Item II. Management Discussion and Analysis of Financial Condition and Results of Operations	Annex 10
---	----------

PART II – OTHER INFORMATION

1. Control of Registrant

The following stockholders own more than 5% of the total outstanding number of shares issued as of September 30, 2018:

Name of Stockholder	Outstanding Number of Shares	Percent to Total No. of Shares
Metropolitan Bank and Trust Co.	198,629,513	82.675%
Danilo L. Dolor	12,610,891	5.249%

As of September 30, 2018, there is no person who holds more than 5% of the Bank's securities lodged with PCD Nominee Corporation.

Minimum Public Ownership

As of September 30, 2018, public ownership of the Bank was at 15.66%. Of the total shares issued, 1.65 million shares or 0.69% represents foreign ownership.

2. Legal Proceedings

The Bank in the course of its operations and in running its business has several legal cases that are filed in its behalf and against it. However, these cases will not give any material effect to its financial status nor would have any material impact in continuing its operations. These cases are part of its daily business activities and consequence of its collection efforts and business dealings with the public.

3. Board Resolutions

All material disclosures of the Bank had been made under SEC 17-C.

SIGNATURES

Pursuant to the requirements of the Securities Regulation Code, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

See accompanying Notes to Unaudited Interim Financial Statements.

NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

1. Corporate Information

Philippine Savings Bank (the Bank) was incorporated in the Philippines primarily to engage in savings and mortgage banking. The Bank's shares are listed in the Philippine Stock Exchange (PSE). The Bank offers a wide range of products and services such as deposit products, loans, treasury and trust functions that mainly serve the retail and consumer markets. On September 6, 1991, the Bank was authorized to perform trust functions.

As of September 30, 2018, the Bank had a total of 250 branches and 580 ATMs which consist of 263 onsite ATMs and 317 offsite ATMs nationwide.

The Bank's original Certificate of Incorporation was issued by the Securities and Exchange Commission (SEC) on June 30, 1959. On March 28, 2006, the Board of Directors (BOD) of the Bank approved the amendment of Article IV of its Amended Articles of Incorporation to extend the corporate term of the Bank, which expired on June 30, 2009, for another 50 years or up to June 30, 2059. This was subsequently approved by stockholders representing at least two-thirds of the outstanding capital stock of the Bank on April 25, 2006. The Amended Articles of Incorporation was approved by the SEC on September 27, 2006.

On April 27, 2010, by majority vote of the BOD and by stockholders representing two-thirds of the outstanding capital stock, the amendment of Article VI of its Amended Articles of Incorporation reducing the number of directors from a maximum of eleven (11) to a maximum of nine (9) has been approved. This was approved by the SEC on August 26, 2010.

On March 24, 2014, the BOD approved Article III of Articles of Incorporation to specify its principal address from Makati City to PSBank Center, 777 Paseo de Roxas corner Sedefio Street, Makati City 1226. The Amended Articles of Incorporation was approved by the SEC on December 22, 2014.

As of September 30, 2018, Metropolitan Bank & Trust Company (MBTC), the Bank's ultimate parent, owned eighty-three percent (83%) of the Bank.

2. Summary of Significant Accounting Policies**Basis of Preparation**

The accompanying unaudited interim financial statements for the nine month periods ended September, 2018 and 2017 have been prepared in accordance with Philippine Accounting Standards (PAS) 34, *Interim Financial Reporting*. Accordingly, the unaudited interim financial statements do not include all of the information and disclosures required in the annual audited financial statements and should be read in conjunction with the Bank's annual audited financial statements as at December 31, 2017.

The accompanying unaudited interim financial statements have been prepared under the historical cost basis except for fair value through profit or loss (FVTPL) investments, available-for-sale (AFS) investments and financial assets measured at fair value through other comprehensive income (FVOCI) that have been measured at fair value. All values are rounded to the nearest peso unless otherwise stated.

The accompanying unaudited interim financial statements of the Bank include the accounts maintained in the Regular Banking Unit (RBU) and Foreign Currency Deposit Unit (FCDU). The functional currency of the RBU and the FCDU is the Philippine Peso and United States Dollar (USD),

Duplication or reproduction is allowed.

Please do not modify its content.

Document Classification: PUBLIC

respectively. For financial reporting purposes, FCDU accounts and foreign currency-denominated accounts in the RBU are translated into their equivalents in Philippine peso. The financial statements of these units are combined after eliminating inter-unit accounts.

Statement of Compliance

The financial statements of the Bank have been prepared in compliance with the Philippine Financial Reporting Standards (PFRS).

Presentation of Financial Statements

The Bank presents its statement of condition in order of liquidity.

Financial assets and financial liabilities are offset and the net amount is reported in the statement of condition only when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liability simultaneously. The Bank assesses that it has a currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of solvency or bankruptcy of the Bank and all of the counterparties.

Income and expenses are not offset in the statement of income unless required or permitted by any accounting standard or interpretation, and as specifically disclosed in the accounting policies of the Bank.

Seasonality or Cyclicity of Interim Operations

Seasonality or cyclicity of interim operations is not applicable to the Bank's type of business.

Summary of Significant Accounting Policies

Interest income

For all financial instruments measured at amortized cost and interest-bearing financial assets classified as FVOCI/AFS and financial assets at FVTPL, interest income or expense is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability. The calculation takes into account all contractual terms of the financial instrument (for example, prepayment options), includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the EIR, but not future credit losses.

The carrying amount of the financial asset or financial liability is adjusted if the Bank revises its estimates of payments or receipts. The adjusted carrying amount is calculated based on the original EIR and the change in carrying amount is recorded as 'Interest income'.

Service fees and commission income

Fees earned for the provision of services over a period of time are accrued over that period. These fees include fiduciary fees, credit-related fees and other service and management fees.

Interest expense

Interest expense for all interest-bearing financial liabilities are recognized in 'Interest expense' in the statement of income using the EIR of the financial liabilities to which they relate.

Changes in Accounting Policies and Disclosures

The accounting policies adopted in the preparation of the unaudited interim financial statements are consistent with those followed in the preparation of the audited annual financial statements as of and for the year ended December 31, 2017 except for the adoption of new standards and amendments effective as of January 1, 2018. The Bank has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The Bank applies PFRS 9 (2014), *Financial Instruments* and PFRS 15 *Revenue from Contracts with Customers*. As required by PAS 34, the nature and effect of these changes are disclosed below.

PFRS 9 Financial Instruments

The Bank has adopted PFRS 9 effective January 1, 2018. This was applied retrospectively for which adjustments have been made at the beginning balance of the annual reporting period to reflect PFRS 9 changes at the date of initial adoption. PFRS 9 replaces PAS 39, *Financial Instruments: Recognition and Measurement* and all previous versions of PFRS 9.

The Bank adopted the classification and measurement, impairment and hedge accounting requirements of the standard as follows:

Financial Instruments – Classification and Measurement

Classification of financial assets

Financial assets are classified in their entirety based on the contractual cash flows characteristics of the financial assets and the Bank's business model for managing financial assets. The Bank classifies its financial assets into the following measurement categories:

- financial assets measured at amortized cost;
- financial assets measured at fair value through other comprehensive income, where cumulative gains or losses previously recognized are reclassified to profit or loss;
- financial assets measured at fair value through other comprehensive income, where cumulative gains or losses previously recognized are not reclassified to profit or loss; and
- financial assets measured at fair value through profit or loss.

Contractual cash flows characteristics

If the financial asset is held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, the Bank assesses whether the cash flows from the financial asset represent solely payments of principal and interest (SPPI) on the principal amount outstanding. Instruments that do not pass this test are automatically classified at FVTPL.

In making this assessment, the Bank determines whether the contractual cash flows are consistent with a basic lending arrangement, i.e., interest includes consideration only for the time value of money, credit risk and other basic lending risks and costs associated with holding the financial asset for a particular period of time.

Business model

The Bank's business model is determined at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. The Bank's business model does not depend on management's intentions for an individual instrument, rather it refers to how it manages its financial assets in order to generate cash flows.

The Bank's business model determines whether cash flows will result from collecting contractual cash flows, selling financial assets or both. Relevant factors considered by the Bank in determining the business model for a group of financial assets include how the performance of the business model and the financial assets held within that business model are evaluated and reported to the Bank's key management personnel. The risks that affect the performance of the business model (and the financial assets held within that business model) and how these risks are managed and how managers of the business are compensated.

