recognized as a liability when they are accrued to the employees. The undiscounted liability for leave expected to be settled after the end of the annual reporting period is recognized for services rendered by employees up to the end of the reporting period.

Provisions

Provisions are recognized when the Bank has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Bank expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of income, net of any reimbursement. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as 'Interest expense'.

Contingent Liabilities and Contingent Assets

Contingent liabilities are not recognized in the financial statements but are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized but are disclosed in the financial statements when an inflow of economic benefits is probable.

Debt Issue Costs

Issuance, underwriting and other related expenses incurred in connection with the issuance of debt instruments are included in the measurement basis of the underlying debt instruments and are amortized as an adjustment to the interest on the underlying debt instruments using the effective interest method.

Income Taxes

Income tax on profit or loss for the year comprises current and deferred tax. Income tax is determined in accordance with Philippine tax law. Income tax is recognized in the statement of income, except to the extent that it relates to OCI items recognized directly in the statement of comprehensive income.

Current tax

Current income tax is the expected tax payable on the taxable income for the period, using the tax rates enacted at the statement of condition date, together with adjustments to tax payable in respect to prior years.

Deferred tax

Deferred income tax is provided, using the balance sheet liability method, on all temporary differences at the statement of condition date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, including asset revaluations. Deferred tax assets are recognized for all deductible temporary differences and carry forward of unused tax losses and tax credits from excess minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT), to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and carry forward of unused tax losses and MCIT can be utilized.

The carrying amount of deferred tax assets is reviewed at each statement of condition date and reduced to the extent that it is no longer probable that sufficient future taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each statement of condition date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are applicable to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the statement of condition date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and deferred taxes related to the same taxable entity and the same taxation authority.

Current income tax and deferred income tax relating to items recognized directly in OCI is also recognized in OCI and not in the statement of income.

Earnings Per Share

Basic earnings per share (EPS) is computed by dividing net income for the year by the weighted average number of common shares issued and outstanding during the year, after giving retroactive effect to stock dividends declared, stock rights exercised and stock splits, if any, declared during the year. As of December 31, 2016 and 2015, there were no potential common shares with dilutive effect on the basic EPS of the Bank.

Dividends on Common Shares

Dividends on common shares are recognized as a liability and deducted from equity when approved by the BOD of the Bank. Dividends for the year that are approved after the statement of condition date are dealt with as subsequent events.

Segment Reporting

The Bank's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. Financial information on business segments is presented in Note 6. The Bank's assets generating revenues are all located in the Philippines (i.e., one geographical location). Therefore, geographical segment information is no longer presented.

Fiduciary Activities

Assets and income arising from fiduciary activities together with related undertakings to return such assets to customers are excluded from the financial statements, where the Bank acts in a fiduciary capacity such as nominee, trustee or agent.

Subsequent Events

Post year-end events that provide additional information about the Bank's position at the statement of condition date (adjusting events) are reflected in the financial statements. Post year-end events that are not adjusting events are disclosed in the notes to the financial statements when material.

Standards issued but not yet effective

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Bank does not expect the future adoption of the said pronouncements to have a significant impact on its financial statements. The Bank intends to adopt the following pronouncements when they become effective.

Effective beginning on or after January 1, 2017

- Amendment to PFRS 12, *Clarification of the Scope of the Standard* (Part of *Annual Improvements to PFRSs 2014 - 2016 Cycle*)
The amendments clarify that the disclosure requirements in PFRS 12, other than those relating to summarized financial information, apply to an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) that is classified (or included in a disposal group that is classified) as held for sale.
- Amendments to PAS 7, *Statement of Cash Flows, Disclosure Initiative*
The amendments to PAS 7 require an entity to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes (such as foreign exchange gains or losses). On initial application of the amendments, entities are not required to provide comparative information for preceding periods. Early application of the amendments is permitted.

Application of amendments will result in additional disclosures in the 2017 financial statements of the Bank.

- Amendments to PAS 12, *Income Taxes, Recognition of Deferred Tax Assets for Unrealized Losses*
The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

Entities are required to apply the amendments retrospectively. However, on initial application of the amendments, the change in the opening equity of the earliest comparative period may be recognized in opening retained earnings (or in another component of equity, as appropriate), without allocating the change between opening retained earnings and other components of equity. Entities applying this relief must disclose that fact. Early application of the amendments is permitted.

The Bank is assessing the impact of adopting the amendments.

Effective beginning on or after January 1, 2018

- *Amendments to PFRS 2, Share-based Payment, Classification and Measurement of Share-based Payment Transactions*

The amendments to PFRS 2 address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a share-based payment transaction with net settlement features for withholding tax obligations; and the accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash settled to equity settled.

On adoption, entities are required to apply the amendments without restating prior periods, but retrospective application is permitted if elected for all three amendments and if other criteria are met. Early application of the amendments is permitted.

The amendments are not applicable to the Bank since it does not have share-based payment transactions.

- *Amendments to PFRS 4, Insurance Contracts, Applying PFRS 9, Financial Instruments, with PFRS 4*

The amendments address concerns arising from implementing PFRS 9, the new financial instruments standard before implementing the forthcoming insurance contracts standard. They allow entities to choose between the overlay approach and the deferral approach to deal with the transitional challenges. The overlay approach gives all entities that issue insurance contracts the option to recognize in other comprehensive income, rather than profit or loss, the volatility that could arise when PFRS 9 is applied before the new insurance contracts standard is issued. On the other hand, the deferral approach gives entities whose activities are predominantly connected with insurance an optional temporary exemption from applying PFRS 9 until the earlier of application of the forthcoming insurance contracts standard or January 1, 2021.

The overlay approach and the deferral approach will only be available to an entity if it has not previously applied PFRS 9.

The amendments are not applicable to the Bank since it does not have activities that are predominantly connected with insurance or issue insurance contracts.

- *PFRS 15, Revenue from Contracts with Customers*

PFRS 15 establishes a new five-step model that will apply to revenue arising from contracts with customers. Under PFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in PFRS 15 provide a more structured approach to measuring and recognizing revenue.

The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under PFRSs. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018.

The Bank does not anticipate early adopting PFRS 15 and is currently assessing its impact.

- *PFRS 9, Financial Instruments*

PFRS 9 reflects all phases of the financial instruments project and replaces PAS 39, *Financial Instruments: Recognition and Measurement*, and all previous versions of PFRS 9. The

standard introduces new requirements for classification and measurement, impairment, and hedge accounting. PFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. Retrospective application is required, but providing comparative information is not compulsory. For hedge accounting, the requirements are generally applied prospectively, with some limited exceptions.

The adoption of PFRS 9 will have an effect on the classification and measurement of the Bank's financial assets and impairment methodology for financial assets, but will have no impact on the classification and measurement of the Bank's financial liabilities. The adoption will also have an effect on the Bank's credit losses. The Bank does not anticipate early adopting PFRS 9 and is currently assessing its impact.

- Amendments to PAS 28, *Measuring an Associate or Joint Venture at Fair Value* (Part of *Annual Improvements to PFRSs 2014 - 2016 Cycle*)

The amendments clarify that an entity that is a venture capital organization, or other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and joint ventures at fair value through profit or loss. They also clarify that if an entity that is not itself an investment entity has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture, at the later of the date on which (a) the investment entity associate or joint venture is initially recognized; (b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent. The amendments should be applied retrospectively, with earlier application permitted.

- Amendments to PAS 40, *Investment Property, Transfers of Investment Property*
The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use. The amendments should be applied prospectively to changes in use that occur on or after the beginning of the annual reporting period in which the entity first applies the amendments. Retrospective application is only permitted if this is possible without the use of hindsight.
- Philippine Interpretation IFRIC-22, *Foreign Currency Transactions and Advance Consideration*

The interpretation clarifies that in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognizes the nonmonetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine a date of the transactions for each payment or receipt of advance consideration. The interpretation may be applied on a fully retrospective basis. Entities may apply the interpretation prospectively to all assets, expenses and income in its scope that are initially recognized on or after the beginning of the reporting period in which the entity first applies the interpretation or the beginning of a prior reporting period presented as comparative information in the financial statements of the reporting period in which the entity first applies the interpretation.

Effective beginning on or after January 1, 2019

- **PFRS 16, *Leases***

Under the new standard, lessees will no longer classify their leases as either operating or finance leases in accordance with PAS 17, *Leases*. Rather, lessees will apply the single-asset model. Under this model, lessees will recognize the assets and related liabilities for most leases on their balance sheets, and subsequently, will depreciate the lease assets and recognize interest on the lease liabilities in their profit or loss. Leases with a term of 12 months or less or for which the underlying asset is of low value are exempted from these requirements.

The accounting by lessors is substantially unchanged as the new standard carries forward the principles of lessor accounting under PAS 17. Lessors, however, will be required to disclose more information in their financial statements, particularly on the risk exposure to residual value.

Entities may early adopt PFRS 16 but only if they have also adopted PFRS 15. When adopting PFRS 16, an entity is permitted to use either a full retrospective or a modified retrospective approach, with options to use certain transition reliefs.

The Bank is currently assessing the impact of adopting PFRS 16.

Deferred effectivity

- **Amendments to PFRS 10 and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture***

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3, *Business Combinations*. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial Reporting Standards Council postponed the original effective date of January 1, 2016 of the said amendments until the International Accounting Standards Board has completed its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

3. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the financial statements in accordance with PFRS requires the management to make judgments, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the accompanying disclosures, as well as the disclosure of contingent assets and contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets and liabilities affected in future periods. The effects of any change in judgments, estimates and assumptions are reflected in the financial statements as they become reasonably determinable.

Judgments, estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Judgments

In the process of applying the Bank's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the financial statements:

(a) *Fair value of financial instruments*

When the fair values of financial assets and financial liabilities recorded in the statement of condition cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility for longer-dated derivatives and discount rates, prepayments and default rates assumptions. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

The fair values of the Bank's financial instruments are disclosed in Note 4.

(b) *Classification of HTM investments*

The classification to HTM investment requires significant judgment. In making this judgment, the Bank evaluates its intention and ability to hold such investments to maturity. If the Bank fails to keep these investments to maturity other than in certain specific circumstances - for example, selling an insignificant amount close to maturity - it will be required to reclassify the entire portfolio to AFS investments. The investments would therefore be measured at fair value and not at amortized cost.

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the statement of condition date, which have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next period, are described below. The Bank based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances beyond the control of the Bank. Such changes are reflected in the assumptions when they occur.

(a) *Credit losses on loans and receivables*

The Bank reviews its loans and receivables at each statement of condition date to assess whether an impairment loss should be recorded in the statement of income. In particular, judgment made by management is required in the estimation of the amount and timing of future cash flows when determining the level of allowance required. Such estimates are based on assumptions about a number of factors including the assessment of the financial condition of the counterparty, and estimated net selling prices of collateral, and actual results may differ, at which event, the Bank adjusts the impairment loss and ensures that allowance for it remains adequate (Note 5).

In addition to specific allowance against individually significant loans and receivables, the Bank also provides a collective impairment allowance against exposures which, although not specifically identified as requiring a specific allowance, have a greater risk of default than when originally granted. This collective allowance is based on changes in factors that are indicative of incurred losses, such as deterioration in payment status and underlying property prices, among others.

The carrying value of loans and receivables and allowance for credit losses on loans and receivables are disclosed in Notes 9 and 15, respectively.

(b) Impairment of non-financial assets

Investment properties and chattel mortgage properties

The Bank assesses impairment on its non-financial assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the Bank considers important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- significant negative industry or economic trends.

The Bank recognizes an impairment loss whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is computed using the fair value less costs to sell for property and equipment, investment properties and chattel mortgage properties. Recoverable amounts are estimated for individual assets or, if it is not possible, for the CGU to which the asset belongs.

The carrying values of the Bank's property and equipment, investment properties and chattel mortgage properties are disclosed in Notes 11, 12 and 14, respectively.

Investment in a joint venture

The Bank assesses impairment on its investment in a joint venture whenever events or changes in circumstances indicate that the carrying amount of said asset may not be recoverable. Among others, the factors that the Bank considers important which could trigger an impairment review on its investment in a joint venture include the following:

- deteriorating or poor financial condition;
- recurring net losses; and
- significant changes (i.e., technological, market, economic, or legal environment in which the joint venture operates with an adverse effect on the joint venture have taken place during the period, or will take place in the near future).

