Philippine Savings Bank	HSBC	SGV	Other Fees:	

*As percentage of average daily NAV for the quarter valued at (in Php Bns) 1.17

INVESTMENT OBJECTIVE AND STRATEGY

To achieve liquidity and generate income for its participants by investing in a diversified portfolio of short-term Philippine peso denominated fixed income instruments with a portfolio duration of not more than one (1) year. The Fund aims to outperform its benchmark, the Philippine 91-day Treasury Bills.

CLIENT SUITABILITY

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust Fund Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

Suitable for individual and corporate investors with moderately conservative risk appetite.

KEY RISKS AND RISK MANAGEMENT

Investment in UITF exposes the investors to various types of risks including but not limited to:

- **Interest Rate Risk** : This is the possibility for an investor to experience losses due to changes in interest rates. The purchase and sale of a debt instrument may result in profit or loss because the value of a debt instrument changes inversely with prevailing interest rates.
- **Market/Price Risk** : This is the possibility for an investor to experience losses due to changes in market prices of securities (e.g., bonds and equities). It is the exposure to the uncertain market value of a portfolio due to price fluctuations.
- **Liquidity Risk** : This is the possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a loss.
- **Credit Risk/Default Risk** : This is the possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner on instruments such as bonds, loans, or other forms of security which the borrower issued.
- **Reinvestment Risk** : This is the risk associated with the possibility of having lower returns or earnings when maturing funds or the interest earnings of funds are reinvested.
- **Other Risk** : Your participation in the UITFs may be further exposed to the risk of any actual or potential conflicts of interest in the handling of in-house or related party.

PSBank Money Market Fund uses a defined Risk Management policy in identifying and measuring level of risks. The Fund uses weighted modified duration in evaluating market risk for investment in fixed income securities. Modified Duration measures the approximate sensitivity of the value of the security to changes in interest rates. Interest rates have an adverse relationship with fixed income security prices so that an increase in interest rates generally leads to decrease in fixed income prices and vice versa. The higher the duration of an instrument, the higher its risk (considering all other factors are equal).

- THE UITF FUND IS NOT A DEPOSIT AND IS NOT INSURED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC)
- RETURNS CANNOT BE GUARANTEED AND HISTORICAL NAVPU IS FOR ILLUSTRATION OF NAVPU MOVEMENTS/FLUCTUATIONS ONLY
- WHEN REDEEMING, THE PROCEEDS MAY BE WORTH LESS THAN THE ORIGINAL INVESTMENT AND ANY LOSSES WILL BE SOLELY FOR THE ACCOUNT OF THE CLIENT.
- THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE
- THE INVESTOR MUST READ THE COMPLETE DETAILS OF THE FUND IN THE PLAN RULES, MAKE HIS/HER OWN RISK ASSESSMENT, AND WHEN NECESSARY, HE/SHE MUST SEEK INDEPENDENT/PROFESSIONAL OPINION, BEFORE MAKING AN INVESTMENT

Statistics

Weighted Modified Duration	0.26
Volatility, Past 1 Year*	0.33%
Sharpe Ratio**	-0.12
Information Ratio***	-0.33

*Volatility measures the degree to which the Fund fluctuates vis-à-vis its average return over a period of time.

**Sharpe Ratio is used to characterize how well the return of a Fund compensates the investor for the level of risk taken. The higher the number, the better.

*** Information Ratio measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk.

OTHER DISCLOSURES

1) RELATED PARTY TRANSACTIONS

The Fund has deposits with the Bank Proper amounting to Php 165,183,909.68, which were approved by the Trust Committee. Likewise, all related parties transactions are conducted on an arm's length basis.

2) LIST OF PROSPECTIVE INVESTMENTS

The following are among the Fund's approved investment outlets, wherein the Trustee intends to invest depending on strategy, availability, or other market-driven circumstances:

- Bank deposits and such other investments allowed under regulations issued by the BSP.
- Tradable fixed-income instruments issued or guaranteed by the Philippine government or the BSP.
- Tradable fixed-income instruments issued by financial institutions or private corporations; exchange-listed securities; marketable instruments that are

traded in an organized exchange; loans traded in an organized market; and such other tradable investment outlets/categories as the BSP may allow.

OUTLOOK AND STRATEGY

Yields on government securities were up by 2.96 bps on average month-on-month with the 91 day T-bills closing at 3.178%, slightly up by 0.6 bps, as investors remained cautious and stayed on the sidelines following the BSP's decision to maintain policy rates. The BSP has increased its offer for the Term Deposit Facility (TDF) as the maturity of FXTN 7-56 and the recent 100 bps RRR cut was estimated to release another P300-billion of liquidity into the system. The Fund's year-to-date absolute performance was 3.863% outperforming its benchmark by 46.5% while the 30-day absolute performance was at 0.20% vs. benchmark of 0.23. We will continue to monitor local and foreign developments and take advantage of any upticks in yields to maximize return.