Financial assets at amortized cost

A financial asset is measured at amortized cost if (i) it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and (ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. These financial assets are initially recognized at fair value plus directly attributable transaction costs and subsequently measured at amortized cost using the Effective Interest Rate (EIR) method, less any impairment in value. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees and costs that are integral part of the EIR. The amortization is included in 'Interest Income' in the interim statement of income and is calculated by applying the EIR to the gross carrying amount of the financial asset, except for (i) purchased or originated credit-impaired financial assets and (ii) financial assets that have subsequently become credit-impaired, where, in both cases, the EIR is applied to the amortized cost of the financial asset. Losses arising from impairment are recognized in 'Provision for credit and impairment losses' in the unaudited interim statement of income.

Financial assets at fair value through other comprehensive income (FVOCI)

A financial asset is measured at FVOCI if (i) it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and (ii) its contractual terms give rise on the specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. These financial assets are initially recognized at fair value plus directly attributable transaction costs and subsequently measured at fair value. Gains and losses arising from changes in fair value are included in other comprehensive income within a separate component of equity. Impairment losses or reversals, interest income and foreign exchange gains and losses are recognized in profit and loss until the financial asset is derecognized. Upon derecognition, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss. This reflects the gain or loss that would have been recognized in profit or loss upon derecognition if the financial asset had been measured at amortized cost. Impairment is measured based on the expected credit loss (ECL) model.

The Bank may also make an irrevocable election to measure at FVOCI on initial recognition with investments in equity instruments that are neither held for trading nor contingent consideration recognized in a business combination in accordance with PFRS 9. Amounts recognized in OCI are not subsequently transferred to interim statement of income. However, the Bank may transfer the cumulative gain or loss within equity upon adoption date. Dividends on such investments are recognized in interim statements of income, unless the dividend clearly represents recovery of part of the cost of the investment.

Dividends are recognized in interim statements of income only when:

- the Bank's right to receive payment of the dividend is established
- it is probable that the economic benefits associated with the dividend will flow to the Bank; and
- the amount of the dividend can be measured reliably.

Document Classification: PUBLIC

Financial assets at fair value through profit or loss (FVTPL)

Financial assets are measured at FVTPL unless these are measured at amortized cost or at FVOCI. Included in this classification are equity and debt investments held for trading and debt instruments with contractual terms that do not represent solely payments of principal and interest. Financial assets held at FVTPL are initially recognized at fair value, with transaction costs recognized in the statement of income as incurred. Subsequently, they are measured at fair value and any gains or losses are recognized in the interim statement of income.

Additionally, even if the asset meets the amortized cost or the FVOCI criteria, the Bank may choose at initial recognition to designate the financial asset at FVTPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency (an accounting mismatch) that would otherwise arise from measuring financial assets on a different basis.

Trading gains or losses are calculated based on the results arising from trading activities of the Bank, including all gains and losses from changes in fair value for financial assets and financial liabilities at FVTPL, and all the gains and losses from disposal of debt instruments classified as FVOCI and investment securities at amortized cost.

Classification of financial liabilities

Financial liabilities are measured at amortized cost, except for the following:

- financial liabilities measured at fair value through profit or loss;
- financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the Bank retains continuing involvement;
- financial guarantee contracts;
- commitments to provide a loan at a below-market interest rate; and
- contingent consideration recognized by an acquirer in accordance with PFRS 13, *Business Combinations*.

Reclassifications of financial instruments

The Bank reclassifies its financial assets when, and only when, there is a change in the business model for managing the financial assets. Reclassifications shall be applied prospectively by the Bank and any previously recognized gains, losses or interest shall not be restated.

Impairment of Financial Assets

PFRS 9 requires the Bank to record ECL for all loans and other debt financial assets not classified as at FVTPL, together with loan commitments and financial guarantee contracts.

Incurred loss versus expected credit loss methodology

The application of ECL will significantly change the Bank's credit loss methodology and models. ECL represent credit losses that reflect an unbiased and probability-weighted amount which is determined by evaluating a range of possible outcomes, the time value of money and reasonable and supportable information about past events, current conditions and forecasts of future economic conditions. The objective of the new impairment standard is to record lifetime losses on all financial instruments which have experienced a significant increase in credit risk (SICR) since their initial recognition. As a result, ECL allowances will be measured at amounts equal to either (i) 12-month ECL or (ii) lifetime ECL for those financial instruments which have experienced a SICR since initial recognition (General Approach). The 12-month ECL is the portion of lifetime ECL that results from default events on a financial instrument that are possible within the 12 months after the reporting date. Lifetime ECL are credit losses that results from all possible default events over the expected life of a financial instrument. In comparison, the present incurred loss model recognizes lifetime credit losses only when there is objective evidence of impairment.

This document was downloaded from www.psbank.com.ph.

Duplication or reproduction is allowed.

Please do not modify its content.

Document Classification: PUBLIC

Staging assessment

For non-credit-impaired financial instruments:

- Stage 1 is comprised of all non-impaired financial instruments which have not experienced a SICR since initial recognition. The Bank recognizes a 12-month ECL for Stage 1 financial instruments.
- Stage 2 is comprised of all non-impaired financial instruments which have experienced a SICR since initial recognition. The Bank recognizes a lifetime ECL for Stage 2 financial instruments.

For credit-impaired financial instruments:

- Financial instruments are classified as Stage 3 when there is objective evidence of impairment as a result of one or more loss events that have occurred after initial recognition with a negative impact on the estimated future cash flows of a loan or a portfolio of loans. The ECL model requires that lifetime ECL be recognized for impaired financial instruments.

Definition of “default” and “cure”

The Bank defines a financial instrument as in default, which is fully aligned with the definition of credit impaired, in all cases when the borrower becomes 90 days past due on its contractual payments. As a part of a qualitative assessment of whether a customer is in default, the Bank also considers a variety of instances that may indicate unlikeliness to pay. When such events occur, the Bank carefully considers whether the event should result in treating the customer as defaulted. An instrument is considered to be no longer in default (i.e., to have cured) when it no longer meets any of the default criteria for an equivalent of a consecutive period of 180 days and has exhibited a satisfactory track record.

Credit risk at initial recognition

The Bank uses internal credit assessment and approvals at various levels to determine the credit risk of exposures at initial recognition. Assessment can be quantitative or qualitative and depends on the materiality of the facility or the complexity of the portfolio to be assessed.

Significant increase in credit risk

The criteria for determining whether credit risk has increased significantly vary by portfolio and include quantitative changes in probabilities of default and qualitative factors, including a backstop based on delinquency. The credit risk of a particular exposure is deemed to have increased significantly since initial recognition if, based on the Bank’s internal credit assessment, the borrower or counterparty is determined to require close monitoring or with well-defined credit weaknesses. For exposures without internal credit grades, if contractual payments are more than a specified days past due threshold, the credit risk is deemed to have increased significantly since initial recognition. Days past due are determined by counting the number of days since the earliest elapsed due date in respect of which full payment has not been received. Due dates are determined without considering any grace period that might be available to the borrower. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a SICR since initial recognition, the Bank shall revert to recognizing a 12-month ECL.

Restructuring

In certain circumstances, the Bank modifies the original terms and conditions of a credit exposure to form a new loan agreement or payment schedule. The modifications can be given depending on the borrower’s or counterparty’s current or expected financial difficulty. The modifications may include, but are not limited to, change in interest rate and terms, principal amount, maturity date, date and amount of periodic payments and accrual of interest and charges. Distressed restructuring with indications of unlikeliness to pay are categorized as impaired accounts and are moved to Stage 3.

ECL parameters and methodologies

ECL is a function of the probability of default (PD), exposure at default (EAD) and loss given default (LGD), with the timing of the loss also considered, and is estimated by incorporating forward-looking economic information and through the use of experienced credit judgment.

The PD represents the likelihood that a credit exposure will not be repaid and will go into default in either a 12-month horizon for Stage 1 or lifetime horizon for Stage 2. The PD for each individual instrument is modelled based on historic data and is estimated based on current market conditions and reasonable and supportable information about future economic conditions. The Bank segmented its credit exposures based on homogenous risk characteristics and developed a corresponding PD methodology for each portfolio. The PD methodology for each relevant portfolio is determined based on the underlying nature or characteristic of the portfolio, behavior of the accounts and materiality of the segment as compared to the total portfolio.