An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is determined based on the asset's value in use. As of December 31, 2016 and 2015, the carrying values of the Bank's investment in a joint venture amounted to ₱727.2 million and ₱690.3 million, respectively (Note 10).

(c) *Present value of retirement obligation*

The cost of defined benefit pension plans as well as the present value of the pension obligation are determined using actuarial valuations. The actuarial valuation involves making various assumptions. These include the determination of the discount rates, future salary increases, and future pension increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, defined benefit obligations are highly sensitive to changes in these assumptions. All assumptions are reviewed at each statement of condition date.

In determining the appropriate discount rate, management considers the interest rates of Philippine government bonds that are denominated in the currency in which the benefits will be paid, with extrapolated maturities corresponding to the expected duration of the defined benefit obligation.

The details of assumptions used in the actuarial valuation are disclosed in Note 24.

As of December 31, 2016 and 2015 the net pension liability of the Bank amounted to ₱748.8 million and ₱799.8 million, respectively (Note 24).

(d) *Recognition of deferred tax assets*

Deferred tax assets are recognized for all unused tax losses to the extent that it is probable that future taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of future taxable profits together with future tax planning strategies and future market or economic conditions.

Estimates of future taxable income indicate that temporary differences will be realized in the future. Net deferred tax assets as of December 31, 2016 and 2015 amounted to ₱1.3 billion and ₱1.2 billion, respectively (Note 27).

(e) *Contingent liabilities*

The Bank is a defendant in legal actions arising from its normal business activities. Management believes that the ultimate liability, if any, resulting from these cases will not have a material effect on the Bank's financial statements (Note 31).

4. Fair Value Measurement

Financial Instruments

The following describes the methodologies and assumptions used to determine the fair values of financial instruments:

Cash and other cash items, due from BSP, due from other banks, interbank loans receivable and SPURA, accounts receivable, accrued interest receivable, bills purchased, RCOI, shortages, and petty cash fund - Carrying amounts approximate fair values due to the relatively short-term maturities of these assets.

Debt investments - Fair values are generally based on quoted market prices. If the market prices are not readily available, fair values are estimated using either values obtained from independent parties offering pricing services, or adjusted quoted market prices of comparable investments or using the discounted cash flow methodology, using rates currently available for debt on similar terms, credit risk and remaining maturities.

Quoted AFS equity investments - Fair values are based on quoted prices published in markets.

Unquoted AFS equity investments - Fair values could not be reliably determined due to the unpredictable nature of future cash flows and the lack of suitable methods of arriving at a reliable fair value. Hence, these investments are carried at cost less allowance for impairment losses.

Currently, there is no available market to sell these unquoted AFS equity investments. The Bank will hold onto these investments until management decides to sell them when there will be offers to buy out such investments or the appearance of an available market where the investments can be sold.

Derivative instruments (included under FVPL) - Fair values are estimated based on quoted market prices provided by independent parties or derived using acceptable valuation models. The models utilize published underlying rates (e.g., foreign exchange (FX) rates and forward FX rates).

Receivable from customers, sales contract receivables and security deposits - Fair values are estimated using the discounted cash flow methodology, using the Bank's current lending rates for similar types of loans.

Demand deposits, savings deposits, bills payable, treasurer's, cashier's and manager's checks, accrued interest payable, accounts payable, bills purchased-contra, other credits, due to the Treasurer of the Philippines, deposits for keys-SDB, payment orders payable and overages - Carrying amounts approximate fair values due to either the demand nature or the relatively short-term maturities of these liabilities.

Subordinated notes and time deposits - Fair values are estimated using the discounted cash flow methodology using the Bank's borrowing rates for similar borrowings with maturities consistent with those remaining for the liability being valued.

The inputs used in the fair value measurement based on Level 2 are as follows:

Derivative assets and liabilities – fair values are calculated by reference to the prevailing spot exchange rate as of statement of condition date.

Government securities – interpolated rates based on market rates of benchmark securities as of statement of condition date.

Inputs used in estimating fair values of financial instruments carried at amortized cost and categorized under Level 3 include risk-free rates and applicable risk premium.

Non-financial Asset

Investment properties-Fair values of the investment properties have been determined based on valuations performed by independent external and in-house appraisers using valuation technique with significant inputs that are not based on observable market data (Level 3). The valuation of investment properties was based on the Sales Comparison Approach and considered recent sales of similar or substitute properties in the same areas where the investment properties are located, taking into account the economic conditions prevailing at the time of the valuation. Other factors considered were the location and shape of the properties, environmental issues, development controls such as the height restriction, building coverage and floor area ratio restrictions among others. Other significant unobservable inputs include shape, location, time element, discount and corner influence. The fair value of investment properties is based on its highest and best use, which is its current use.

The following tables summarize the carrying amount and fair values of the Bank's financial instruments and investment properties, analyzed based on the hierarchy described in Note 2 (in thousands):

December 31, 2016					
	Carrying Value	Level 1	Level 2	Level 3	Total Fair Value
Assets measured at fair value:					
Financial Assets

	P104,505,806	P–	P–	P105,895,058	P105,895,058

As of December 31, 2016 and 2015, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

As of December 31, 2016 and 2015, the Bank determined the market value of its warrants to be zero due to the absence of an active market for the Bank's ROP warrants, as evidenced by the unavailability of quoted market prices.

5. Financial Risk Management Policies and Objectives

The Bank has exposure to the following risks from its use of financial instruments:

- Credit risk
- Market risk
- Liquidity risk

Organization risk management structure continues to be a top-down organization, with the BOD at the helm of all major initiatives.

Discussed below are the relevant sections on roles and responsibilities from the Risk Oversight Committee (ROC) Charter:

BOD

The corporate powers of the Bank are vested in and are exercised by the BOD, who conducts its business and controls its property. The BOD approves broad risk management strategies and policies and ensures that risk management initiatives and activities are consistent with the Bank's overall objectives. The BOD appoints the members of the ROC.

ROC

The ROC is composed of at least three members of the Board, including at least one (1) independent director, and a chairperson who is a non-executive member. Members of the ROC possess a range of expertise and adequate knowledge of the Bank's risk exposures to be able to develop appropriate strategies for preventing losses and minimizing the impact of losses when they occur.

The BOD may also appoint non-directors to the ROC as part of the Metrobank Group risk oversight measures. However, only Bank directors shall be considered as voting members of the ROC. Non-voting members are appointed in an advisory capacity.

The ROC oversees the system of limits to discretionary authority that the BOD delegates to the management and ensures that the system remains effective, the limits are observed, and that immediate corrective actions are taken whenever limits are breached.

The ROC meets on a monthly basis and is supported by the Risk Management Office (RMO). In the absence of the ROC Chairman, a non-executive director shall preside. ROC resolutions, which require the concurrence of the majority of its voting members, are presented to the BOD for confirmation.

RMO

The RMO, headed by the Chief Risk Officer, is a function that is independent from executive functions and business line responsibilities, operations and revenue-generating functions. It reports directly to the BOD, through the ROC. The RMO assists the ROC in carrying out its responsibilities by:

- analyzing, communicating, implementing, and maintaining the risk management policies approved by the ROC and the BOD;
- spearheading the regular review of the Bank's risk management policy manual and making or elevating recommendations that enhance the risk management process to the ROC and the BOD, for their approval; and
- ensuring that the risks arising from the Bank's activities are identified, measured, analyzed, reported to and understood by risk takers, management, and the board. The RMO analyzes limit exceptions and recommends enhancements to the limits structure.

The RMO does not assume risk-taking accountability nor does it have approving authority. The RMO's role is to act as liaison and to provide support to the BOD, ROC, the President, management committees, risk takers and other support and control functions on risk-related matters.

The Risk Management Function is responsible for:

- identifying the key risk exposures and assessing and measuring the extent of risk exposures of the Bank and its trust operations;
- monitoring the risk exposures and determining the corresponding capital requirement in accordance with the Basel capital adequacy framework and based on the Bank's internal capital adequacy assessment on an on-going basis;
- monitoring and assessing decisions to accept particular risks whether these are consistent with BOD-approved policies on risk tolerance and the effectiveness of the corresponding risk mitigation measures; and
- reporting on a regular basis to Senior Management and the BOD the results of assessment and monitoring.

President

The President is the Chief Executive Officer of the Bank and has the primary responsibility of carrying out the policies and objectives of the BOD. The President exercises the authorities delegated to him by the BOD and may recommend such policies and objectives he deems necessary for the continuing progress of the Bank.

Risk management

The risk management framework aims to maintain a balance between the nature of the Bank's businesses and the risk appetite of the BOD. Accordingly, policies and procedures are reviewed regularly and revised as the organization grows and as financial markets evolve. New policies or proposed changes in current policies are presented to the ROC and the BOD for approval.

a. Credit risk and concentration of assets and liabilities and off-balance sheet items

Credit risk is the risk that a counterparty will not settle its obligations in accordance with the agreed terms.

The Bank's lending business follows credit policy guidelines set by the BOD, ROC and RMO. These policies serve as minimum standards for extending credit. The people engaged in the credit process are required to understand and adhere to these policies.

Product manuals are in place for all loans and deposit products that actually or potentially expose the Bank to all types of risks that may result in financial or reputational losses. They define the product and the risks associated with the product plus the corresponding risk-mitigating controls. They embody the business plans and define the business parameters within which the product or activity is to be performed.

The system of checks around extension of credit includes approval by at least two credit approvers through the Credit Committee (CreCom), Executive Committee (ExCom) or BOD. The ROC reviews the business strategies and ensures that revenue-generating activities are consistent with the risk tolerance and standards of the Bank. The Internal Audit Group conducts regular audit across all functional units. The BOD, through the ExCom, CreCom and ROC, ensure that sound credit policies and practices are followed through all the business segments.

Credit Approval

Credit approval is the documented acceptance of credit risk in the credit proposal or application.

The Bank's credit decision-making for consumer loans utilizes the recommendation of the credit scoring and is performed at the CreCom level appropriate to the size and risk of each transaction, in conformity with corporate policies and procedures in regulating credit risk activities. The Bank's ExCom may approve deviations or exceptions, while the BOD approves material exceptions such as large exposures, loans to directors, officers, stockholders and other related interests (DOSRI), and loan restructuring.

Credit delegation limits are identified, tracked and reviewed at least annually by the Bank's Head of Credit and Collections together with the Credit Risk Manager.

Borrower Eligibility

The Bank's credit processing commences when a customer expresses his intention to borrow through a credit application. The Bank gathers data on the customer; ensures they are accurate, up-to-date and adequate to meet the minimum regulatory requirements and to render credit decision. These data are used for the intended purpose only and are managed in adherence to the customer information secrecy law.

The customer's credit worthiness, repayment ability and cash flow are established before credit is extended. The Bank independently verifies critical data from the customer, ensuring compliance with Know Your Customer requirements under the anti-money laundering laws. The Bank

requires that customer income be derived from legitimate sources and supported with government-accepted statements of income, assets and liabilities.

The Bank ascertains whether the customer is legally capable of entering a credit contract and of providing a charge over any asset presented as collateral for a loan. Guarantors or sureties may be accepted, provided they are a relative, partner, and have financial interest in the transaction, and they pass all credit acceptance criteria applied to the borrower.

Loan Structure

The Bank structures loans for its customers based on the customer's capability to pay, the purpose of the loan, and for a collateralized loan, the collateral's economic life and liquidation value over time.

The Bank establishes debt burden guidelines and minimum income requirements to assess the customer's capacity to pay.

The Bank utilizes credit bureau data, both external and internal, to obtain information on a customer's current commitments and credit history. These are sourced from the databases of the Banker's Association of the Philippines and the Credit Management Association of the Philippines.

The Bank takes into account environmental and social issues when reviewing credit proposals of small businesses and commercial mortgage customers. The Bank ensures that all qualified securities pass through the BOD for approval. Assignments of securities are confirmed and insurance are properly secured.

The Bank uses credit scoring models and decision systems for consumer loans as approved by the BOD. Borrower risk rating model and facility risk rating model, on the other hand, are available for SME loans, and supported with qualitative evaluation. Regular monitoring of all these tools and their performance is carried out to ensure that they remain effective.

Initial loan limits are recommended by the CreCom and ExCom and approved by the BOD. The Bank ensures that secured loans are within ceilings set by local regulators. Succeeding loan availments are based on account performance and customer's credit worthiness.

Credit Management

The Bank maintains credit records and documents on all borrowings and captures transaction details in its loan systems. The credit risk policies and system infrastructure ensure that loans are monitored and managed at all times.