EAD is modelled on historic data and represents an estimate of the outstanding amount of credit exposure at the time a default may occur. For off-balance sheet and undrawn amounts, EAD includes an estimate of any further amounts to be drawn at the time of default. LGD is the amount that may not be recovered in the event of default and is modelled based on historical cash flow recovery and reasonable and supportable information about future economic conditions, where appropriate. LGD takes into consideration the amount and quality of any collateral held.

Economic overlays

The Bank incorporates economic overlays into both its assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL. A broad range of economic overlays are considered as economic inputs, such as GDP growth, inflation rates, unemployment rates, interest rates and BSP statistical indicators. The inputs and models used for calculating ECL may not always capture all characteristics of the market at the date of the financial statements. To reflect this, qualitative adjustments or overlays are incorporated in the ECL.

Hedge Accounting

The new hedge accounting model under PFRS 9 aims to simplify hedge accounting, align the accounting for hedge relationships more closely with an entity's risk management activities and permit hedge accounting to be applied more broadly to a greater variety of hedging instruments and risks eligible for hedge accounting. The Bank has assessed that the adoption of these amendments will not have any impact in the 2018 financial statements.

The Bank chose not to restate comparative figures as permitted by the transitional provisions of PFRS 9, thereby resulting in the following impact:

- Comparative information for prior periods will not be restated. The classification and measurement requirements previously applied in accordance with PAS 39 and disclosures required in PFRS 7, *Financial Instruments: Disclosures* will be retained for the periods. Accordingly, the information presented for 2017 does not reflect the requirements of PFRS 9.
- The difference between the previous carrying amount and the carrying amount at the beginning of the annual period that includes the date of initial application will be recognized in the opening Surplus or other component of equity, as appropriate.
- As comparative information is not restated, the Bank is not required to provide a third statement of financial information at the beginning of the earliest comparative period in accordance with PAS 1, *Presentation of Financial Statements*.

The impact of PFRS 9 adoption in the statement of condition as of January 1, 2018 is as follows:

	Increase (Decrease)
Assets	
Financial assets at FVTPL	₱1,173,070,399
Financial assets at FVOCI	12,151,053,847
Hold-to-collect investments (HTC)	33,443,649,555
Available-for-sale investments (AFS)	(16,925,485,941)
Held-to-maturity investments (HTM)	(29,473,724,384)
Loans and receivables	469,097,615
Deferred tax assets	(141,385,883)
	₱696,275,208
Equity	
Surplus	₱353,911,722
Net unrealized losses on AFS investments	411,510,218
Net unrealized losses on financial assets at FVOCI	(69,146,732)
	₱696,275,208

The table below presents a reconciliation of the prior period's closing impairment allowance measured in accordance with PAS 39 to the opening impairment allowance determined in accordance with PFRS 9 as of January 1, 2018:

Measurement category	Impairment allowance under PAS 39	Transition adjustment	Impairment allowance under PFRS 9
Receivables from customers	₱3,975,499,553	(₱326,988,266)	₱3,648,511,287
Other receivables*	671,458,562	(142,109,349)	529,349,213
	₱4,646,958,115	(₱469,097,615)	₱4,177,860,500

*Other receivables include accounts receivables, accrued interest receivables, sales contract receivables and bills purchased

The impact on the Bank's surplus and other equity upon adoption of PFRS 9 are as follows:

Net unrealized market losses	
Opening balance under PAS 39	(₱411,510,218)
Reclassification from AFS investments to investment securities at amortized cost	299,816,341
Reclassification from HTM investments to financial assets at FVOCI	44,735,810
Derecognition of allowance for impairment losses on AFS equity securities	(2,188,665)
Opening balance under PFRS 9	(₱69,146,732)
Surplus	
Opening balance under PAS 39	₱17,097,046,504
Reclassification from financial assets at FVTPL to hold-to-collect investments	24,011,325
ECL adjustment	329,900,397
Opening balance under PFRS 9	₱17,450,958,226

The Bank has applied its existing governance framework to ensure appropriate controls and validations are in place over key processes and judgments implementing PFRS 9.

PFRS 15, Revenue from Contracts with Customers

PFRS 15 establishes a new five-step model that will apply to revenue arising from contracts with customers. Under PFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in PFRS 15 provide a more structured approach to measuring and recognizing revenue.

The Bank applied PFRS 15 on its revenue arrangements (e.g., service charges, trust fees and commissions) that are scoped in the new standard. In addition, the recognition and measurement requirement in PFRS 15 also apply to gains and losses on disposals of nonfinancial assets (such as items of property and equipment and intangible assets), when the disposal is not in the ordinary course of business. The Bank has assessed that the effect of these changes is immaterial.

Amendments to PFRS 2, Share-based Payment, Classification and Measurement of Share-based Payment Transactions

The amendments to PFRS 2 address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a share-based payment transaction with net settlement features for withholding tax obligations; and the accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash settled to equity settled.

On adoption, entities are required to apply the amendments without restating prior periods, but retrospective application is permitted if elected for all three amendments and if other criteria are met. Early application of the amendments is permitted.

The amendments are not applicable to the Bank since it does not have share-based payment transactions.

Amendments to PFRS 4, Insurance Contracts, Applying PFRS 9, Financial Instruments, with PFRS 4

The amendments address concerns arising from implementing PFRS 9, the new financial instruments standard before implementing the forthcoming insurance contracts standard. They allow entities to choose between the overlay approach and the deferral approach to deal with the transitional challenges. The overlay approach gives all entities that issue insurance contracts the option to recognize in other comprehensive income, rather than profit or loss, the volatility that could arise when PFRS 9 is applied before the new insurance contracts standard is issued. On the other hand, the deferral approach gives entities whose activities are predominantly connected with insurance an optional temporary exemption from applying PFRS 9 until the earlier of application of the forthcoming insurance contracts standard or January 1, 2021.

The overlay approach and the deferral approach will only be available to an entity if it has not previously applied PFRS 9.

The amendments are not applicable to the Bank since it does not have activities that are predominantly connected with insurance or issue insurance contracts.

Amendments to PAS 28, Measuring an Associate or Joint Venture at Fair Value (Part of Annual Improvements to PFRSs 2014 - 2016 Cycle)

The amendments clarify that an entity that is a venture capital organization, or other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and joint ventures at fair value through profit or loss. They also clarify that if an entity that

Document Classification: PUBLIC

is not itself an investment entity has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture, at the later of the date on which (a) the investment entity associate or joint venture is initially recognized; (b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent. The amendments should be applied retrospectively, with earlier application permitted.

The Bank has assessed that the effect of these amendments is immaterial.

Amendments to PAS 40, Investment Property, Transfers of Investment Property

The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use. The amendments should be applied prospectively to changes in use that occur on or after the beginning of the annual reporting period in which the entity first applies the amendments. Retrospective application is only permitted if this is possible without the use of hindsight.

Philippine Interpretation IFRIC-22, Foreign Currency Transactions and Advance Consideration

The interpretation clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognizes the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine a date of the transactions for each payment or receipt of advance consideration. Entities may apply the amendments on a fully retrospective basis. Alternatively, an entity may apply the interpretation prospectively to all assets, expenses and income in its scope that are initially recognized on or after the beginning of the reporting period in which the entity first applies the interpretation or the beginning of a prior reporting period presented as comparative information in the financial statements of the reporting period in which the entity first applies the interpretation.

3. Fair Value Measurement

The following describes the methodologies and assumptions used to determine the fair values of financial instruments:

Cash and other cash items, due from BSP, due from other banks, interbank loans receivable and SPURA, accounts receivable, accrued interest receivable, bills purchased, RCOCI, shortages, and petty cash fund - Carrying amounts approximate fair values due to the relatively short-term maturities of these assets.

Debt investments - Fair values are generally based on quoted market prices. If the market prices are not readily available, fair values are estimated using either values obtained from independent parties offering pricing services, or adjusted quoted market prices of comparable investments or using the discounted cash flow methodology, using rates currently available for debt on similar terms, credit risk and remaining maturities.

Quoted FVOCI/AFS equity securities - Fair values are based on quoted prices published in markets.

Unquoted FVOCI/AFS equity securities - The club shares and preferred shares classified as financial assets at FVOCI were valued using valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value.