The Bank's Management Information System provides statistics that its business units need to identify opportunities for improving rewards without necessarily sacrificing risk. Statistical data on product, productivity, portfolio, profitability, performance and projection are made available regularly.

The Bank conducts regular loan review through the ROC, with the support of the RMO. The Bank examines its exposures, credit risk ratios, provisions and customer segments. The Bank's unique customer identification and unique group identification methodology enables it to aggregate credit exposures by customer or group of borrowers. Aggregate exposures of at least ₱100.0 million are put on a special monitoring.

The ROC assesses the adequacy of provisions for credit losses regularly. The Bank's automated loan grading system enables the Bank to set up provision per account. The Bank also performs impairment analyses on loans and receivables, whether on an individual or collective basis, in accordance with PFRS.

The Bank carries out stress testing analyses using Board-approved statistical models relating the default trends to macroeconomic indicators.

In 2016, the Bank has completely deployed its projects to effectively implement the sound credit risk management system and practices prescribed by the Bangko Sentral ng Pilipinas (BSP) under Circular 855. These include the internal loan loss models that ensure specific and collective allowance for expected credit losses in credit portfolio are adequate.

Maximum Exposure to Credit Risk

The tables below show the analysis of the maximum exposure to credit risk of the Bank's financial instruments, excluding those where the carrying values as reflected in the statement of condition and related notes already represent the financial instrument's maximum exposure to credit risk, after taking into account collateral held or other credit enhancements (in thousands):

2016				
	Carrying Amount	Fair Value of Collateral	Maximum Exposure to Credit Risk	Financial Effect of Collateral or Credit Enhancement
Due from other banks	₱1,838,630	₱788,154	₱1,054,476	₱788,154

Total credit exposure	₱109,891,695	₱162,062,649	₱2,260,569	₱107,631,126

Collateral and Other Credit Enhancements

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented regarding acceptability of types of collateral and valuation parameters.

The main types of collaterals obtained are as follows:

- For Due from other banks: investment securities
- For SPURA: investment securities
- For commercial lending: mortgages over real estate properties, deposit accounts and securities
- For consumer lending: mortgages over real estate and chattel

Management monitors the market value of collateral, requests additional collateral in accordance with the underlying agreement, and monitors the market value of collateral obtained during its review of the adequacy of the allowance for credit and impairment losses.

It is the Bank's policy to dispose of repossessed properties in an orderly fashion and proceeds are used to repay or reduce the outstanding claim. In general, the Bank does not occupy repossessed properties for business use.

The Bank holds collateral against loans and receivables in the form of real estate and chattel mortgages, guarantees, and other registered securities over assets. Estimates of fair value are based on the value of the collateral assessed at the time of borrowing and generally are updated every two years and when a loan is assessed to be impaired, whenever applicable. Generally, collateral is not held over loans and advances to banks except for SPURA. The Bank is not allowed to sell or re-pledge collateral held under SPURA in the absence of default by the counterparty. Collateral usually is not held against holdings in investment securities, and no such collateral was held as of December 31, 2016 and 2015.

Concentration of risk is managed by borrower, by group of borrowers, by geographical region and by industry sector. As of December 31, 2016 and 2015, the maximum credit exposure to any borrower amounted to P1.9 billion, before taking into account any collateral or other credit enhancement.

The distribution of the Bank's financial assets before taking into account any collateral held or other credit enhancements can be analyzed by the following geographical regions (in thousands):

2016

Credit Quality

Description of the loan grades for loans, receivables and stand-by credit lines:

Master Loan Classifications

The Bank rates accounts on a scale of 1 to 10, with 1 being the best, based on the Board-approved loan classifications which utilize the credit scoring results, credit experience and qualitative assessments.

Neither Past Due nor Individually Impaired

The Bank classifies those accounts under current status having the following master loan classification grades:

High Grade (Master Loan Classification 1 - 4)

1 - Excellent

This is considered as normal risk by the Bank. An excellent rating is given to a borrower who has the ability to meet credit obligation in full and is never delinquent.

2 - Strong

This is also considered as normal risk by the Bank. Borrower has the ability to meet credit obligation in full, except that the borrower had history of 1-29 days delinquency at worst.

3 - Good

This rating is given to a borrower who has the ability to meet credit obligation in full, except that the borrower had history of Loan Especially Mentioned rating (rating=7) at worst.

4 - Satisfactory

This rating is given to a borrower who has the ability to meet credit obligation in full, except that the borrower had history of Substandard rating (rating=8) at worst.

Standard Grade (Master Loan Classification 5 - 7)

5 - Acceptable

An acceptable rating is given to a borrower who meets present obligations, except that the borrower had history of Doubtful rating (rating=9) at worst.

6 - Watchlist

This rating is given to a borrower who meets present obligations, except that the borrower had history of Loss rating (rating=10) at worst.

7 - Loan Especially Mentioned

This rating is given to a borrower who has potential weaknesses which when left uncorrected, may affect the repayment of the loan and thus increase credit risk to the Bank.

Substandard Grade (Master Loan Classification 8)

8 - Substandard

A substandard rating is given to a borrower whose loan or portion thereof involves a substantial and an unreasonable degree of risk to the Bank because of unfavorable record or unsatisfactory characteristics. These loans show possibility of future loss to the Bank unless given closer supervision and well-defined weaknesses that jeopardize the loan liquidation.

Unrated grade

Other credit assets which cannot be classified as High, Standard or Sub-standard are tagged as Unrated.

Past Due but Not Individually Impaired

These are accounts which are classified as delinquent but are not subject to individual impairment as of statement of condition date.

9 - Doubtful

This rating is given to a borrower whose loans have characteristics where collection and liquidation in full is highly improbable and in which substantial loss is probable.

10 - Loss

This rating is given to a borrower whose loans or portions thereof are considered uncollectible or worthless and of such little value that their continuance as bankable assets is not warranted.

Individually Impaired

Accounts which are subject to individual impairment as of statement of condition date.

The tables below show the credit quality per class of financial assets under loans and receivables (in thousands)*:

External Ratings

In ensuring quality investment portfolio, the Bank uses the credit risk rating based on the rating of Moody's Investors Service (Moody's rating) as follows:

Credit Quality					External Rating					
High grade	Aaa	Aa1	Aa2	Aa3	A1	A2	A3	Baa1	Baa2	Baa3
Standard grade	Ba1	Ba2	Ba3	B1	B2	B3				
Substandard grade	Caa1	Caa2	Caa3	Ca	C					

High grade - represents those investments which fall under any of the following grade:

Aaa - fixed income obligations are judged to be of the highest quality, with the smallest degree of risk.

Aa1, Aa2, Aa3 - fixed income are judged to be of high quality and are subject to very low credit risk, but their susceptibility to long-term risks appears somewhat greater.

A1, A2, A3 - fixed income obligations are considered upper-medium grade and are subject to low credit risk, but have elements present that suggest a susceptibility to impairment over the long term.

Baa1, Baa2, Baa3 - fixed income obligations are subject to moderate credit risk. They are considered medium grade and as such protective elements may be lacking or may be characteristically unreliable.

Standard grade - represents those investments which fall under any of the following grade:

Ba1, Ba2, Ba3 - obligations are judged to have speculative elements and are subject to substantial credit risk.

B1, B2, B3 - obligations are considered speculative and are subject to high credit risk.

Substandard grade - represents those investments which fall under any of the following grade:

Caa1, Caa2, Caa3 - are judged to be of poor standing and are subject to very high credit risk.

Ca - are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.

C - are the lowest rated class of bonds and are typically in default, with little prospect for recovery of principal or interest.

The tables below show the credit quality per class of investment securities (in thousands)*:

Impairment Assessment

Impairment losses are recognized based on the results of a specific (individual) and collective assessment of credit exposures. Impairment has taken place when there is a presence of known difficulties in the payments of obligation by counterparties, a significant credit rating downgrade takes place, infringement of the original terms of the contract has happened or when there is inability to pay principal or interest overdue beyond a threshold (e.g., 90 days). These and other factors, either individually or together with other factors, constitute observable events or data that meet the definition of objective evidence of impairment.

Individually assessed allowances

The Bank determines the allowances appropriate for each significant loan or advance on an individual basis. Items considered when determining amounts of allowances include an account's age, payment and collection history, timing of expected cash flows and realizable value of collateral.

The Bank sets criteria for specific loan impairment testing and uses the discounted cash flow methodology to compute for impairment loss. Accounts subjected to specific impairment and that are found to be impaired shall be excluded from the collective impairment computation.

Collectively assessed allowances

Allowances are assessed collectively for losses on commercial loans and advances that are not individually significant or are found to be not individually impaired. Impairment losses are estimated by taking into consideration the historical losses using a lookback period of five years on the portfolio and the expected receipts and recoveries once impaired. The Bank is responsible for deciding the length of historical loss period which can extend for as long as five years. The impairment allowance is then reviewed by the Bank to ensure alignment with the Bank's overall policy.

The Bank uses the Net Flow Rate method to determine the credit loss rate of a particular delinquency age bucket based on historical data of flow-through and flow-back of loans across specific delinquency age buckets. The method applies to consumer loans, as well as salary and home equity loans granted to employees of the Bank. For commercial loans, the Bank uses Historical Loss Rate method in determining the credit loss rate based on the actual historical loss experienced by the Bank on each specific industry type.

Aging Analysis of Past Due but not Individually Impaired Loans per Class of Financial Assets

The succeeding tables show the total aggregate amount of gross past due but not individually impaired loans and receivables per delinquency bucket. Under PFRS, a financial asset is past due when the counterparty has failed to make a payment when contractually due (in thousands)*:

2016						
	Past Due but not Individually Impaired					Total

b. Market risk

Market risk management covers the areas of trading and interest rate risks. The Bank utilizes various measurement and monitoring tools to ensure that risk-taking activities are managed within instituted market risk parameters. The Bank revalues its trading portfolios on a daily basis and checks the revenue or loss generated by each portfolio in relation to their level of market risk. The Bank's risk policies and implementing guidelines are regularly reviewed by the Assets and Liabilities Committee (ALCO), ROC and BOD to ensure that these are up-to-date and in line with changes in the economy, environment and regulations. The ROC and the BOD set the comprehensive market risk limit structure and define the parameters of market activities that the Bank can engage in.

Market risk is the risk to earnings and capital arising from changes in the value of traded portfolios of financial instruments (trading market risk) and from movements in interest rates (interest rate risk). The Bank's market risk originates primarily from holding peso and dollar-denominated debt securities. The Bank utilizes Value-at-Risk (VaR) to measure and manage market risk exposure. VaR estimates the potential decline in the value of a portfolio, under normal market conditions, for a given confidence level over a specified holding period.

Trading activities

The Bank's trading portfolios are currently composed of peso and dollar-denominated sovereign debt securities that are marked-to-market daily. The Bank also uses VaR to measure the extent of market risk exposure arising from these portfolios.

VaR is a statistical measure that calculates the maximum potential loss from a portfolio over a holding period, within a given confidence level. The Bank's current VaR model uses historical simulation for Peso and USD HFT portfolios with confidence level at 99.00% and a 1 day holding period. It utilizes a 260 days rolling data most recently observed daily percentage changes in price for each asset class in its portfolio.

VaR reports are prepared on a daily basis and submitted to Treasury and RMO. VaR is also reported to the ROC and BOD on a monthly basis. The President, ROC and BOD are advised of potential losses that exceed prudent levels or limits.

When there is a breach in VaR limits, Treasury is expected to close or reduce their position and bring it down within the limit unless approval from the President is obtained to retain the same. All breaches are reported to the President for regularization. In addition to the regularization and approval of the President, breaches in VaR limits and special approvals are likewise reported to the ROC and BOD for their information and confirmation.

Back-testing is employed to verify the effectiveness of the VaR model. The Bank performs back-testing to validate the VaR model and stress testing to determine the impact of extreme market movements on the portfolios. Results of backtesting are reported to the ROC and BOD on a monthly basis. Stress testing is also conducted, based on historical maximum percentage daily movement and on an ad-hoc rate shock to estimate potential losses in a crisis situation.

The Bank has established limits, VaR, stop loss limits and loss triggers, for its trading portfolios. Daily profit or losses of the trading portfolios are closely monitored against loss triggers and stop-loss limits.

Responsibility for managing the Bank's trading market risk remains with the ROC. With the support of RMO, the ROC recommends to the BOD changes in market risk limits, approving authorities and other activities that need special consideration.

Discussed below are the limitations and assumptions applied by the Bank on its VaR methodology:

- VaR is a statistical estimate and thus, does not give the precise amount of loss;
- VaR is not designed to give the probability of bank failure, but only attempts to quantify losses that may arise from a bank's exposure to market risk;
- Historical simulation does not involve any distributional assumptions, scenarios that are used in computing VaR are limited to those that occurred in the historical sample; and
- VaR systems are backward-looking. It attempts to forecast likely future losses using past data. As such, this assumes that past relationships will continue to hold in the future. Major shifts therefore (i.e., an unexpected collapse of the market) are not captured and may inflict losses much bigger than anything the VaR model may have calculated.

The Bank's interest rate VaR follows (in thousands):

	December 31, 2016 ¹			December 31, 2015	
	Peso	USD		Peso	USD
Year-end	4	9,817	Year-end	18,866	6,705
Average	15,643	8,912	Average	12,755	3,605
High	45,741	24,889	High	56,331	12,519
Low	3	—	Low	1,331	152

¹Using METRISK Historical Simulation VaR

Non-trading activities

Interest Rate Risk

The Bank follows a prudent policy on managing its assets and liabilities to ensure that fluctuations in interest rates are kept within acceptable limits.

One method by which the Bank measures the sensitivity of its assets and liabilities to interest rate fluctuations is by way of "gap" analysis. This analysis provides the Bank with a static view of the maturity and repricing characteristics of the positions in its statement of condition. An interest rate gap report is prepared by classifying all assets and liabilities into various time period categories according to contracted maturities or anticipated repricing dates, whichever is earlier. Non-maturing deposits are considered as non-interest rate sensitive liabilities; no loan pre-payments assumptions are used. The difference in the amount of assets and liabilities maturing or being repriced in any time period category would then give the Bank an indication of the extent to which it is exposed to the risk of potential changes in net interest income.

The interest rate sensitivity gap report measures interest rate risk by identifying gaps between the repricing dates of assets and liabilities. The Bank's sensitivity gap model calculates the effect of possible rate movements on its interest rate profile.

The Bank uses sensitivity gap model to estimate Earnings-at-Risk (EaR) should interest rates move against its interest rate profile. The Bank's EaR limits are based on a percentage of the Bank's projected earnings for the year and capital. The Bank also performs stress-testing to measure the impact of various scenarios based on interest rate volatility and shift in the yield curve. The EAR and stress testing reports are prepared on a monthly basis.

The ALCO is responsible for managing the Bank's structural interest rate exposure. The ALCO's goal is to achieve a desired overall interest rate profile while remaining flexible to interest rate movements and changes in economic conditions. The RMO and ROC review and oversee the Bank's interest rate risks.

The tables below demonstrate the sensitivity of net interest income and equity to reasonably possible changes in interest rates. Net interest income sensitivity was calculated by assuming interest rate shifts upon repricing of floating-rate financial instruments. Equity sensitivity was computed by calculating mark-to-market changes of AFS debt instruments, assuming a parallel shift in the yield curve.

2016						
Change in basis points	Sensitivity of net interest income	Sensitivity of Equity				Total
		0 up to 6 months	Over 6 months to 1 year	Over 1 year to 5 years	More than 5 years	
(Amounts in Pesos)

USD	-10	9,200,930	–	–	3,101,381	56,620,467

The impact on the Bank's equity excludes the impact on transactions affecting the statement of income.

Foreign Currency Risk

Foreign currency risk is the risk of an investment's value changing due to an adverse movement in currency exchange rates. It arises due to a mismatch in the Bank's foreign currency assets and liabilities.

The Bank's policy is to maintain foreign currency exposure within the approved position, stop loss, loss trigger, VaR limits and to remain within existing regulatory guidelines. To compute for VaR, the Bank uses historical simulation model for USD/PHP FX position, with confidence level at 99.00% and a 1 day holding period. The Bank's VaR for its foreign exchange position for trading and non-trading activities are as follows (in thousands):

	2016 ¹	2015 ¹
As of year-end	₱176	₱632
Average	752	532
High	1,249	1,908
Low	18	.98

¹Using METRISK Historical Simulation VaR

The table below summarizes the Bank's exposure to foreign exchange risk as of December 31, 2016 and 2015. Included in the table are the Bank's assets and liabilities at carrying amounts (in thousands):

	2016	2015
Assets		
Cash	\$82	\$90
Due from other banks	1,728	220
FVPL investments	10	—
AFS investments	56,160	—
Other assets	—	92
Total assets	57,980	402
Liabilities		
Deposit liabilities		
Savings	62	38
Time	52	46
Financial liabilities at FVPL	1,314	—
Other liabilities	11	300
Total liabilities	1,439	384
Net exposure	\$56,541	\$18

c. Liquidity Risk

The Bank's policy on liquidity management emphasizes on three elements of liquidity, namely, cashflow management, ability to borrow in the interbank market, and maintenance of a stock of high quality liquid assets. These three approaches complement one another with greater weight being given to a particular approach, depending upon the circumstances. The Bank's objective in liquidity management is to ensure that the Bank has sufficient liquidity to meet obligations under normal and adverse circumstances and is able to take advantage of lending and investment opportunities as they arise.

The main tool that the Bank uses for monitoring its liquidity is the Maximum Cumulative Outflow (MCO) reports, which is also called liquidity gap or maturity matching gap reports. The MCO is a useful tool in measuring and analyzing the Bank's cash flow projections and monitoring liquidity risks. The liquidity gap report shows the projected cash flows of assets and liabilities representing estimated funding sources and requirements under normal conditions, which also forms the basis for the Bank's Contingency Funding Plan (CFP). The CFP projects the Bank's funding position during both temporary and long-term liquidity changes to help evaluate the Bank's funding needs and strategies under changing market conditions.

The Bank discourages dependence on Large Funds Providers (LFPs) and monitors the deposit funding concentrations so that it will not be vulnerable to a substantial drop in deposit level should there be an outflow of large deposits. ALCO is responsible for managing the liquidity of the Bank while RMO and ROC review and oversee the Bank's overall liquidity risk management.

To mitigate potential liquidity problems caused by unexpected withdrawals of significant deposits, the Bank takes steps to cultivate good business relationships with clients and financial institutions, maintains high level of liquid assets, monitors the deposit funding concentrations and regularly updates the Liquidity Contingency Funding Plan.

Financial assets

Analysis of equity and debt securities at FVPL and AFS investments into maturity groupings is based on the expected date on which these assets will be realized. For other assets, the analysis into maturity grouping is based on the remaining period from the end of the reporting period to the contractual maturity date or if earlier, the expected date the assets will be realized.

Financial liabilities

The maturity grouping is based on the remaining period from the end of the reporting period to the contractual maturity date and does not consider the behavioral pattern of the creditors. When the counterparty has a choice of when the amount is paid, the liability is allocated to the earliest period in which the Bank can be required to pay.

Analysis of Financial Assets and Liabilities by Remaining Maturities

The tables below show the maturity profile of the Bank's financial assets and liabilities based on contractual undiscounted repayment obligations (in millions):

6. Segment Information

The Bank's operating segments are organized and managed separately according to the nature of services provided and the different markets served, with each segment representing a strategic business unit that offers different products and serves different markets. The Bank's reportable segments are as follows:

- Consumer Banking - principally provides consumer-type loans generated by the Home Office;
- Corporate Banking - principally handles loans and other credit facilities for small and medium enterprises, corporate and institutional customers acquired in the Home Office;
- Branch Banking - serves as the Bank's main customer touch point which offers consumer and corporate banking products; and
- Treasury - principally handles institutional deposit accounts, providing money market, trading and treasury services, as well as managing the Bank's funding operations by use of government securities and placements and acceptances with other banks.

These segments are the bases on which the Bank reports its primary segment information. The Bank evaluates performance on the basis of information about the components of the Bank that senior management uses to make decisions about operating matters. There are no other operating segments than those identified by the Bank as reportable segments. There were no inter-segment revenues and expenses included in the financial information. The Bank has no single customer with revenues from which is 10.00% or more of the Bank's total revenue.

The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies. Primary segment information (by business segment) for the years ended December 31, 2016, 2015 and 2014 follows (in thousands):

7. Interbank Loans Receivable and Securities Purchased Under Resale Agreements

This account consists of the following:

	2016	2015
SPURA	P3,254,311,599	P2,500,000,000
Interbank loans receivable	–	13,904,112
	P3,254,311,599	P2,513,904,112

SPURA are lending to counterparties collateralized by government securities ranging from one to 28 days. As of December 31, 2016 and 2015, fair value of government securities held as collateral amounted to P4.7 billion and P3.0 billion, respectively. The Bank is not permitted to sell or repledge the related collateral in the absence of default by the counterparty.

SPURA of the Bank bear annual interest rates ranging from 3.00% to 4.00% in 2016 and 4.00% in 2015, while peso-denominated interbank loans of the Bank bear annual interest rate of 3.00% and 2.50% in 2016 and 2015, respectively. Foreign currency-denominated interbank loans bear annual interest rates ranging from 1.75% to 2.00% in 2015. The Bank has no foreign currency-denominated interbank loans in 2016.

As of December 31, 2015, the outstanding balance of interbank loans receivable represents cash margin for securities sold under repurchase agreement.

Interest income on SPURA and interbank loans receivable are as follows:

	2016	2015	2014
SPURA	P56,735,116	P162,099,556	P820,835,049
Interbank loans receivable	4,795,139	28,714,798	38,147,079
	P61,530,255	P190,814,354	P858,982,128

8. Investment Securities

Fair Value Through Profit or Loss

FVPL consist of the following:

	2016	2015
HFT securities	P1,360,292,936	P2,821,437,211
Derivatives	499,211	–
	P1,360,792,147	P2,821,437,211

As of December 31, 2016 and 2015, the Bank has outstanding ROP paired warrants amounting to \$1.9 million which give the Bank the option or right to exchange its holdings of ROP Global Bonds (Paired Bonds) into peso-denominated government securities upon occurrence of a pre-determined credit event. Paired Bonds shall be risk weighted at 0.00%, provided that the 0.00% risk weight shall be applied only to the Bank's holdings of Paired Bonds equivalent to not more than 50.00% of the total qualifying capital. Further, the Bank's holdings of said warrants, booked in the FVPL category, are likewise exempted from capital charge for market risk as long as said instruments are paired with ROP Global Bonds up to a maximum of 50.00% of the total qualifying capital. As of December 31, 2016 and 2015, the Bank determined the market value of its warrants to be zero due to the absence of an active market.

On August 19, 2009, the BSP approved the Bank's application for Type 3 Limited User Authority for plain vanilla foreign exchange (FX) forwards, which is limited to outright buying or selling of FX forwards at a specific price and date in the future and do not include non-deliverable forwards.

In 2016, the Bank entered into foreign currency swaps and forwards. As of December 31, 2016, foreign currency swaps with positive and negative fair value amounted to ₱0.5 million and ₱65.3 million, respectively. As of December 31, 2016, the aggregate notional amounts of the outstanding foreign currency swaps amounted to \$64.1 million.

Net movements in fair value changes of derivative instruments are as follows:

	2016
Fair value changes during the year	₱300,386,787
Settled transactions	(235,569,320)
Balance at end of year	₱64,817,467

Available-for-Sale Investments

AFS investments consist of the following:

	2016	2015
Debt securities		
Government (Notes 29 and 30)	₱8,462,431,246	₱4,472,649,565
Private	4,645,668,747	4,449,702,326

Quoted	5,952,987	4,550,722
Unquoted	3,948,543	3,948,543
	13,118,001,523	8,930,851,156
Less allowance for impairment losses (Note 15)	2,188,665	2,188,665
	₱13,115,812,858	₱8,928,662,491

Movements in the net unrealized gain (loss) on AFS investments follow:

	2016	2015
Balance at beginning of year	₱179,775	₱26,600,463
Gain from sale of AFS investments		
realized in profit or loss	(456,628,139)	(36,343,321)
Changes in fair values of AFS investments	(386,460,000)	9,922,633
	(843,088,139)	(26,420,688)
Balance at end of year	(₱842,908,364)	₱179,775

In 2014, the Bank sold its unquoted equity securities amounting to ₱43.8 million. The Bank realized net trading gain amounting to ₱191.9 million from the sale.

As of December 31, 2016 and 2015, included in AFS investments are National Food Authority bonds pledged by the Bank to MBTC to secure its payroll account with MBTC with total carrying value of ₱51.8 million and ₱52.2 million, respectively (Note 29).