Derivative instruments (included under FVTPL) – The Bank’s derivative instruments pertain to foreign exchange contracts. These are valued using valuation techniques using market observable inputs including foreign exchange rates. Discounted cash flow model is applied. This valuation model discounts each cash flow of the derivatives at a rate that is dependent on the tenor of the cash flow.

Receivable from customers and other receivables except accounts receivable, accrued interest receivable and bills purchased - Fair values are estimated using the discounted cash flow methodology, using the Bank’s current lending rates for similar types of loans.

Demand deposits, savings deposits, bills payable, treasurer’s, cashier’s and manager’s checks, accrued interest payable, accounts payable, bills purchased-contra, other credits, due to the Treasurer of the Philippines, deposits for keys-SDB, payment orders payable and overages - Carrying amounts approximate fair values due to either the demand nature or the relatively short-term maturities of these liabilities.

Subordinated notes, long-term negotiable certificates of time deposits (LTNCTDs) and time deposits- Fair values are estimated using the discounted cash flow methodology using the Bank’s borrowing rates for similar borrowings with maturities consistent with those remaining for the liability being valued.

Investment properties

Fair values of the investment properties have been determined based on valuations performed by independent external and in-house appraisers using valuation technique with significant inputs that are not based on observable market data (Level 3). The valuation of investment properties was based on the Sales Comparison Approach and considered recent sales similar or substitute properties in the same areas where the investment properties are located, taking into account the economic conditions prevailing at the time of the valuation. Other factors considered were the location and shape of the properties, environmental issues, development controls such as the height restriction, building coverage and floor area ratio restrictions among others. Other significant unobservable inputs include shape, location, time element, discount and corner influence. The fair value of investment properties is based on its highest and best use, which is its current use.

The following tables summarize the carrying amount and fair values of the financial assets and liabilities, analyzed based on the hierarchy described for determining and disclosing the fair value of financial instruments by valuation technique (in thousands):

	September 30, 2018 (Unaudited)

There have been no transfers between levels in September 30, 2018 and December 31, 2017.

As of September 30, 2018 and December 31, 2017, the Bank determined the market value of its warrants to be zero due to the absence of an active market for the Bank's ROP warrants, as evidenced by the unavailability of quoted market prices.

4. Financial Risk Management Policies and Objectives

Compared with December 31, 2017, there have been no changes in the financial risk exposures that materially affect the financial statements of the Bank as of September 30, 2018. The Bank has exposure to the following risks from its use of financial instruments:

- Credit risk
- Market risk
- Liquidity risk

Risk Management Framework

Organization risk management structure continues to be a top-down organization, with the Board of Directors (BOD) at the helm of all major initiatives. The BOD approves broad risk management strategies and policies and ensures that risk management initiatives and activities are consistent with the Bank's overall objectives. The BOD appoints the members of the Risk Oversight Committee (ROC).

The ROC oversees the system of limits to discretionary authority that the BOD delegates to the management and ensures that the system remains effective, the limits are observed, and that immediate corrective actions are taken whenever limits are breached.

The risk management framework aims to maintain a balance between the nature of the Bank's businesses and the risk appetite of the BOD. Accordingly, policies and procedures are reviewed regularly and revised as the organization grows and as financial markets evolve. New policies or proposed changes in current policies are presented to the ROC and the BOD for approval.

The BOD is also supported by other Board and management-level committees such as the Corporate Governance, Audit, Executive, Credit, Assets and Liabilities Committees, to name a few.

a. Credit risk

Credit risk is the risk that a counterparty will not settle its obligations in accordance with the agreed terms.

The Bank's lending business follows credit policy guidelines set by the BOD, ROC and Risk Management Office (RMO). These policies serve as minimum standards for extending credit. The people engaged in the credit process are required to understand and adhere to these policies.

Product manuals are in place for all loans and deposit products that actually or potentially expose the Bank to all types of risks that may result in financial or reputational losses. They define the product and the risks associated with the product plus the corresponding risk-mitigating controls. They embody the business plans and define the business parameters within which the product or activity is to be performed.

The system of checks around extension of credit includes approval by at least two credit approvers through the Credit Committee (CreCom), Executive Committee (ExCom) or BOD. The ROC reviews the business strategies and ensures that revenue-generating activities are consistent with the risk tolerance and standards of the Bank. The Internal Audit Group conducts regular audit across all functional units. The BOD, through the ExCom, CreCom and ROC, ensure that sound credit policies and practices are followed through all the business segments.

The Bank uses credit scoring models and decision systems for consumer loans as approved by the BOD. Borrower risk rating model and facility risk rating model, on the other hand, are available for SME loans, and supported with qualitative evaluation. Regular monitoring of all these tools and their performance is carried out to ensure that they remain effective.

The Bank conducts regular loan review through the ROC, with the support of the RMO. The Bank examines its exposures, credit risk ratios, provisions and customer segments. The Bank's unique customer identification and unique group identification methodology enables it to aggregate credit exposures by customer or group of borrowers. Aggregate exposures of at least ₱100.0 million are put on a special monitoring.

The ROC assesses the adequacy of provisions for credit losses regularly. The Bank's automated loan grading system enables the Bank to set up provision per account. The Bank also performs impairment analyses on loans and receivables, whether on an individual or collective basis, in accordance with PFRS.

The Bank carries out stress testing analyses using Board-approved statistical models relating the default trends to macroeconomic indicators.

Concentration of risk is managed by borrower, by group of borrowers, by geographical region and by industry sector. As of September 30, 2018 and December 31, 2017, the maximum credit exposure to any borrower amounted to ₱1.9 billion, before taking into account any collateral or other credit enhancement.

In 2017, the Bank effected the necessary adjustments to its credit risk management systems and processes in transition to the PFRS 9 as well as the Amended Rules on Past Due and Non-Performing Loans per BSP Circular No. 941, both effective January 1, 2018. Credit risk management was likewise strengthened in preparation for the implementation of expected credit loss models which will allow the Bank to shift from the incurred loss methods for calculating allowance for losses to forward-looking loss provisioning. Further, credit scoring models were updated to optimize returns by growing profitable lending segments and exploring new markets whilst mitigating the risks.

b. Market risk

Market risk is the risk to earnings and capital arising from changes in the value of traded portfolios of financial instruments (trading market risk) and from movements in interest rates (interest rate risk). The Bank's market risk originates primarily from holding peso and dollar-denominated debt securities. The Bank utilizes Value-at-Risk (VaR) to measure and manage market risk exposure.

VaR estimates the potential decline in the value of a portfolio, under normal market conditions, for a given confidence level over a specified holding period.

Trading activities

The Bank's trading portfolios are currently composed of peso and dollar-denominated sovereign debt securities that are marked-to-market daily. The Bank also uses VaR to measure the extent of market risk exposure arising from these portfolios.

VaR is a statistical measure that calculates the maximum potential loss from a portfolio over a holding period, within a given confidence level. The Bank's current VaR model uses historical simulation for Peso and USD HFT portfolios with confidence level at 99.00% and a 1 day holding period. It utilizes a 260-day rolling data most recently observed daily percentage changes in price for each asset class in its portfolio.

The Bank has established limits, VaR, stop loss limits and loss triggers, for its trading portfolios. Daily profit or losses of the trading portfolios are closely monitored against loss triggers and stop-loss limits.

Responsibility for managing the Bank's trading market risk remains with the ROC. With the support of RMO, the ROC recommends to the BOD changes in market risk limits, approving authorities and other activities that need special consideration.

Non-trading activities

Interest Rate Risk

The Bank follows a prudent policy on managing its assets and liabilities to ensure that fluctuations in interest rates are kept within acceptable limits.

One method by which the Bank measures the sensitivity of its assets and liabilities to interest rate fluctuations is by way of "gap" analysis. An interest rate gap report is prepared by classifying all assets and liabilities into various time period categories according to contracted maturities or anticipated repricing dates, whichever is earlier. The difference in the amount of assets and liabilities maturing or being repriced in any time period category would then give the Bank an indication of the extent to which it is exposed to the risk of potential changes in net interest income.

The Bank uses sensitivity gap model to estimate Earnings-at-Risk (EaR) should interest rates move against its interest rate profile. The Bank's EaR limits are based on a percentage of the Bank's projected earnings for the year and capital. The Bank also performs stress-testing to measure the impact of various scenarios based on interest rate volatility and shift in the yield curve. The EAR and stress testing reports are prepared on a monthly basis.