As of December 31, 2016 and 2015, the Bank deposited AFS investments in the form of government bonds with total carrying value of ₱49.7 million and ₱39.7 million in compliance with trust regulations, respectively (Note 30).

As of December 31, 2015, the carrying value of AFS investments in the form of government bonds pledged as collateral for its bills payable amounted to P667.0 million (Note 17).

Held-to-Maturity Investments

HTM investments consist of the following:

	2016	2015
Debt securities		
Government	P20,046,354,933	P12,088,362,455
Private	3,110,531,696	2,858,306,002
	P23,156,886,629	P14,946,668,457

As of December 31, 2016 and 2015, the carrying value of HTM Investments in the form of government bonds pledged by the Bank as collateral for bills payable amounted to P4.7 billion and P1.8 billion, respectively (Note 17).

Interest income on investment securities consists of:

	2016	2015	2014
HTM investments	P776,516,116	P375,698,086	P48,693,812
AFS investments	486,761,874	266,464,510	301,938,725
FVPL investments	84,671,137	85,605,995	13,330,603
	P1,347,949,127	P727,768,591	P363,963,140

Peso-denominated AFS investments bear nominal annual interest rates ranging from 2.13% to 8.13% in 2016 and 1.63% to 9.13% in 2015 and 2014 while foreign currency-denominated AFS investments bear nominal annual interest rates ranging from 1.63% to 10.63% in 2016, 2.50% to 10.63% in 2015, and 3.88% to 9.38% in 2014. Effective interest rates on AFS investments as of December 31, 2016, 2015, and 2014 range from 1.58% to 8.14%, 2.20% to 6.75%, and 1.22% to 3.14%, respectively.

On the other hand, peso-denominated HTM investments bear effective interest rates ranging from 3.44% to 4.77% in 2016 and 2015 and 3.89% to 4.73% in 2014, while foreign currency-denominated HTM investments bear effective interest rates ranging from 2.75% to 4.78%, 3.15% to 4.09%, 4.16% to 5.47% in 2016, 2015 and 2014, respectively.

Interest income accreted on impaired loans and receivables classified under real estate loans and commercial loans amounted to ₱71.7 million, ₱92.1 million and ₱83.5 million in 2016, 2015 and 2014, respectively.

Interest income from restructured loans amounted to P34.4 million, P54.7 million and P51.6 million in 2016, 2015 and 2014, respectively.

BSP Reporting

The breakdown of loans and receivables from customers (gross of unearned discounts and allowance for credit losses, excluding Bills Purchased) as to secured and unsecured and as to type of security follows:

	2016	%	2015	%
Secured by:				
Chattel	P70,110,905,877	54.24	P60,270,969,989	51.87
Real estate	29,237,515,082	22.62	29,331,718,876	25.25
Deposit hold-out	412,128,144	0.32	407,292,132	0.35
Others	9,526	0.00	362,924,198	0.31
	99,760,558,629	77.18	90,372,905,195	77.78
Unsecured	29,445,329,320	22.82	25,810,263,183	22.22
	P129,205,887,949	100.00	P116,183,168,378	100.00

Details of NPLs follow:

	2016	2015
Secured	P3,367,352,853	P3,473,247,122
Unsecured	1,163,757,704	924,325,979
	P4,531,110,557	P4,397,573,101

Generally, NPLs refer to loans and receivables whose principal and/or interest is unpaid for thirty (30) days or more after due date if payable in lumpsum or after they have become past due in accordance with the following schedule, in which case, the total outstanding balance thereof shall be considered nonperforming:

Mode of Payment	Number of Installments in arrears
Monthly	Three (3)
Quarterly	One (1)
Semestral	One (1)
Annual	One (1)

Provided, however, that when the total amount of arrearages reaches twenty percent (20.00%) of the total outstanding balance of the loans and receivables, the total outstanding balance of the loans and receivables shall be considered as past due, regardless of the number of installments in arrears.

In the case of loans and receivables that are payable in daily, weekly, or semi-monthly installments, the total outstanding balance thereof shall be considered nonperforming at the same time that they become past due, i.e., when the total amount of arrearages reaches ten percent (10.00%) of the total receivable balance, in which case, the entire outstanding balance of the receivable shall be considered as past due.

Restructured loans and receivables, which do not meet the requirements to be treated as performing receivables, shall also be considered as NPLs.

All items in litigation shall be considered non-performing.

The NPLs of the Bank not fully covered by allowance for credit losses follow:

	2016	2015
Total NPLs	₱4,531,110,557	₱4,397,573,101
NPLs fully covered by allowance for credit losses	1,011,362,190	887,998,169
	₱3,519,748,367	₱3,509,574,932

Restructured loans as of December 31, 2016 and 2015 amounted to ₱186.80 million and ₱633.1 million, respectively. The Bank's loan portfolio includes non-risk loans as defined under BSP regulations totaling ₱3.7 billion and ₱2.9 billion as of December 31, 2016 and 2015, respectively.

Loan concentration as to economic activity follows (gross of unearned discounts and allowance for credit losses, excluding Bills Purchased):

	2016	%	2015	%
Activities of households as employers and undifferentiated goods-and-services producing activities of households for own use	₱75,920,078,811	58.76	₱66,086,846,722	56.88

Others relate to economic activities such as public administration and defense and extra-territorial organization and bodies.

10. Investment in a Joint Venture

Investment in a Joint Venture

The Bank owns 8,000,000 shares of SMFC (representing 40.00% ownership) accounted for as Investment in a Joint Venture. SMFC is engaged in the business of lending or leasing to retail customers for their purchase of motorcycles. As of December 31, 2016 and 2015, the Bank's Investment in a Joint Venture amounted to ₱727.2 million and ₱690.3 million, respectively.

The following table illustrates the summarized financial information of SMFC (in thousands):

	2016	2015
Current assets	₱2,481,689	₱1,760,152
Non-current assets	125,057	119,572
Current liabilities	(179,881)	(132,042)
Non-current liabilities	(608,924)	(19,208)
Net assets	₱1,817,941	₱1,728,474

	2016	2015	2014
Revenues	₱661,242	₱449,887	₱378,392
Costs and expenses	539,530	379,678	324,730
	121,712	70,209	53,662
Provision for income tax	35,687	19,674	41,595
Net income	86,025	50,535	12,067
Other comprehensive income (loss)	3,440	3,783	(2,415)
Total comprehensive income	₱89,465	₱54,318	₱9,652

Movement in this account follows (in thousands):

	2016	2015
Acquisition cost	₱800,000	₱800,000
Accumulated equity in net losses		
Balance at beginning of year	(109,666)	(131,393)
Share in net income (Note 29)	35,466	20,214
Share in unrealized gain on remeasurement of retirement liability	1,376	1,513
	(72,824)	(109,666)
	₱727,176	₱690,334

SMFC is a private company and there is no quoted market price available for its shares. The net assets of SMFC consist mainly of financial assets and financial liabilities.

The Bank has no share in any contingent liabilities or capital commitments of SMFC as of December 31, 2016 and 2015. There are also no agreements entered into by SMFC that may restrict dividends and other capital contributions to be paid, loans and advances to be made or repaid to or from the Bank as of the said dates.

Investment in an Associate

On August 29, 2014, the Bank sold its 25.00% interest in Toyota Financial Services Philippines Corporation (TFSPC) to GT Capital Holdings, Inc. for a total consideration of ₱1.3 billion. The gain on sale of the investment in TFSPC amounted to ₱558.7 million. The investment was previously recognized as an Investment in an Associate.

16. Deposit Liabilities

Interest expense on deposit liabilities consists of:

	2016	2015	2014
Time (Note 29)	P2,158,092,448	P1,964,893,142	P1,941,865,601
Demand (Note 29)	131,686,232	107,321,034	90,918,211
Savings	120,200,524	98,527,236	82,848,973
	P2,409,979,204	P2,170,741,412	P2,115,632,785

Peso-denominated deposit liabilities earn annual fixed interest rates ranging from 0.25% to 9.00% in 2016 and 0.25% to 10.50% in 2015 and 0.25% to 6.00% in 2014, while foreign currency-denominated deposit liabilities earn annual fixed interest rates ranging from 0.01% to 2.13% in 2016, 0.13% to 6.00% in 2015 and 0.50% to 6.00% in 2014. Effective interest rate on deposit liabilities as of December 31, 2016, 2015, and 2014 ranges from 0.25% to 1.75%, 1.50% to 2.00%, and 1.69% to 2.32%, respectively.

Under existing BSP regulations, non-FCDU deposit liabilities of the Bank are subject to reserves equivalent to 8.00%. As of December 31, 2016 and 2015, the Bank is in compliance with such regulations. As of December 31, 2016 and 2015, Due from BSP amounting to P12.0 billion and P10.6 billion, respectively, was set aside as reserves for deposit liabilities, as reported to the BSP.

17. Bills Payable and Subordinated Notes

Bills Payable

This account consists of the following:

	2016	2015
Interbank borrowings	P2,237,400,000	P2,494,180,000
Securities sold under repurchase agreements (SSURA)	3,856,396,533	2,000,665,747
	P6,093,796,533	P4,494,845,747

Bills payable - SSURA are borrowings from counterparties secured by pledge of government securities with maturities ranging from 5 to 33 days. Details of securities pledged under Bills payable - SSURA as of December 31, 2016 and 2015 are as follows:

December 31, 2016			
Collateral Pledge	Face Value	Carrying Value	Fair Value
HTM Investments (Note 8)	P3,247,163,480	P4,740,757,004	P4,686,900,717
December 31, 2015			
Collateral Pledge	Face Value	Carrying Value	Fair Value
AFS Investments (Note 8)	P635,310,000	P667,026,322	P667,026,322
HTM Investments (Note 8)	1,411,800,000	1,761,558,382	1,679,627,872
	P2,047,110,000	P2,428,584,704	P2,346,654,194

In 2016 and 2015, peso-denominated interbank borrowings of the Bank bear annual interest ranging from 2.50% to 2.56%. In 2016 and 2015, foreign currency-denominated interbank borrowings bear annual interest ranging from 0.88% to 1.94% and 0.55% to 1.25%, respectively. In 2016 and 2015, annual interest rate on dollar-denominated SSURA ranges from 0.25% to 1.65% and 0.50% to 1.25%, respectively.

Interest expense on bills payable in 2016, 2015 and 2014 amounted to ₱56.8 million, ₱7.4 million and ₱10.8 million, respectively.

Subordinated Notes

This account consists of the following Peso Notes:

Maturity Date	Face Value	Carrying Value	
		2016	2015
February 20, 2022	₱3,000,000,000	₱2,999,264,700	₱2,977,976,956
August 23, 2024	3,000,000,000	2,976,467,410	2,974,074,625
	₱6,000,000,000	₱5,975,732,110	₱5,952,051,581

Unamortized debt issuance costs on these notes amounted to ₱24.3 million and ₱48.0 million as of December 31, 2016 and 2015, respectively.

5.75%, ₱3.0 Billion Unsecured Subordinated Notes

On December 29, 2011, the Bank obtained approval from the BSP to issue and sell ₱3.0 billion in Unsecured Subordinated Notes due 2022 (the Notes) and issued them on February 20, 2012 with an interest rate of 5.75%.

Among the significant terms and conditions of the issuance of the Notes are:

- Issue price at 100.00% of the face value of each Note;
- The Notes bear interest at the rate of 5.75% per annum from and including February 20, 2012 but excluding February 20, 2022. The interest shall be payable quarterly in arrears at the end of each interest period on every 20th of May, August, November and February of each year, commencing on February 20, 2012 until the maturity date;
- The Notes will constitute direct, unconditional and unsecured obligations of the Bank. The Notes will be subordinated in right of payment of principal and interest to all depositors and other creditors of the Issuer and will rank pari passu and without any preference among themselves, but in priority to the rights and claims of holders of all classes of equity securities of the Bank, including holders of preferred shares, if any;
- Subject to satisfaction of certain regulatory approval requirements, the Bank may redeem the Notes in whole and not only in part at a redemption price equal to 100.00% of the principal amount together with the accrued and unpaid interest upon at least thirty (30) days notice prior to call option date, which is the Banking Day immediately following the fifth anniversary of the issue date of the Notes or February 21, 2017.

- e. The Bank may, but is not obliged to, redeem the Notes, in whole but not in part, at the Call Option Amount, on the Call Option Date, subject to the prior approval of the BSP and the compliance by the Bank with the Regulations and prevailing requirements for the granting by the BSP of its consent therefore, including (i) the capital adequacy ratio of the Bank is well above the required minimum ratio after redemption; or (ii) the Note is simultaneously replaced, on or prior to the Call Option Date, with issues of new capital which is of the same or of better quality and is done under conditions which are sustainable for the income capacity of the Bank; and (iii) a 30 Banking Day prior written notice to the then Holder on record. Any tax due on interest income already earned by the Holders on the Notes shall be for the account of the Bank. Call Option Amount shall be based on the Issue Price of the Note plus accrued but unpaid interest thereon up to but excluding the Call Option Date.

On July 22, 2016, the Board of Directors approved the Bank's option to call the Tier 2 Notes issued in 2012 on its fifth year anniversary or on February 21, 2017. The request of the Bank to exercise the same was approved by the Bangko Sentral ng Pilipinas on September 13, 2016. The redemption falls under the call provisions of the Tier 2 Notes worth ₱3.0 Billion, which had an original maturity of ten years or until 2022.

The Bank sent a notice on the call option to its public trustee, Development Bank of the Philippines, with a copy to its registrar and paying agent Standard Chartered Bank on January 12, 2017. Each of the noteholders also received individual notices no less than 30 business days nor more than 45 days prior to the Call Option date. The Bank has likewise published the notice of Call Option in two newspapers of general circulation within Metro Manila for two consecutive weeks prior to February 21, 2017. The notice included the Call Option Date, Call Option Amount and the manner in which the call will be effected.

5.50%, ₱3.0 Billion Unsecured Subordinated Notes

On April 14, 2014, the Bank obtained approval from the BSP to issue and sell ₱3.0 billion in Unsecured Subordinated Notes due August 23, 2024 (the Notes) and issued them on May 23, 2014 with an interest rate of 5.50%.

Among the significant terms and conditions of the issuance of the Notes are:

- a. Issue price at 100.00% of the face value of each Note;
- b. The Notes bear interest at the rate of 5.50% per annum from and including May 23, 2014 to but excluding August 23, 2024. Unless the Notes are earlier redeemed upon at least 30 days prior notice to August 23, 2019, the Call Option Date. Interest shall be payable quarterly in arrears at the end of each Interest Period on August 23, November 23, February 23 and May 23 of each year, commencing on August 23, 2014 until the Maturity Date;
- c. The Notes will constitute direct, unconditional and unsecured obligations of the Bank. The Notes will be subordinated in right of payment of principal and interest to all depositors and other creditors of the Bank and will rank pari passu and without any preference among themselves, but in priority to the rights and claims of holders of all classes of equity securities of the Bank, including holders of preferred shares, if any;
- d. The Notes have a loss absorption feature, which means the Notes are subject to a Non-Viability Write-Down in case of the occurrence of a Non-Viability Event, subject to certain conditions set out in the "Terms and Conditions of the Notes - Loss Absorption Due to Non-Viability Event; Non-Viability Write-Down", when the Bank or its parent company is considered non-viable as determined by the BSP. Non-viability is defined as a deviation from

a certain level of Common Equity Tier 1 (CET1) Ratio or the inability of the Bank or its parent company to continue business or any other event as determined by the BSP, whichever comes earlier. A Non-Viability Trigger Event shall be deemed to have occurred if the BSP notifies the Bank in writing that it has determined that a: i) Write-Down of the Notes and other capital instruments of the Bank is necessary because, without such write-down, the Bank would become non-viable, ii) public sector injection of capital, or equivalent support, is necessary because, without such injection or support, the Bank would become non-viable, or iii) write-down of the Notes and other capital instruments of the Bank is necessary, because, as a result of the closure of the Bank, the latter has become non-viable;

- e. Unless previously converted, and provided a Non-Viability Trigger Event has not occurred and subject to regulations, the Bank shall have the option but not the obligation, upon securing all required regulatory approvals, to redeem the Notes as a whole, but not in part, in the following circumstances: i) at the Call Option Amount, on the Call Option Date, subject to the prior approval of the BSP and the compliance by the Issuer with Regulations and prevailing requirements for the granting by the BSP of its consent, ii) prior to the stated maturity and on any Interest Payment Date at par plus accrued but unpaid interest thereon if or when payments or principal or interest due on the Notes become subject to additional or increased taxes, other than any taxes and rates of such taxes prevailing as of the Issue Date, as a result of certain changes in law, rule, or regulation, or in the interpretation thereof, and such additional or increased rate of such tax cannot be avoided by use of reasonable measures available to the Bank or iii) the non-qualification of the Notes as Tier 2 capital as determined by the BSP. Incremental tax, if any, that may be due on the interest income already earned under the Notes as a result of the exercise by the Bank of its option for early redemption, shall be for its own account. Call Option Amount shall be based on the principal amount of the Note plus accrued interest covering the accrued and unpaid interest as of but excluding the Call Option Date.

As of December 31, 2016 and 2015, the Bank is in compliance with the terms and conditions upon which the subordinated notes have been issued.

Interest expense incurred on these notes amounted to ₱361.8 million, ₱342.7 million and ₱276.6 million in 2016, 2015 and 2014, respectively, net of amortization of deferred financing cost amounting to ₱23.7 million, ₱5.2 million and ₱4.0 million, respectively.

18. Accrued Taxes, Interest and Other Expenses

This account consists of:

	2016	2015
Accrued interest payable	₱209,657,954	₱177,197,223
Accrued other taxes and licenses payable	132,890,355	126,385,574

21. Equity

Issued Capital

The Bank's capital stock consists of:

	2016		2015	
	Shares	Amount	Shares	Amount
Authorized common stock - P10 par value	425,000,000	P4,250,000,000	425,000,000	P4,250,000,000
Issued and outstanding				
Balance at beginning and end of year (Note 28)	240,252,491	P2,402,524,910	240,252,491	P2,402,524,910

The Bank became listed in the Philippine Stock Exchange (PSE) on October 10, 1994. Subsequently, the SEC approved the increase in the capital stock of the Bank. The summarized information on the Bank's registration of securities under the Securities Regulation Code follows:

Date of SEC Approval	Type	Authorized Shares	Par Value
August 16, 1995	Common	300,000,000	P10
October 8, 1997	Common	425,000,000	P10

As of December 31, 2016 and 2015, the total number of stockholders is 1,507 and 1,532, respectively.

Dividends Paid and Proposed

Details of the Bank's dividend distributions as approved by the Bank's BOD and the BSP follow:

Date of declaration	Cash Dividends		Date of BSP approval	Record date	Payment date

January 24, 2017	0.75	180,189,368.3	–	February 10, 2017	February 24, 2017

On October 9, 2015, the Bangko Sentral ng Pilipinas (BSP) issued Circular No. 888, *Amendments to Regulations on Dividend Declaration and Interest Payments on Tier 1 Capital Instruments*, which liberalized said rules in the sense that prior BSP verification and approval is no longer required except for banks with major supervisory concerns. However, banks are bound to comply with the provisions of Section X136 of the Manual of Regulations for Banks (MORB) and its subsections, including the submission of documentary requirements under Subsection X136.4 of the MORB, otherwise, banks, subsequently found to have violated the provisions on dividend declaration or have falsely certified/submitted misleading statements shall be reverted to the prior BSP verification wherein the bank can only make an announcement or communication on the declaration of the dividends or payment of dividends thereon upon receipt of BSP advice thereof. The Bank is compliant with the said circular.

The computation of surplus available for dividend declaration in accordance with SEC Memorandum Circular No. 11 issued in December 2008 differs to a certain extent from the computation following BSP guidelines.

In compliance with BSP regulations, 10.00% of the Bank's profit from trust business is appropriated to surplus reserves. This annual appropriation is required until the surplus reserves for trust business equals 20.00% of the Bank's authorized capital stock.

A portion of the surplus corresponding to the accumulated net earnings of a joint venture is not available for dividend declaration (Note 10) until receipt of cash dividends from the investee.

Capital Management

The primary objectives of the Bank's capital management are to ensure that the Bank complies with externally imposed capital requirements, as mandated by the BSP, and that the Bank maintains healthy capital ratios in order to support its business and maximize returns for its shareholders. The Bank considers its paid in capital and surplus as its capital.

The Bank manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Bank may adjust the amount of dividend payments to shareholders or issue capital securities. The major activities in this area include the following:

- The Bank issued additional common shares for its qualified stockholders in 2008 and 2006 through stock rights offerings that raised ₱2.0 billion and ₱750.0 million in capital, respectively.
- On March 2, 2005, the Bank's BOD approved an amendment to the Bank's Dividend Policy which provides for an annual regular cash dividend of 6.00% of the par value of the total capital stock payable quarterly at the rate of 1.50% or ₱0.15 per share payable not later than March 31, June 30, September 30 and December 31 of each year.
- On February 29, 2012, the Bank's BOD approved a further amendment to the Bank's Dividend Policy to provide for an annual regular cash dividend of 30.00% of the par value of the total capital stock, payable quarterly at the rate of 7.50% or ₱0.75 per share payable not later than March 31, June 30, September 30 and December 31 of each year.

Regulatory Qualifying Capital

Under existing BSP regulations, the determination of the Bank's compliance with regulatory requirements and ratios is based on the amount of the Bank's unimpaired capital (regulatory capital) as reported to the BSP. This is determined on the basis of regulatory accounting policies which differ from PFRS in some respects.

In addition, the risk-based capital ratio of a bank, expressed as a percentage of qualifying capital to risk-weighted assets, should not be less than 10.00% for both solo basis and consolidated basis. Qualifying capital and risk-weighted assets are computed based on BSP regulations. Risk-weighted assets consist of total assets less cash on hand, due from BSP, loans covered by hold-out on or assignment of deposits, loans or acceptances under letters of credit to the extent covered by margin deposits and other non-risk items determined by the Monetary Board of the BSP.

On January 15, 2013, the BSP issued Circular No. 781, *Basel III Implementing Guidelines on Minimum Capital Requirements*, which states the implementing guidelines on the revised risk-based capital adequacy framework, particularly on the minimum capital and disclosure requirements for universal banks and commercial banks, as well as their subsidiary banks and quasi-banks, in accordance with the Basel III standards. The Circular took effect on January 1, 2014.

The Circular sets out a minimum Common Equity Tier 1 (CET1) ratio of 6.00% and Tier 1 capital ratio of 7.50%. It also introduces a capital conservation buffer of 2.50% comprised of CET1 capital. The BSP's existing requirement for Total CAR remains unchanged at 10.00% and these ratios shall be maintained at all times.

Further, existing capital instruments as of December 31, 2010 which do not meet the eligibility criteria for capital instruments under the revised capital framework shall no longer be recognized as capital upon the effectivity of Basel III. Capital instruments issued under BSP Circular Nos. 709 and 716 (the circulars amending the definition of qualifying capital particularly on Hybrid Tier 1 and Lower Tier 2 capitals), starting January 1, 2011 and before the effectivity of BSP Circular No. 781, shall be recognized as qualifying capital until December 31, 2015. In addition to changes in minimum capital requirements, this Circular also requires various regulatory adjustments in the calculation of qualifying capital. The Bank's unsecured subordinated debt is eligible as Lower Tier 2 capital until December 31, 2015.

Prior to January 1, 2014, the risk-based capital ratio is computed in accordance with BSP Circular No. 538 or Basel II.

The CAR of the Bank as of December 31, as reported to the BSP, based on BSP Circular No. 781 and BSP Circular No. 538, respectively, are shown in the table below (amounts in millions).

	2016	2015
Tier 1 capital	P18,768	P18,174
Tier 2 capital	4,168	6,962
Gross qualifying capital	22,936	25,136
Less required deductions	3,281	2,878
Total qualifying capital	19,655	22,258
Risk weighted assets	P139,738	P123,389
Tier 1 capital adequacy ratio	11.08%	12.40%
Capital adequacy ratio	14.07%	18.04%

Regulatory qualifying capital consists of Tier 1 (going concern) capital, which comprises capital stock, surplus, surplus reserves, net unrealized gains on AFS securities, and cumulative translation adjustment. Certain adjustments are made to PFRS-based results and reserves, as prescribed by the BSP. The other component of regulatory capital is Tier 2 (gone-concern) capital, which is comprised of the Bank's general loan loss provision and unsecured subordinated debt (refer to Note 17). Certain items are deducted from the regulatory Gross Qualifying Capital, such as but not limited to, outstanding unsecured credit accommodations both direct and indirect, to DOSRI, and unsecured loans, other credit accommodations and guarantees granted to subsidiaries and affiliates (net of specific provisions), deferred income tax (net of allowance for impairment, if any) and goodwill. In 2013, deductions to Tier 2 Capital are capped at its total gross amount and any excess shall be deducted from Tier 1 Capital in accordance with Basel II standards.