Foreign Currency Risk

Foreign currency risk is the risk of an investment's value changing due to an adverse movement in currency exchange rates. It arises due to a mismatch in the Bank's foreign currency assets and liabilities.

The Bank's policy is to maintain foreign currency exposure within the approved position, stop loss, loss trigger, VaR limits and to remain within existing regulatory guidelines. To compute for VaR, the Bank uses historical simulation model for USD/PHP FX position, with confidence level at 99.00% and a 1 day holding period.

c. *Liquidity Risk*

The Bank's policy on liquidity management emphasizes on three elements of liquidity, namely, cashflow management, ability to borrow in the interbank market, and maintenance of a stock of high quality liquid assets. The Bank's objective in liquidity management is to ensure that the Bank has sufficient liquidity to meet obligations under normal and adverse circumstances and is able to take advantage of lending and investment opportunities as they arise.

The main tool that the Bank uses for monitoring its liquidity is the Maximum Cumulative Outflow (MCO) reports, which is also called liquidity gap or maturity matching gap reports. The liquidity gap report shows the projected cash flows of assets and liabilities representing estimated funding sources and requirements under normal conditions, which also forms the basis for the Bank's Contingency Funding Plan (CFP). The CFP projects the Bank's funding position during both temporary and long-term liquidity changes to help evaluate the Bank's funding needs and strategies under changing market conditions.

5. **Investment Securities**

Financial Assets at Fair Value through Profit or Loss

Financial assets at FVTPL consist of the following:

	September 30, 2018 (Unaudited)	December 31, 2017 (Audited)
Debt securities	₱31,002	₱293,076,128
Derivative instruments	5,262,446	73,159,561
	₱5,293,448	₱366,235,689

As of September 30, 2018 and December 31, 2017, the Bank has financial liabilities at FVTPL amounting to ₱29.6 million and nil, respectively.

Net movements of derivative instruments are as follows:

	September 30, 2018 (Unaudited)	December 31, 2017 (Audited)
Balance at beginning of year	₱73,159,561	(₱64,817,467)
Fair value changes during the year	20,320,697	244,579,043
Settled transactions	(117,848,613)	(106,602,015)
Balance at end of period	(₱24,368,355)	₱73,159,561

Financial Assets at Fair Value through Other Comprehensive Income/Available-for-Sale Investments
Financial assets at FVOCI/AFS investments consist of the following:

	September 30, 2018 (Unaudited)	December 31, 2017 (Audited)
Debt securities - AFS		
Government	₱-	₱10,762,411,432
Private	-	6,153,071,645

Less allowance for impairment losses	-	2,188,665
	₱11,510,143,687	₱16,925,485,941

Movements in the net unrealized loss on AFS investments follow:

	September 30, 2018 (Unaudited)	December 31, 2017 (Audited)
Balance at beginning of year (audited)	(₱411,510,218)	(₱842,908,364)
Effect of the adoption of PFRS 9	342,363,486	-
Balance at beginning of year, as restated	(69,146,732)	(₱842,908,364)
Loss from sale of AFS investments		
realized in profit or loss	-	49,756,366
Loss from sale of financial assets at FVOCI		
realized in profit or loss	81,067,979	-
Changes in fair values of AFS investments	-	381,641,780
Changes in fair values of financial assets at FVOCI	(769,909,759)	-
	(688,841,780)	431,398,146
Balance at end of year	(₱757,988,512)	(₱411,510,218)

Hold-to-Collect/Held-to-Maturity Investments

Hold-to-Collect/HTM investments consist of the following:

	September 30, 2018 (Unaudited)	December 31, 2017 (Audited)
Debt securities - HTM		
Government	₱-	₱25,460,777,587
Private	-	4,012,946,797
Debt securities - HTC		
Government	32,517,868,144	-
Private	3,633,750,664	-
	₱36,151,618,808	₱29,473,724,384

As of September 30, 2018 and December 31, 2017, the carrying value of hold-to-collect investments/HTM investments in the form of government bonds pledged by the Bank as collateral for bills payable amounted to nil and ₱1.0 billion, respectively.

Interest income on investment securities consists of:

	Nine months ended September 30	
	2018 (Unaudited)	2017 (Unaudited)
Interest income recognized using EIR		
Hold-to-collect investments	₱1,065,747,018	₱–
Financial assets at FVOCI	420,853,955	–
HTM investments	–	857,310,511
AFS investments	–	438,666,963
	1,486,600,973	1,295,977,474
Interest income recognized using nominal interest rates		
Financial assets at FVTPL	9,088,348	44,052,460
	9,088,348	44,052,460
	₱1,495,689,321	₱1,340,029,934

Peso-denominated financial assets at FVOCI/AFS investments bear nominal annual interest rates ranging from 4.00% to 8.13% and 2.13% to 8.13% for the nine months ended September 30, 2018 and 2017, respectively, while foreign currency-denominated financial assets at FVOCI/AFS investments bear nominal annual interest rates ranging from 3.00% to 9.50% and 3.70% to 9.50% for the nine months ended September 30, 2018 and 2017, respectively.

Effective interest rates on financial assets at FVOCI/AFS investments for the nine months ended September 30, 2018 and 2017 range from 3.05% to 9.96% and 3.79% to 4.20%, respectively.

On the other hand, peso-denominated HTC/HTM investments bear effective interest rates ranging from 3.43% to 5.61% and 3.38% to 5.61% for the nine months ended September 30, 2018 and 2017, respectively, while foreign currency-denominated investment securities at amortized cost/HTM investments bear effective interest rates ranging from 3.00% to 4.88% and 2.46% to 4.96% for the nine months ended September 30, 2018 and 2017, respectively.

Trading and securities losses - net on investment securities consist of:

	Nine months ended September 30	
	2018 (Unaudited)	2017 (Unaudited)
FVTPL investments		
Realized	(₱24,077,002)	(₱22,489,682)
Unrealized market valuation gain (loss)	7,066,667	17,709,991
	(17,010,335)	(4,779,691)
AFS investments	–	(50,269,827)
Financial assets at FVOCI	(81,067,979)	–
	(₱98,078,314)	(₱55,049,518)

6. Loans and Receivables

This account consists of:

	September 30, 2018 (Unaudited)	December 31, 2017 (Audited)
Receivables from customers		
Consumption loans	₱88,962,936,964	₱84,276,599,224

Entertainment, amusement and recreation (EAR)	1,670,497	2,276,939
Donations and charitable contributions	6,705,000	10,184,000
Others	8,436,943	25,353,958
	₱1,634,175,974	₱1,632,028,904

Insurance expense includes premiums paid to the Philippine Deposit Insurance Corporation (PDIC) amounting to ₱297.6 million and ₱271.1 million for the nine months ended September 30, 2018 and 2017, respectively.

Other expenses include sponsorship expenses, home free loan expenses, appraisal fees and notarial fees.

15. Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. The Bank's related parties are as follows:

- Bank's Directors, Officers, Stockholders and their Related Interests (DOSRI) as defined per BSP's existing DOSRI rules and regulations;
- Close Family Members (i.e. 2nd degree relatives) of the Bank's Directors, Officers with rank of SVP and up and Individual Substantial Stockholders;
- Bank's Subsidiaries and Affiliates as defined per BSP's existing rules and regulations on lending to subsidiaries and affiliates;
- Any party that the Bank exerts direct or indirect control over or that exerts direct or indirect control over the Bank;
- Subsidiaries, Affiliates and Special Purpose Entities (SPEs) of any party that the Bank exerts direct or indirect control over or that exerts direct or indirect control over the Bank;
- Corresponding Persons in Affiliated Companies as defined in the Bank's Related Party Transaction (RPT) Policy; and
- Any natural person or juridical entity whose interest may pose potential conflict with the Bank's interest.

Transactions with the Retirement Plan

On December 20, 2012, the SEC issued Memorandum Circular No. 12 providing for guidelines on the disclosure of transactions with retirement benefit funds. Under said circular, a reporting entity shall disclose information about any transaction with a related party (retirement fund, in this case) and outstanding balances necessary for an understanding of the potential effect of the relationship on the financial statements.