Risk-weighted assets are determined by assigning defined risk weights to amounts of on-balance sheet exposures and to the credit equivalent amounts of off-balance sheet exposures.

As of December 31, 2016 and 2015, the Bank has complied with the requirements of BSP Circular No. 781 and BSP Circular No. 538, respectively.

The issuance of BSP Circular No. 639 covering the Internal Capital Adequacy Assessment Process (ICAAP) in 2009 supplements the BSP's risk-based capital adequacy framework under Circular No. 538. In compliance with this new circular, the Metrobank Group has adopted and developed its ICAAP framework to ensure that appropriate level and quality of capital are maintained by the Group. Under this framework, the assessment of risks extends beyond the Pillar 1 set of credit, market and operational risks and onto other risks deemed material by the Group. The level and structure of capital are assessed and determined in light of the Group's business environment, plans, performance, risks and budget, as well as regulatory directives. The Bank follows the Group's ICAAP framework and submits the result of its assessment to the parent company. Per BSP Circular 869, effective January 31, 2015, submission of an ICAAP document is required by BSP every March 31 of each year. The Bank has complied with this requirement.

The Bank has taken into consideration the impact of the foregoing requirements to ensure that the appropriate level and quality of capital are maintained on an ongoing basis.

Financial Performance

The following basic ratios measure the financial performance of the Bank:

	2016	2015	2014
Return on average equity	12.50%	12.74%	13.64%
Return on average assets	1.34%	1.49%	1.68%
Net interest margin on average earning assets	6.17%	6.37%	6.58%
Liquidity ratio	23.46%	28.72%	46.83%
Debt-to-Equity ratio	8.82:1	7.83:1	7.21:1
Asset-to-Equity ratio	9.82:1	8.83:1	8.21:1
Interest rate coverage ratio	1.94:1	1.92:1	1.96:1

22. Net Service Fees and Commission Income

This account consists of:

	2016	2015	2014
Service Fees and Commission Income			
Credit-related fees and commissions	₱731,435,587	₱757,297,871	₱655,161,584
Deposit-related and other fees received	473,979,270	521,122,916	484,105,336
Trust fees	20,600,300	15,278,974	12,552,005
	1,226,015,157	1,293,699,761	1,151,818,925
Service Fees and Commission Expense			
Commissions	83,156,492	89,801,141	67,740,038
Brokerage	6,511,459	8,406,570	6,188,482
	89,667,951	98,207,711	73,928,520
Net Service Fees and Commission Income	₱1,136,347,206	₱1,195,492,050	₱1,077,890,405

23. Miscellaneous Income

This account consists of:

	2016	2015	2014
Recovery of charged-off assets	₱296,241,762	₱284,561,719	₱196,461,347
Insurance commission income	63,948,168	42,103,916	37,701,172
Rental income (Notes 12 and 25)	55,505,274	54,876,077	49,595,665
Others	10,452,674	133,871,739	59,809,434
	₱426,147,878	₱515,413,451	₱343,567,618

Rental income arises from the lease of properties and safety deposit boxes of the Bank.

Others include income from renewal fees, checkbook charges, dividend income and other miscellaneous income.

24. Retirement Benefits

The Bank has a funded, noncontributory defined benefit plan covering substantially all of its employees. The benefits are based on years of service and final compensation.

The plan administered by the Retirement Committee is composed of five (5) members appointed by the Board of Directors of the Bank. The Retirement Committee have all the powers necessary or useful in the discharge of its duties of administration including, but not limited to determining the rights of Members under the Plan. The Retirement Committee may adopt such rules and regulations as it deems necessary and desirable, including those governing the establishment of procedures, the use of necessary forms, and the setting up of minimum periods where notice is required. The Retirement Committee may seek advice of counsel, and may appoint an independent accountant to audit the Plan and actuary to value the plan periodically, whose professional fees and expenses may be charged to the Fund.

Under the existing regulatory framework, Republic Act 7641 requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity, provided however that the employee's retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law does not require minimum funding of the plan.

The date of the latest actuarial valuation is December 31, 2016.

The amounts of pension expense included in 'Compensation and fringe benefits' in the statements of income follow:

	2016	2015
Current service cost	P194,358,002	P174,313,825
Net interest cost	40,071,574	27,940,931
	P234,429,576	P202,254,756

The net retirement liability shown under ‘Other liabilities’ recognized in the Bank’s statements of condition follows (in thousands):

2016												
Remeasurements in other comprehensive income												
	January 1, 2016	Net benefit cost			Benefits paid	Return on plan assets (excluding amount included in net interest)	Actuarial changes arising from experience adjustments	Actuarial changes arising from changes in demographic assumptions	Actuarial changes arising from changes in financial assumptions	Subtotal	Contribution by employer	December 31, 2016

Fair value of plan assets	(1,047,954)	–	(47,682)	(47,682)	100,127	54,343	–	–	–	54,343	(249,817)	(1,190,983)
Net defined benefit liability	P620,241	P174,314	P27,941	P202,255	P–	P54,343	P324,949	P338,199	(P490,338)	P227,153	(P249,817)	P799,832

The maximum economic benefit available is a combination of expected refunds from the plan and reductions in future contributions.

The Bank expects to contribute P359.8 million to its noncontributory defined benefit plan in 2017.

The fair values of plan assets by each class as at the statement of condition date are as follows:

	2016	2015
Cash and cash equivalents		
Special deposit account	₱582,003,365	₱357,000,000
Certificate of time deposit (Note 29)	92,000,000	179,830
Investment in other debt securities	531,057,496	92,758,900
Investment in equity securities	223,986,236	686,565,597
Unit Investment Trust Fund	58,850,839	47,007,039
Other assets	5,833,021	8,441,342
	1,493,730,957	1,191,952,708
Other liabilities	19,922,568	969,937
	₱1,473,808,389	₱1,190,982,771

The person exercising voting right for the foregoing equity instruments is currently a senior officer of the Bank (Note 29).

The principal actuarial assumptions used in determining retirement liability as of December 31, 2016 and 2015 are shown below:

	2016	2015
Discount rate	5.31%	5.01%
Turnover rate	6.00%	6.00%
Future salary increases	5.00%	5.00%

The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the defined benefit obligation as of the end of the reporting period, assuming all other assumptions were held constant:

	December 31, 2016		December 31, 2015	
	Possible Fluctuations	Increase (decrease)	Possible Fluctuations	Increase (decrease)
Discount rate	+1.00%	(190,815,355)	+1.00%	(79,641,824)
	-1.00%	221,306,014	-1.00%	107,316,377
Turnover rate	+1.00%	(20,387,630)	+1.00%	(369,887,050)
	-1.00%	20,980,032	-1.00%	312,520,456
Future salary increase rate	+1.00%	238,629,209	+1.00%	160,232,267
	-1.00%	(208,964,328)	-1.00%	(77,058,424)

The Retirement Committee ensures that there will be sufficient assets to pay pension benefits as they fall due and maintains the plan on an actuarially sound basis considering the benefits to members.

Shown below is the maturity analysis of the undiscounted benefit payments:

	2016	2015
Less than one year	₱146,739,063	₱211,744,483
More than one year to five years	660,937,425	669,094,669
More than five years to 10 years	1,364,613,210	1,266,637,603
More than 10 years to 15 years	2,014,243,913	1,753,882,998
More than 15 years to 20 years	1,954,212,513	1,583,678,293
More than 20 years	4,095,907,866	3,347,210,983

The average duration of the expected benefit payments at the statement of condition date is 16.5 years.

25. Leases

The Bank leases the premises occupied by its branches for periods ranging from 1 to 20 years renewable under certain terms and conditions. Various lease contracts include escalation clauses, most of which bear an annual rent increase of 10.00%. Rentals charged against profit or loss under these lease contracts amounting to ₱559.9 million, ₱521.8 million and ₱463.6 million in 2016, 2015 and 2014, respectively, are shown under 'Occupancy and equipment-related costs' in the statements of income.

Future minimum rentals payable under non-cancelable operating leases are as follows:

	2016	2015
Within one year	₱370,406,271	₱366,096,380
After one year but not more than five years	1,152,216,591	1,150,092,048
More than five years	607,663,809	775,249,542
	₱2,130,286,671	₱2,291,437,970

The Bank has also entered into commercial property leases on its surplus office space. These non-cancelable leases have remaining non-cancelable lease terms between 1 and 5 years. As of December 31, 2016 and 2015, there is no contingent rental income. Rental income of the Bank related to these property leases amounting to ₱53.8 million, ₱53.0 million, and ₱47.8 million in 2016, 2015 and 2014, respectively are shown under 'Miscellaneous income' in the statements of income.

Future minimum rentals receivable under non-cancelable operating leases are as follows:

	2016	2015
Within one year	₱48,424,870	₱52,604,779
After one year but not more than five years	40,876,011	88,702,895
	₱89,300,881	₱141,307,674

26. Miscellaneous Expenses

This account consists of:

	2016	2015	2014
Insurance	₱531,430,943	₱477,751,230	₱410,805,829

	₱1,876,476,264	₱1,742,754,431	₱1,646,584,153

Insurance expense includes premiums paid to the Philippine Deposit Insurance Corporation (PDIC) amounting to ₱289.5 million, ₱245.2 million, and ₱233.8 million in 2016, 2015 and 2014, respectively.

Other expenses include sponsorship expenses, home free loan expenses, appraisal fees and notarial fees. It also include payments to union members amounting to ₱10.6 million, ₱10.5 million and ₱9.9 million in 2016, 2015 and 2014, respectively, for the successful completion of the collective bargaining agreement.

27. Income and Other Taxes

Under Philippine tax laws, the Bank is subject to percentage and other taxes (presented as 'Taxes and licenses' in the statements of income) as well as income taxes. Percentage and other taxes paid consist principally of gross receipts tax (GRT) and documentary stamp tax (DST).

Income taxes include corporate income tax, further discussed below, and final taxes paid at the rate of 20.00%, which is a final withholding tax on gross interest income from government securities and other deposit substitutes.

The NIRC of 1997 also provides for rules on the imposition of a 2.00% MCIT on the gross income as of the end of the taxable year beginning on the fourth (4th) taxable year immediately following the taxable year in which the company commenced its business operations. Any excess MCIT over the RCIT can be carried forward on an annual basis and credited against the RCIT for the three (3) immediately succeeding taxable years.

Starting July 1, 2008, the Optional Standard Deduction (OSD) equivalent to 40.00% of gross income may be claimed as an alternative deduction in computing for the RCIT. The Bank elected to claim itemized expense deductions instead of the OSD in computing for the RCIT in 2016 and 2015.

On March 15, 2011, the BIR issued RR No. 4-2011 which prescribes the attribution and allocation of expenses between FCDUs/EFCDUs or OBU and RBU, and further allocation within RBU based on different income earning activities. Pursuant to the regulations, the Bank made an allocation of its expenses in calculating income taxes due for RBU and FCDU.

Current tax regulations also provide for the ceiling on the amount of EAR expense that can be claimed as a deduction against taxable income. Under the regulations, EAR expense allowed as a deductible expense for a service company is limited to the actual EAR paid or incurred but not to exceed 1.00% of net revenue.

FCDU offshore income (income from non-residents) is tax-exempt while gross onshore income (income from residents) is subject to 10.00% income tax. In addition, interest income on deposit placements with other FCDUs and offshore banking units (OBUs) is taxed at 7.50%.

Under current tax regulations, the income derived by the FCDU from foreign currency transactions with non-residents, OBUs, local commercial banks, including branches of foreign banks, is tax-exempt while interest income on foreign currency loans from residents other than OBUs or other depository banks under the expanded system is subject to 10.00% income tax.

Provision for (benefit from) income tax consists of:

	2016	2015	2014
Current:			
Final tax	P148,514,787	P158,241,185	P218,057,871
RCIT	147,364,626	193,630,281	190,814,945
MCIT	—	—	75,447
	295,879,413	351,871,466	408,948,263
Deferred	(76,166,179)	(394,333,106)	(431,481,389)
	P219,713,234	(P42,461,640)	(P22,533,126)

The Bank's FCDU paid MCIT in 2014.