Under PFRS, certain post-employment benefit plans are considered as related parties. The Bank has business relationships with its retirement plan pursuant to which it provides trust and management services to the said plan. The retirement plan of the employees of the Bank is being managed and maintained by the Trust and Investment Division of the Bank. The total fair value of the retirement fund as of September 30, 2018 and December 31, 2017 amounted to ₱2.2 billion and ₱1.9 billion, respectively.

The following table shows the amount of outstanding balances of related party transactions of the Bank with the retirement plan of the employees as of September 30, 2018 and December 31, 2017:

Related Party	Nature of Transaction	September 30, 2018 (Unaudited)	
		Statement of Condition	Statement of Income
Philippine Savings Bank	Investment in Money Market Fund*	₱52,894,188	
	Income from Unit Investment Trust Fund (UITF)		₱683,775
	Savings deposit	234,950	
	Interest income		5,971
First Metro ETF	Equity investment	19,544,327	

*Includes fair value gains of ₱0.3 million

Related Party	Nature of Transaction	December 31, 2017 (Audited)	
		Elements of Transaction	
		Statement of Condition	Statement of Income
Philippine Savings Bank	Savings Deposit	₱684	
	Investment in Money Market Fund*	66,781,376	
	Loss on sale of equity securities		₱10,040,000
	Income from Unit Investment Trust Fund (UITF)		880,008
	Interest income		7,867
First Metro ETF	Equity investment	9,349,047	
*Includes fair value gains of ₱0.2 million			

Transactions relating to the Bank's retirement plan are approved by its Retirement Committee. The voting right over the investments in the Bank's capital stocks is exercised by a member of the Retirement Committee as approved by all members of the Retirement Committee, whom are senior officers of the Bank.

Remunerations of Directors and Other Key Management Personnel

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Bank, directly or indirectly. The Bank considers the members of the Management Committee to constitute key management personnel for purposes of PAS 24, *Related Party Disclosures*.

Total remunerations of key management personnel (covering assistant vice presidents and up) included under 'Compensation and fringe benefits' in the statements of income are as follows:

	September 30, 2018 (Unaudited)	September 30, 2017 (Unaudited)
Short-term employee benefits	₱204,657,012	₱176,804,884
Post-employment pension benefits	29,937,643	7,858,066
	₱234,594,655	₱184,662,950

Short-term employee benefits include salaries and other non-monetary benefits.

Remunerations given to directors, as approved by the Board Remuneration Committee, amounted to ₱12.9 million and ₱11.8 million for the nine months ended September 30, 2018 and 2017, respectively.

The Bank also provides banking services to Directors and other key management personnel and persons connected to them.

Other Related Party Transactions

Regulatory Reporting

As required by the BSP, the Bank discloses loan transactions with investees and with certain directors, officers, stockholders and related interests (DOSRI). Under the Bank's policy, these loans and other transactions are made substantially on the same terms as with other individuals and businesses of comparable risks and are subject of prior Board approval and entail BSP reportorial requirements. Existing banking regulations limit the amount of individual loans to DOSRI, 70.00% of which must be secured, to the total of their respective unencumbered deposits and book value of their paid-in capital contribution in the lending Bank. In the aggregate, loans to DOSRI generally should not exceed total equity or 15.00% of total loan portfolio, whichever is lower.

As of September 30, 2018 and December 31, 2017, the Bank's credit exposures to DOSRI are within the said regulatory limits:

	September 30, 2018 (Unaudited)	December 31, 2017 (Audited)
Total outstanding DOSRI accounts	₱1,736,971,425	₱1,201,916,069
Percent of DOSRI accounts granted under regulations existing prior to BSP Circular No. 423 to total loans	1.13%	0.82%
Percent of new DOSRI accounts granted under BSP Circular No. 423 to total loans	-	-
Percent of unsecured DOSRI accounts to total DOSRI accounts	13.07%	19.94%
Percent of past due DOSRI accounts to total DOSRI accounts	0.00%	0.00%
Percent of nonperforming DOSRI accounts to total DOSRI accounts	0.00%	0.00%

Total interest income from DOSRI loans amounted to ₱4.3 million and ₱5.8 million in September 30, 2018 and December 31, 2017, respectively.

16. Events that will Trigger Direct or Contingent Financial Obligation

In the normal course of the Bank's operations, there are various outstanding commitments and contingent liabilities such as guarantees and commitments to extend credit, which are part of its lending and related businesses but due to their nature, may not be reflected in the accompanying financial statements. The Bank, however, does not anticipate significant losses as a result of these transactions.

Also, several suit and claims, in behalf or against the Bank in relation to its operations, including labor-related cases are pending before the courts and quasi-judicial bodies. In the opinion of management, these suits and claims, if decided adversely, will not involve an amount having a material effect on the financial statements.

Material Off-Balance Sheet Transactions, Arrangements and Obligations

The following is a summary of the Bank's commitments and contingent liabilities at their equivalent peso contractual amounts:

	September 30, 2018 (Unaudited)	December 31, 2017 (Audited)
Trust department accounts	₱6,082,561,253	₱5,596,171,367
Swap forward exchange - sold	2,686,599,169	2,653,256,032
Forward Exchange Sold	378,140,000	-
Stand-by credit lines	74,054,053	81,664,196
Spot Foreign Exchange Contracts - sold	54,020,000	-
Late deposits/payments received	9,521,669	5,625,757
Items held for safekeeping	279,814	1,298,438
Others	304,342	519,297

None of these off-balance sheet transactions, arising in the ordinary course, either individually or in the aggregate, are expected to have a material adverse effect on the Bank's financial condition.

17. Subsequent Events

The Board of Directors of the Bank in its meeting held on October 15, 2018 passed a resolution approving the following:

- Declaration of a 7.5% Regular Cash Dividend for the third quarter of 2018 amounting to ₱180.19 million equivalent to ₱0.75 per share. This will be payable to all common stockholders as of the Record Date of October 30, 2018 and will be paid no later than the Payment Date of November 14, 2018.
- Approval of Stock Rights Offering SRO by way of issuance of up to a maximum of 184,747,509 common shares which is equivalent to the remaining unissued portion of the authorized capital stock or approximately ₱8.0 billion in fresh capital. This was noted by the BSP with the issuance of a letter of no objection to the Rights Issue on October 19, 2018. The SRO issuance shall be further subject to other regulatory approvals as well as market and other conditions.

18. Other Disclosures

- a) There are no unusual items of asset, liability, equity, net income or cash flow.
- b) No material items of changes were noted in the comparison of actual results with estimated amounts.
- c) Details of the Bank's dividend distributions as approved by the Bank's BOD and the BSP follow:

On October 9, 2015, the Bangko Sentral ng Pilipinas (BSP) issued Circular No. 888, Amendments to Regulations on Dividend Declaration and Interest Payments on Tier 1 Capital Instruments, which liberalized said rules in the sense that prior BSP verification and approval is no longer required except for banks with major supervisory concerns. However, banks are bound to comply with the provisions of Section X136 of the Manual of Regulations for Banks (MORB) and its subsections, including the submission of documentary requirements under Subsection X136.4 of the MORB, otherwise, banks, subsequently found to have violated the provisions on dividend declaration or have falsely certified/submitted misleading statements shall be reverted to the prior

BSP verification wherein the bank can only make an announcement or communication on the declaration of the dividends or payment of dividends thereon upon receipt of BSP advice thereof. The Bank is compliant with the said circular.

The computation of surplus available for dividend declaration in accordance with SEC Memorandum Circular No. 11 issued in December 2008 differs to a certain extent from the computation following BSP guidelines.

In compliance with BSP regulations, 10.00% of the Bank's profit from trust business is appropriated to surplus reserves. This annual appropriation is required until the surplus reserves for trust business equals 20.00% of the Bank's authorized capital stock.

A portion of the surplus corresponding to the accumulated net earnings of a joint venture is not available for dividend declaration until receipt of cash dividends from the investee.

The Bank's stock price closed at ₱84.00 per share as of September 30, 2018.

Date of declaration	Cash Dividends		Date of BSP approval	Record date	Payment date

ITEM II. MANAGEMENT DISCUSSION AND ANALYSIS**A. Analysis of Statements of Condition****September 30, 2018 (Unaudited) and December 31, 2017 (Audited)**

The Bank's Total Assets as of September 30, 2018 was recorded at ₱231.09 billion this was 3.48% better than the ₱223.32 billion level in December 2017. The significant increase in assets was due to the continued growth in its loan and investment portfolios.