Net deferred tax assets consist of:

	2016	2015
Deferred tax assets on:		
Allowance for credit and impairment losses	P1,317,650,642	P1,228,774,665
Net pension liability	224,653,010	239,949,547
Accumulated depreciation on investment properties	96,203,815	82,977,957
Accrued rent	53,399,474	50,373,119
Unamortized pension cost contribution	65,821,218	16,246,916
	1,757,728,159	1,618,322,204
Deferred tax liabilities on:		
Net unrealized gain on investment properties	(353,141,383)	(305,617,162)
Accretion of interest on impaired loans	(30,002,072)	(100,705,110)
Unrealized foreign exchange gains	(73,860,470)	(17,583,382)
	(457,003,925)	(423,905,654)
	P1,300,724,234	P1,194,416,550

As of December 31, 2016 and 2015, the Bank did not recognize deferred tax assets on allowance for credit losses amounting to P188.0 million and P230.8 million, respectively. Income tax effect recognized in OCI amounted to P30.1 million, P68.1 million and P57.3 million in 2016, 2015 and 2014, respectively.

The reconciliation between the statutory income tax and effective income tax follows (in thousands):

	2016	2015	2014
Statutory income tax	₱801,167	₱692,532	₱688,843
Tax effect of:			
Tax-paid and tax-exempt income	(677,956)	(540,388)	(731,727)
Nondeductible expenses	336,301	272,409	470,714
FCDU income	(206,632)	(19,132)	54,700
Others	(33,167)	(447,882)	(505,063)
Effective income tax	₱219,713	(₱42,461)	(₱22,533)

28. Earnings Per Share

The following table presents information used to calculate basic EPS:

	2016	2015	2014
a. Net income	₱2,450,843,310	₱2,350,900,100	₱2,318,676,615
b. Weighted average number of common shares for basic EPS (Note 21)	240,252,491	240,252,491	240,252,491
c. Basic/Diluted EPS (a/b)	₱10.20	₱9.79	₱9.65

As of December 31, 2016, 2015 and 2014, there were no potential common shares with dilutive effect on the basic EPS of the Bank.

29. Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. The Bank's related parties are as follows:

- Bank's Directors, Officers, Stockholders and their Related Interests (DOSRI) as defined per BSP's existing DOSRI rules and regulations;
- Close Family Members (i.e. 2nd degree relatives) of the Bank's Directors, Officers with rank of SVP and up and Individual Substantial Stockholders;
- Bank's Subsidiaries and Affiliates as defined per BSP's existing rules and regulations on lending to subsidiaries and affiliates;
- Any party that the Bank exerts direct or indirect control over or that exerts direct or indirect control over the Bank;
- Subsidiaries, Affiliates and Special Purpose Entities (SPEs) of any party that the Bank exerts direct or indirect control over or that exerts direct or indirect control over the Bank;
- Corresponding Persons in Affiliated Companies as defined in the Bank's Related Party Transaction (RPT) Policy; and
- Any natural person or juridical entity whose interest may pose potential conflict with the Bank's interest.

The Bank has several business relationships with related parties. The terms of the transactions with such parties are listed below on substantially the same terms, including interest and collateral, as those prevailing at the time for comparable transactions with other parties.

Transactions with the Retirement Plan

On December 20, 2012, the SEC issued Memorandum Circular No. 12 providing for guidelines on the disclosure of transactions with retirement benefit funds. Under said circular, a reporting entity shall disclose information about any transaction with a related party (retirement fund, in this case) and outstanding balances necessary for an understanding of the potential effect of the relationship on the financial statements.

Under PFRS, certain post-employment benefit plans are considered as related parties. The Bank has business relationships with its retirement plan pursuant to which it provides trust and management services to the said plan. The retirement plan of the employees of the Bank is being managed and maintained by the Trust Division of the Bank. The total fair value of the retirement fund as of December 31, 2016 and 2015 amounted to ₱1.5 billion and ₱1.2 billion, respectively. The details of the assets of the fund as of December 31, 2016 and 2015 are disclosed in Note 24.

The following table shows the amount of outstanding balances of related party transactions of the Bank and SMFC with the retirement plan of the employees of the Bank as of December 31, 2016 and 2015:

Related Party	Nature of Transaction	2016	
		Elements of Transaction	
		Statement of Condition	Statement of Income
Philippine Savings Bank	Investment in Money Market Fund*	₱58,850,839	
	Deposits in Bank	3,365	
	Gain on sale of equity securities		₱246,455,484
	Dividends earned		6,901,211
	Interest income		7,309
	Income from Unit Investment Trust Fund (UITF)		1,179,402
Sumisho Motor Finance Corporation	Equity investment	200,000,000	
*Includes fair value gains of ₱0.2 million			
Related Party	Nature of Transaction	2015	
		Elements of Transaction	
		Statement of Condition	Statement of Income
Philippine Savings Bank	Equity investment*	₱473,423,040	
	Investment in Money Market Fund**	43,444,701	
	Deposits in Bank***	361,235	
	Accrued interest income	30	
	Dividends earned		₱17,328,994
	Gain on sale of equity securities		1,801,791
	Interest income		38,363
Sumisho Motor Finance Corporation	Income from UITF		739,108
	Equity investment	200,000,000	
*Includes fair value gains of ₱263.0 million			
**Includes fair value gains of ₱0.6 million			
***Represent 17 days time deposits and bear interest of 1.00%			

Transactions relating to the Bank's retirement plan are approved by its Retirement Committee. The voting right over the investments in the Bank's capital stocks is exercised by a member of the Retirement Committee as approved by all members of the Retirement Committee, whom are senior officers of the Bank.

In 2016, the Trust Division, in behalf of the Retirement Fund, provided allowance for impairment losses amounting to ₱38.5 million to its equity investment.

Remunerations of Directors and Other Key Management Personnel

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Bank, directly or indirectly. The Bank considers the members of the Management Committee to constitute key management personnel for purposes of PAS 24, *Related Party Disclosures*.

Total remunerations of key management personnel (covering assistant vice presidents and up) included under 'Compensation and fringe benefits' in the statements of income are as follows:

	2016	2015
Short-term employee benefits	₱250,805,503	₱198,857,936
Post-employment pension benefits	6,356,856	19,320,109
	₱257,162,359	₱218,178,045

Short-term employee benefits include salaries and other non-monetary benefits.

Remunerations given to directors, as approved by the Board Remuneration Committee, amounted to ₱16.7 million, ₱16.9 million, and ₱16.3 million in 2016, 2015 and 2014, respectively.

The Bank also provides banking services to Directors and other key management personnel and persons connected to them.

Other Related Party Transactions

Other related party transactions of the Bank by category of related party are presented below. The following tables show the amount and outstanding balances included in the financial statements (in thousands):

December 31, 2016			
Category	Amount/ Volume	Outstanding Balance	Nature, Terms and Conditions
Significant Investor			
Interbank loans receivable		₱-	Peso-denominated lending with 2.50% fixed interest rates and maturities ranging from 1 to 3 days

Regulatory Reporting

As required under existing BSP rules and regulations, the Bank discloses loans and other credit accommodations granted to its Directors, Officers, Stockholders and Related Interests (DOSRI). These loans and other credit accommodations were made substantially on the same terms as with other individuals and businesses of comparable risks and were subject of prior Board approval and entailing BSP reportorial requirements.

Existing banking regulations also limit the total amount of credit exposure to each of the Bank's DOSRIs, at least 70.00% of which must be secured, to the total of their respective deposits and book value of their respective unencumbered deposits and, if any, book value of their respective paid-in capital contribution in the Bank. In the aggregate, the Bank's total credit exposure to all its DOSRIs should not exceed its net worth or 15% of its total loan portfolio, whichever is lower, with any unsecured portion thereof not exceeding the lower between 30% of the aggregate limit or of the total actual exposure. However, loans and other credit accommodations to DOSRIs that are secured by assets considered by the BSP as non-risk are exempt from these ceilings. As of December 31, 2016 and 2015, the Bank's credit exposures to DOSRI are within the said regulatory limits.

BSP Circular No. 423 dated March 15, 2004, as amended by BSP Circular No. 914 dated June 23, 2016, provide the rules and regulations governing credit exposures to DOSRI. The following table shows information relating to the loans, other credit accommodations and guarantees classified as DOSRI accounts under regulations existing prior to BSP Circular No. 423 and new DOSRI loans and other credit accommodations granted under said circular as of December 31, 2016 and 2015:

	2016	2015
Total outstanding DOSRI accounts	₱1,734,454,266	₱1,667,247,339
Percent of DOSRI accounts granted under regulations existing prior to BSP Circular No. 423 to total loans	1.34%	1.43%
Percent of new DOSRI accounts granted under BSP Circular No. 423 to total loans	—	—
Percent of unsecured DOSRI accounts to total DOSRI accounts	12.63%	12.97%
Percent of past due DOSRI accounts to total DOSRI accounts	0.00%	22.88%
Percent of nonperforming DOSRI accounts to total DOSRI accounts	0.00%	22.88%

Total interest income from DOSRI loans amounted to ₱26.6 million, ₱44.7 million, ₱49.5 million in 2016, 2015 and 2014, respectively.

30. Trust Operations

Securities and other resources held by the Bank in fiduciary or agency capacity for its customers are not included in the accompanying statements of condition since these are not assets of the Bank.

As of December 31, 2016 and 2015, the Bank deposited government securities with face value of ₱50.0 million and ₱40.0 million in compliance with trust regulations, respectively (Note 8).

For 2016 and 2015, the Bank did not appropriate any surplus reserve resulting from the operations of the Bank's Trust Department since it is still in a net loss position. No part of such surplus reserve shall at any time be paid out in dividends, but losses accruing in the course of its trust business may be charged against surplus.

31. Commitments and Contingent Liabilities

In the normal course of the Bank's operations, there are various outstanding commitments and contingent liabilities such as guarantees and commitments to extend credit, which are not reflected in the accompanying financial statements. The Bank, however, does not anticipate significant losses as a result of these transactions.

The following is a summary of the Bank's commitments and contingent liabilities at their equivalent peso contractual amounts:

	2016	2015
Trust department accounts (Note 30)	₱3,991,172,047	₱2,349,289,988
Stand-by credit lines	83,660,385	78,408,259
Late deposits/payments received	62,929,377	57,141,192
Spot foreign exchange contracts - sold	49,720,000	70,590,000
Items held for safekeeping	695,408	311,877
Others	472,843	143,111

Also, several suits and claims, in behalf or against the Bank in relation to its banking operations and labor-related cases are pending before the courts and quasi-judicial bodies. The Bank and its legal counsel believe that any losses arising from suits and claims which are not specifically provided for will not have a material adverse effect on the financial statements.

32. Notes to Statements of Cash flows

The following is a summary of principal non-cash activities that relate to the analysis of the statements of cash flows:

	2016	2015	2014
Additions to investment properties in settlement of loans (Note 12)	P1,125,389,300	P923,843,570	P878,210,590

34. Subsequent Events

Cash Dividend Declaration

On January 24, 2017, the BOD of the Bank declared a 7.50% regular cash dividend for the fourth quarter of 2016 amounting to ₱180.2 million or ₱0.75 per share.

Issuance of 3.8 Billion Peso-denominated Long Term Negotiable Certificate of Time Deposits (LTNCD)

On January 30, 2017, the Bank issued LTNCD with an aggregate principal amount of ₱3.4 billion due April 30, 2022, with fixed interest rate of 3.5% per annum.

Exercise of Call Option on its 5.75%, 3.0 Billion Unsecured Subordinated Notes

On February 21, 2017, the Bank exercised the call option for its ₱3.0 billion Tier 2 Notes issued in 2012. It has complied with its obligations under the Notes and has made full payment of the outstanding principal and interest.

35. Approval for the Release of the Financial Statements

The accompanying comparative financial statements were reviewed by the Audit Committee on February 15, 2017 and approved by the BOD in its meeting on February 23, 2017.

36. Report on the Supplementary Information Required Under Revenue Regulations (RR) No. 15-2010

On November 25, 2010, the BIR issued RR No. 15-2010 to amend certain provisions of RR No. 21-2002. The regulations provide that starting 2010, the notes to financial statements shall include information on taxes, duties and license fees paid or accrued during the taxable year.

The Bank reported and/or paid the following types of taxes for the year:

Taxes and Licenses

For the taxable year ended December 31, 2016, taxes and licenses of the Bank consist of:

Gross receipts tax	P555,023,903
Documentary stamps tax	423,355,647
Local taxes	73,245,988
Fringe benefit tax	6,809,406
Others	3,000
	P1,058,437,944