Loans and Receivables, net of allowance and unearned interest and discounts representing 65.94% of total assets, stood at ₱152.37 billion. This was ₱7.41 billion higher than the December 2017 level of ₱144.96 billion. Mortgage and Auto Loans rose by 5.56% and 5.07%, respectively.

Cash and Other Cash Items was higher by 5.38% to ₱ 2.74 billion as of September 30, 2018 from ₱2.60 billion. Due from Bangko Sentral ng Pilipinas, representing 6.20% of total assets slightly decreased to ₱14.33 billion from ₱15.27 billion in December 2017 while Due from other Banks increased by ₱114.67 million to ₱1.62 billion. On the other hand, Interbank Loans Receivable and Securities Purchased under Resale Agreements as of September 30, 2018 grew by 5.86% or ₱107.98 million to ₱1.95 billion from ₱1.84 billion in December 2017.

As of September 30, 2018, Hold-to-Collect Investments representing 15.64% of total assets was recorded at ₱36.15 billion. Meanwhile, Held-to-Maturity Investments stood at ₱29.47 billion as of December 31, 2017.

On the other hand, Financial Assets at Fair Value through Other Comprehensive Income representing 4.98% of total assets amounted to ₱11.51 billion as of September 30, 2018. Available-for-Sale Investments was recorded at ₱16.93 billion as of December 31, 2017.

Financial Assets at Fair Value through Profit or Loss (FVTPL) stood at ₱5.29 million as of September 30, 2018 under PFRS 9.

These investment securities represent 20.63% of total assets as of September 30, 2018.

As a result of adoption of the classification and measurement requirements of PFRS 9 effective January 01, 2018, the Bank classified debt securities held under AFS investments as of December 31, 2017 as either at amortized cost for securities belonging to portfolios managed under HTC business model or at FVOCI belonging to portfolios managed under a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. On the other hand, debt securities held under HTM investments as of December 31, 2017, the Bank classified them as either HTC business model, at FVOCI or at FVTPL.

Investment in joint venture went up by 8.99% or ₱54.57 million to ₱661.74 million from ₱607.16 million in December 2017, as the Bank recognized its share in the net earnings of Sumisho Motor Finance Corporation (SMFC), a joint venture between PSBank and Sumitomo Corporation.

On August 9, 2017, the Bank signed a Sale and Purchase Agreement (“SPA”) to sell 2.0 million shares or 10.00% ownership in SMFC to GT Capital Holdings, Inc. (GT Capital), a related party, for ₱190.0 million or ₱95.0 per share. The price of the transaction was based on an independent valuation report which was subjected to a third party fairness opinion.

As a result of the sale, the Bank’s ownership interest in SMFC was reduced from 40.00% to 30.00%.

Investment Properties went up to ₱4.09 billion as of September 2018 from ₱3.93 billion in December 2017 due to the foreclosure of real estate properties. Property and Equipment decreased by ₱187.56 million to ₱2.29 billion as of September 2018 due to current year’s depreciation and amortization of leasehold rights.

Deferred Tax Asset went down by 13.85% or ₱198.01 million to ₱1.23 billion versus ₱1.43 billion in December 2017. Goodwill and Other Intangibles reflected 5.02% decrease or ₱35.88 million to ₱679.05 million from ₱714.92 million in December 2017. Meanwhile, Other Assets increased to ₱1.45 billion from the ₱1.22 billion level in December 2017. This was mainly due to the increase in prepaid expense account.

The Bank’s deposit level, comprising 95.39% of total liabilities, improved by 4.63% or ₱8.75 billion to ₱197.66 billion from ₱188.91 billion as of December 2017. The increase came from CASA of ₱3.85 billion and LTNCTD of ₱5.08 billion.

In August 2018, the Bank successfully issued Long Term Negotiable Certificate of Time Deposits (LTNCTD) with an aggregate principal amount of ₱5.08 billion due on February 9, 2024, with fixed interest rate of 5.0% per annum.

As September 30, 2018, the total Tier II Notes of the Bank amounted to ₱2.98 billion. The Tier II Notes issued in May 2014 qualified as Tier II capital in the BSP’s revised risk-based capital adequacy framework in line with BASEL III standards. The issuance has a loss absorption feature to conform with BASEL III requirements. PSBank has an issuer rating of PRS Aaa (corp.) from Philratings.

Treasurer’s, Cashier’s and Manager’s Checks decreased to ₱1.47 billion from ₱2.21 billion in December 2017. Accrued Taxes, Interest and Other Expenses was up by ₱34.89 million to ₱1.69 billion in September 2018 from ₱1.66 billion as of December 31, 2017. Income Tax Payable as of September 2018 was at ₱79.47 million. This represents an accrual for the current quarter which is due for remittance on or before November 29, 2018. Bills Payable went down by ₱1.22 billion to ₱270.10 million as of September 2018 from ₱1.49 billion in December 2017 while Financial Liabilities at FVPL stood at ₱29.63 million. Other Liabilities was posted at ₱3.02 billion from ₱3.67 billion as of year-end 2017.

The Bank’s Equity stood at ₱23.88 billion, 6.62% higher than the end-December 2017 level of ₱22.39 billion mainly due to the Net Income for the three quarters of 2018 and effect of the adoption of PFRS 9.

As of September 2018, Capital Adequacy Ratio (CAR) was at 13.79%. This is above the minimum regulatory requirement of 10%. The Bank recorded gains on ‘Cumulative Translation Adjustment’ under equity amounting to ₱6.06 million, versus December 2017 of ₱4.08 million loss.

B. Discussion of Results of Operations

For the nine months-ended September 30, 2018 vs. September 30, 2017 (Unaudited)

As of September 30, 2018, the Bank registered a Net Income after Tax of ₱2.03 billion or 8.11% higher than the ₱1.88 billion recorded for the same period last year. The increase in net income was attributed to significantly higher net interest income.

Total Interest Income went up by ₱1.37 billion to ₱12.10 billion versus ₱10.73 billion in 2017.

Interest income on Loans and Receivables was posted at ₱10.54 billion, 14.59% higher than the ₱9.20 billion recorded during the same period last year. Interest earned from Interbank Loans Receivable and SPURA decreased to ₱49.91 million, 4.5% lower than the ₱52.28 million in 2017. Interest income from deposits with other banks went up by 71.72% to ₱2.91 million while Interest earned from deposits with BSP went down by 95.39% to ₱6.11 million. On the other hand, Interest income on Investment Securities went up to ₱1.50 billion from ₱1.34 million due to the Bank's higher investment portfolio in 2018.

Interest Expenses on deposit liabilities rose to ₱3.27 billion from ₱2.33 billion with overall rise in total deposits by 7.19% as of September 30, 2018 versus September 30, 2017. On the other hand, Interest Expense on Subordinated Notes decreased to ₱125.74 million from ₱149.09 million due to the redemption of the Bank's ₱3.0 billion Tier 2 notes issued in 2012 last February 2017.

The Bank recorded ₱42.31 million in Interest Expense on Bills Payable for the nine months ended September 30, 2018.

As of September 2018, Net Interest Income improved by 5.56% to ₱8.66 billion from ₱8.20 billion the same period last year.

Net Service Fees and Commission Income increased to ₱1.12 billion, 10.22% higher than ₱1.02 billion a year ago.

Meanwhile, Other Operating Income decreased by 3.31% or ₱34.79 million to ₱1.02 billion due to higher trading losses recorded for the nine months ended September 30, 2018. The Bank reflected a ₱98.08 million trading losses versus ₱55.05 million losses in 2017.

The Bank registered a net gain on foreclosure and sale of chattel mortgage amounting to ₱212.71 million in 2018 from ₱431.51 million in 2017. For the nine months ended September 30, 2018, the Bank posted a ₱328.34 million gains on foreclosure and sale of investment properties versus ₱230.77 million a year-ago. Miscellaneous Income also went up by ₱91.34 million to ₱489.94 million.

Meanwhile, Foreign Exchange gain was posted at ₱78.34 million compared to the FX gain of ₱43.10 million recorded a year ago.

Other Operating Expenses, excluding provisions for impairment and credit losses, went up to ₱6.92 billion from ₱6.49 billion in September 2017. Compensation and Fringe Benefits was posted at ₱2.55 billion while occupancy and equipment-related costs was at ₱570.62 million. Depreciation and amortization of Bank's properties and leasehold improvements were higher at ₱477.39 million from

Document Classification: PUBLIC

₱476.80 million in 2017. Meanwhile, security, messengerial and janitorial services were at ₱374.18 million. Amortization of software costs was recorded at ₱121.70 million. Miscellaneous Expenses was posted at ₱1.63 billion last year.

The Bank set aside ₱1.54 billion in provisions for impairment and credit losses.

For the nine months ended September 30, 2018, the Bank also reported Share in net income of Sumisho Motor Finance Corporation (SMFC) amounting to ₱54.57 million from ₱45.57 million during the same period last year.

For the quarter-ended September 30, 2018 vs. September 30, 2017 (Unaudited)

The Bank reported a net income after tax of ₱677.09 million for the quarter ended September 30, 2018, ₱21.28 million lower than the ₱698.37 million recorded for the same quarter last year. The decrease was attributed to the lower net interest income.

Total Interest Income for the third quarter of 2018 was reflected at ₱4.15 billion, 10.52% higher than ₱3.75 billion recorded for the same quarter last year. Meanwhile, Total Interest Expense was up to ₱1.33 billion from ₱925.16 million due to the growth in deposit liabilities year-on-year. Net Interest Income was posted at ₱2.81 billion for the quarter.

Interest income on Loans and Receivables was better by 13.85% to ₱3.62 billion compared to the ₱3.18 billion during the same period last year. Interest earned from Interbank Loans and SPURA improved by ₱12.78 million to ₱22.79 million from ₱10.01 million while Interest earned from Investment Securities improved by ₱26.64 million to ₱497.54 million. Meanwhile, Interest earned from deposit with BSP was lower by ₱86.04 million, 98.88% lower than the ₱87.02 million level during the third quarter of 2017. Interest income from placements with other banks was reflected at ₱0.87 million versus ₱0.59 million last year.

Meanwhile, Other Operating Income slid to ₱299.53 million from ₱440.14 million recorded during the third quarter of 2017.

The Bank registered a net loss on foreclosure and sale of chattel mortgage amounting to ₱17.08 million from net gain of ₱197.07 million in 2017. For the three months ended September 30, 2018, the Bank posted a ₱159.50 million gains on foreclosure and sale of investment properties versus ₱57.98 million a year-ago. Miscellaneous Income also went up by ₱138.52 million to ₱132.70 million.

Meanwhile, Foreign Exchange gain was posted at ₱20.97 million compared to the FX gain of ₱17.55 million recorded a year ago.

Total Operating Expenses, excluding provisions for impairment, registered an increase of ₱84.83 million to ₱2.32 billion from ₱2.23 billion in 2017. The Bank set aside additional provisions for credit losses of ₱434.91 million during the third quarter of 2018.

Compensation and fringe benefits rose by 5.27% to ₱864.90 million from ₱821.63 million in 2017. Taxes and licenses went up to ₱407.74 million from ₱331.77. Occupancy and equipment-related costs were also higher by 2.24% or ₱4.14 million to ₱188.52 million versus ₱184.38 million during the third quarter of 2017. Security, messengerial and janitorial services decreased to ₱114.69 million from a year ago level of ₱125.29 million. Amortization of software costs also increased by 14.62% to ₱39.48 million from ₱34.44 million in 2017. Miscellaneous Expense was lower at ₱546.54 million compared to ₱574.16 million in September 2017.

For the three months, the Bank also reported Share in net income of Sumisho Motor Finance Corporation (SMFC) amounting to ₱18.53 million from ₱19.47 million during the same period last year.

Analysis of Key Performance Indicators

The following ratios measure the financial performance of the Bank:

		September 2018 (Unaudited)	September 2017 (Unaudited)	December 31 2017 (Audited)
Return on Average Equity*	ROAE	11.70%	11.94%	12.51%
Return on Average Assets*	ROAA	1.19%	1.20%	1.26%
Net Interest Margin on Average Earning Assets	NIM	6.01%	6.02%	6.10%
Earnings per share	EPS	₱8.45	₱7.82	₱11.05
Capital-to-Risk Assets Ratio	CAR	13.79%	14.19%	13.87%
Liquidity Ratio	LR	20.89%	26.95%	20.70%
Debt-Equity Ratio	DER	8.68:1	9.14:1	8.97:1
Asset-to-Equity Ratio	AER	9.68:1	10.14:1	9.97:1
Interest Rate Coverage Ratio	IRCR	1.70:1	1.83:1	1.84:1

* computed based on annualized/normalized net income

September 2018 vs. September 2017 Comparative highlights on key performance indicators

1. Return on Average Equity (ROAE) in September 30, 2018 decreased to 11.70% from 11.94% in the same period last year. ROAE measures how well the Bank is using common shareholders' invested money. It is calculated by dividing the annualized/normalized net income by the year-on-year average of the outstanding shareholders' equity.
2. Return on Average Assets (ROAA) decreased to 1.19% from 1.20% in September 2017. ROAA is calculated by dividing the annualized/normalized net income by the year-on-year average of the outstanding total assets.
3. Net Interest Margin on Average Earning Assets (NIM) was lower at 6.01% in September 2018 versus 6.02% in the same period last year. NIM is calculated by dividing the net interest income by the average earning assets.
4. Earnings per Share (EPS) was higher at ₱8.45 for the period ended September 30, 2018 compared to the ₱7.82 reported during the same period last year. EPS represents the net profit the Bank has generated per common share. It is computed by dividing the year to date net income by the weighted average number of outstanding common shares.
5. Capital-to-Risk Assets Ratio (CAR) declined to 13.79% in September 2018 versus 14.19% in September 2017. CAR is the measure of the Bank's capital strength. It is calculated by dividing the qualified capital by risk-weighted assets as defined by the Bangko Sentral ng Pilipinas (BSP).
6. Liquidity Ratio (LR) was lower at 20.89% in September 2018 from 26.95% the same period last year. LR measures the Bank's ability to meet its short-term liabilities. It is derived by dividing the current assets by current liabilities.
7. Debt-to-Equity Ratio (DER) went down at 8.68:1 from 9.14:1 in September 2017. DER indicates the extent to which the Bank's leveraged, or financed by credit. This is computed by dividing total liabilities by total stockholder's equity.

Please do not modify its content.

Document Classification: PUBLIC

8. Asset-to-Equity Ratio (AER) declined to 9.68:1 from 10.14:1 last year. AER is computed by dividing the total assets by total shareholder's equity.

9. Interest Rate Coverage Ratio (IRCR) went down to 1.70:1 this year from 1.83:1 in September 2017. IRCR is a measure of the Bank's ability to meet its interest payments on outstanding debt. It is calculated by dividing the total earnings before interest and taxes over interest expense.

C. Key Variables and Other Qualitative and Quantitative Factors

Liquidity

PSBank manages its liquidity position to ensure that it has more than adequate funds to meet its obligations at any given time. The Bank monitors its daily liquidity and reserve position by determining inflows and outflows, short-term and long-term obligations, holdings and repayments. Short-term liquidity management identifies obligations and repayments in the next 12-months, aids in the determination of the securities trading strategy, and influences the Bank's pricing mechanism. On the other hand, long-term liquidity management covers maturing obligations and repayments of loans and investments beyond the next 12-months.

The level of liquid assets remained strong, exhibiting healthy growth in both placements with BSP/other banks and investments.

With the Bank's high capitalization, current liquidity position, strong deposit growth trend, continuing development of retail and corporate accounts, and prudent liquidity management, PSBank does not anticipate encountering any cash flow or liquidity problems in the next 12 months. It remains confident of its ability to meet its obligations and is committed to providing the necessary funding to support the projected loan growth, investment activities and expenditures for 2018.

The Bank also performs liquidity stress testing under various stress scenarios to ensure its ability to meet its funding obligations. The Bank has a Liquidity Contingency Funding Plan to anticipate and manage any funding crisis that may occur.

Material Commitments for Capital Expenditures

The Bank's capital expenditure target in 2018 includes projected expenses for new off-site ATMs, upgrade of bank premises including infrastructure, furniture, fixtures and equipment, IT-related activities on systems and licenses.

Causes for Any Material Changes from Period to Period of Financial Statements

See previous discussion on Analysis of Statement of Condition and Discussion of Results of Operations.
